DS-5015SLR(B)

- ### FEATURES
- **Sunlight Readable, 1200 Nits Display**
  - State of the art 15" TFT XGA color LCD supporting resolutions up to 1024 x 768
  - Sophisticated scaling engine produces excellent full screen images in all common VESA modes automatically
  - Analog resistive touchscreen and driver software (USB or Serial connections available - only one cable can be used at a time)
  - Cutout compatible with 5015T/R2 cutout
  - Shallow mounting depth
  - Powder coated aluminum front bezel (stainless steel front bezel optional)
  - Auto dimming feature with stainless steel bezel
  - Provision for 75mm VESA arm mounting on back of monitor
  - Simple installation using mounting clips - no studs
  - Up to 50' cables (10' USB and Serial touchscreen cables included)
  - NEMA 4/4X/12 front panel
  - 100-240 VAC power supply - 24 VDC optional
  - UL, cUL & CE approved
  - UL listed for Hazardous Locations: Class I, Division 2, Groups A, B, C, D; Class II, Division 2, Groups F and G; Temp. Code: T6
  - 1 year warranty

*Pro-face/Xycom's 5015SLR Sunlight Readable 15" industrial flat panel touch monitor offers state-of-the-art performance and features at a very competitive price.*

### Sunlight Readable

The 5015SLR delivers superb display quality up to 1024 x 768 (XGA) resolution with a color depth of 16 million colors while being able to be used in very high ambient light conditions. The 1500 Nit LCD display coupled with a resistive touchscreen containing integrated films that attenuate UV light and allows transmission of visible light make the 5015SLR ideal for many applications either indoors or outdoors which require usability in direct sunlight.

### Analog Resistive Touchscreen

Many available sunlight readable flat panel monitors utilized capacitive or Near Field Imaging (NFI) touchscreens to provide adequate clarity and UV protection. Coupled with these types of touchscreens are issues with the lack of being able to use a gloved hand or inoperability when water is pooled on the unit. Pro-face/Xycom has chosen an analog resistive touchscreen that eliminates these issues completely. Integrated with this touchscreen is a very durable thin layer of glass on the external

surface that protects the touchscreen from excessive wear when utilized in harsh environments. The touchscreen also incorporates UV protective layers that protect the LCD from the harmful rays of the sun, much like sun block with a high SPF factor for your skin. This makes the 5015SLR ideal for many applications, such as an oil platform, shipboard, or outside informational Kiosks.

### High Standards

The 5015SLR meets all the environmental standards expected of a Pro-face/Xycom Heavy-Duty industrial product. It can be used in an operating temperature range of 0°C to 50°C and is documented and tested to be NEMA 4/4X/12 compliant. The 5015SLR is standard with UL, cUL, and CE compliance and is also approved for use in Class I Division 2 or Class II Division 2 hazardous locations without the need for purging. Simply mount the 5015SLR in a NEMA sealed enclosure and it can be utilized in applications requiring hazardous locations approvals.

