Introduction

The FPM-3220 control panel series from Advantech incorporates a LCD control panel with 64 data-entry keys, 10 function keys, 10 unique programmable macro keys and a 12.1" SVGA 800 x 600 TFT LCD screen. The strong membrane key function gives the FPM-3220 powerful panel programming benefits like standard workstations, but no deep space problems. Equipped with a direct VGA interface, the FPM-3220 can connect to any PC Box over long distances without the wiring and cabling limits faced by traditional bulky workstations. Optional front FDD access design gives users the ability to easily retrieve and install data. The FPM-3220 is a perfect and cost effective control panel selection with PCs for machine builders like packaging, cutting, CNC, and production line control.