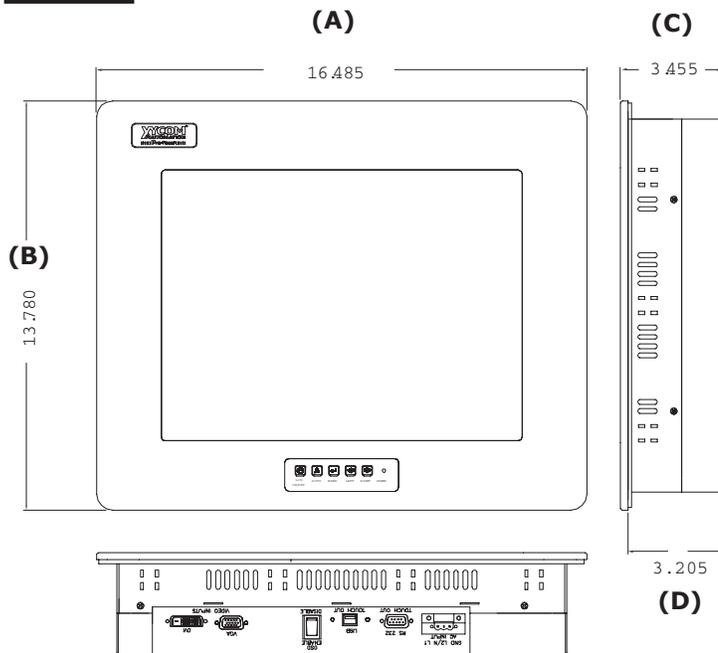

The 5015SLR can be operated using a DVI or analog VGA video connection and allows for the use of either USB or Serial RS-232 for the touchscreen interface. The unit ships with 10 foot USB and Serial touchscreen cables (only one can be used at a time). It also ships with a 10 foot VGA video cable; DVI cables up to 10 foot are available as an optional item. Cables up to 50 foot are available for RS-232 and VGA.

### Cutout Compatibility

The 5015SLR mounts in the standard 5015T/R2 cutout allowing the choice of sunlight readable or not in an application without altering the enclosure. Both units mount easily in the same cutout using the included mounting clips.

## PRODUCT CUTOUT DIMENSIONS

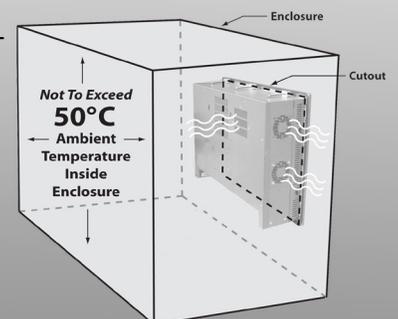

### Temperature Specifications

When installing your 5015SLR into an enclosure, extra care should be exercised to ensure that the ambient air around the unit (inside your enclosure, not outside the enclosure) does not exceed 50°C. Exceeding 50°C may cause premature degeneration of the unit.

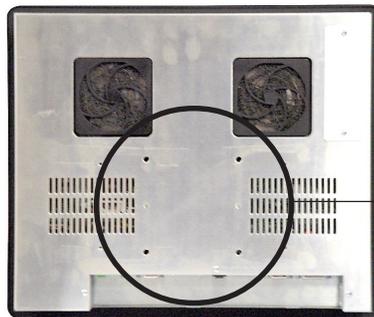

Even though the 5015SLR is a very compact unit care still needs to be exercised when installing the 5015SLR into an undersized enclosure. Consult your enclosure manufacturer for proper sizing and/or cooling options.

The product specifications and ratings section of this datasheet contains the information your enclosure manufacturer will require.

## MOUNTING OPTIONS

The 5015SLR is designed to be mounted directly in an equipment panel or enclosure without special mounting plates or brackets. It can also be mounted to an articulating arm or stand using the 75 mm VESA arm mounts on the rear of the unit (see image below). An optional rack mount adapter plate is also available (RM5015T/R2).

- Approved for Hazardous Locations: Class I, Division 2, Groups A, B, C, D; Class II, Division 2, Groups F and G; Temp. Code T4A

The new 5012KPM(T) and 5015KPM(T) are the latest additions to Pro-face/Xycom's ever expanding line of Industrial LCD Flat Panel Monitors. Equipped with full alphanumeric membrane keyboards, Interlink Versapoint pointing devices, and optional analog resistive touch screens, these monitors offer the ultimate in flexibility for human interface to a PC. Users may connect a PS/2 keyboard and mouse, and one USB device to sealed front panel connectors. High performance 12" (5012KPM(T)) and 15" (5015KPM(T)) LCD's deliver superb display quality. Like all Pro-face/Xycom 5000 Series monitors, the 5012KPM(T) and 5015KPM(T) are UL508 listed, CE compliant and UL approved for use in Class I & II, Division 2 Hazardous Locations. Whether you choose a Pro-face/Xycom industrial node computer or a "white box" PC for your next control application, no other Industrial Monitors offer more features than the new Pro-face/Xycom 5012KPM(T) and 5015KPM(T) monitors.

<p><b>Customizable Membrane Keypad</b></p> <p>Both the 5012KPM(T) and 5015KPM(T) are equipped with sealed tactile 74-position membrane keypads that provide full alphanumeric and function key operator input. 40 of the keys are special function keys that are relegendable. (There are replaceable slide-in insert strips that allow customers to customize the key legends.) With the included programming utility, keyboard scan codes can be modified and strings of</p>	<p>keystrokes can be programmed into selected keys, providing the ultimate in input flexibility.</p> <p><b>High Performance Displays</b></p> <p>State-of-the-art Thin Film Transistor (TFT) LCD's are used in the new 5012KPM(T) and 5015KPM(T) monitors. The 5012KPM(T) utilizes a 12" SVGA (800 x 600) LCD, while the 5015KPM(T) contains a 15" XGA (1024 x 768) LCD. Both LCD's have wide vertical and horizontal viewing angles, as well as excellent</p>	<p>brightness and contrast. Built-in scaling engines allow lower resolution images to be displayed full-size with excellent image quality (640 x 480 on the 5012KPM(T); both 640 x 480 and 800 x 600 on the 5015KPM(T)). Long life backlights ensure years of dependable performance.</p>

## 5015T/R2 Industrial Flat Panel Touch Monitor

DS-300005(D)

### FEATURES

- 2-year warranty
- State of the art 15" TFT XGA color LCD supporting resolutions up to 1024 x 768 @ 75Hz, 265K colors
- Sophisticated scaling engine produces excellent full screen images in all common VESA modes automatically
- Analog resistive touch screen and driver software standard (USB or Serial connections available - only one cable can be used at a time)
- Analog View (VGA) and Digital Video Input (DVI)
- Mounts in 5015T or XT1502 cutouts with included mounting spacers
- Shallow mounting depth - only 2.85" deep
- Powder coated aluminum front bezel (stainless steel front bezel optional)
- Provision for 75mm VESA arm mounting on back of monitor
- Simple installation using mounting clips - no studs
- 24V DC input power option
- Up to 50' cables (10' USB and Serial touch screen cables included)
- NEMA 4/4X/12 front panel
- UL, cUL & CE
- UL listed for Hazardous Locations: Class I, Division 2, Groups A, B, C, D; Class II, Division 2, Groups F and G; Temp. Code: T6

*Pro-face/Xycom's 5015T/R2 15" industrial flat panel touch monitor offers state-of-the-art performance and features at a very competitive price.*

### Superb Display Quality

The 5015T/R2 delivers superb display quality up to 1024 x 768 (XGA) resolution with a color depth of 265K colors.

The latest generation scaling capability assures high quality, full-sized images for all standard VESA modes up to XGA @ 75Hz.

### Precision Manufacturing for Harsh Environments

The 5015T/R2 is constructed using an aluminum front bezel providing trouble

free service in hostile NEMA 4/4X/12 environments. An optional stainless steel front bezel is now available. The 5015T/R2 now offers a 24V DC input power option.

### Fits Your Needs

Other features include Hazardous Location - UL Class 1 Division 2, Class 2 Division 2 compliance, an integrated analog resistive touch screen and special mounting clips for quick and easy installation.

All units are shipped with ten foot USB and serial touch screen cables and drivers. Only one cable can be used at a time.

### Cutout Compatibility

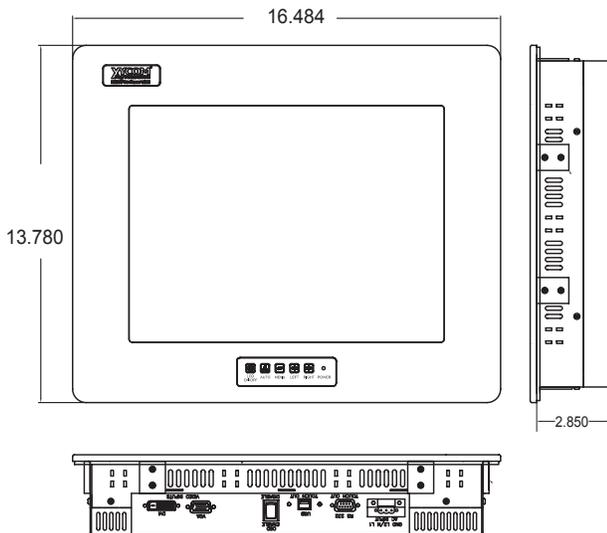

The 5015T/R2 mounts easily in previous 5015T and XT1502 monitors cutouts with the included mounting spacers. Requires no change in existing panel cutout.

### Temperature Specifications

When installing your 5015T/R2 into an enclosure, extra care should be exercised to ensure that the ambient air around the unit (inside your enclosure, not outside the enclosure) does not exceed 50°C. Exceeding 50°C may cause premature degeneration of the unit.

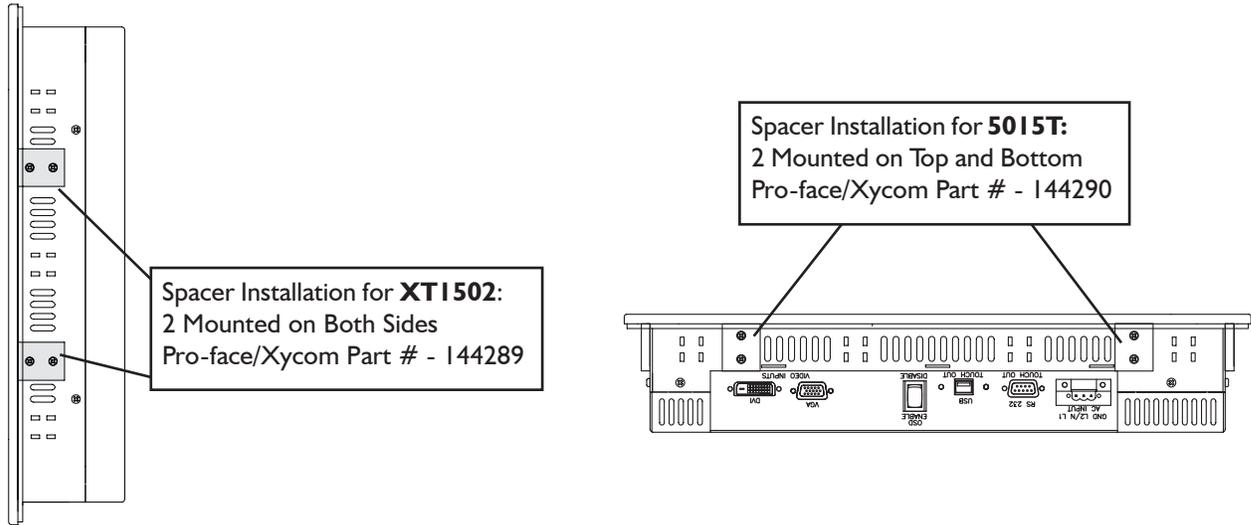

Even though the 5015T/R2 is a very compact unit, care still needs to be exercised when installing the 5015T/R2 into an undersized enclosure. Consult your enclosure manufacturer for proper sizing and/or cooling options. The product specifications and ratings section of this datasheet contains the information your enclosure manufacturer will require.

## PRODUCT AND MOUNTING DIMENSIONS (continued)

### 5015T/R2 Mounting with Spacers

The 5015T/R2 will mount directly in previous 5015T version and XT1502 cutouts with included mounting spacers. See diagrams below.
