Standard/Slim Pushbutton Boxes

NEMA Rated Pushbutton Enclosures

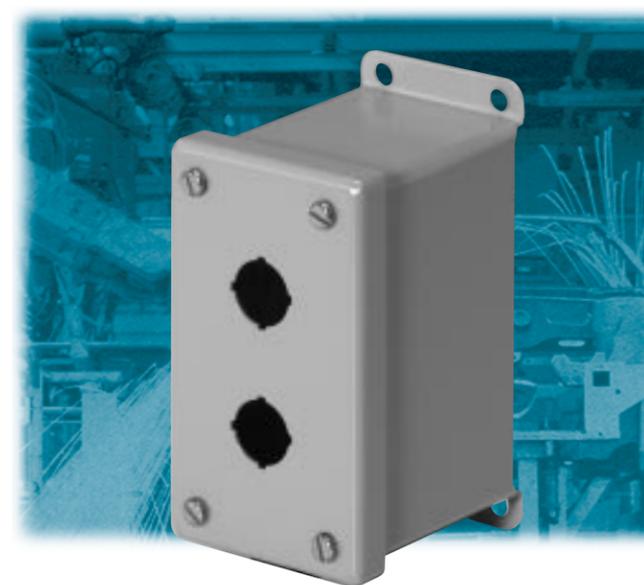

These NEMA rated boxes are designed for indoor use to house pushbuttons, selector switches, pilot lights, etc., and to protect such equipment against dirt, dust, and spraying of water, oil or coolant.

Several models of these pushbutton enclosures can be mounted onto a Rittal Electromate column and base and used as an operator station.

Pages NON 25-26

Miniature Pushbutton Boxes

NEMA Rated Pushbutton Enclosures

These NEMA rated boxes are designed for indoor use to house pushbuttons, selector switches, pilot lights, etc., which mount in miniature "4-way" pushbutton holes, and to protect such equipment against dirt, dust, and spraying of water, oil or coolant.

Several models of these pushbutton enclosures can be mounted onto a Rittal Electromate column and base and used as an operator station.

Page NON 27

Configuration

- Continuously welded seams, finished smooth
- Poron strip gasket
- Standard pushbutton holes accept all brands of 30.5 mm "4-way" oil tight pushbuttons, switches, and pilot lights
- Captive plated screws to hold cover
- External mounting brackets

Technical Specifications

Material:

- Enclosure/cover: 14 gauge carbon steel

Finish/color:

- Enclosure/cover: polyester-urethane powder coat over phosphatized surfaces, inside and outside – ANSI 61 grey

Extra Deep Pushbutton Boxes

NEMA Rated Pushbutton Enclosures

These NEMA rated boxes are designed for indoor use to house pushbuttons, selector switches, pilot lights, etc., and to protect such equipment against dirt, dust, and spraying of water, oil or coolant. Their extra depth accommodates stacked pushbutton units.

Several models of these pushbutton enclosures can be mounted onto a Rittal Electromate column and base and used as an operator station.

Configuration

AP Desk Consoles

Desk Console System

Rittal's AP Series console system answers the need for variability, performance, safety, assembly, and aesthetics for operator interface applications. The AP design allows unlimited combinations of bottom, center, and top sections. Also available are complete, one-piece desk units. Their perfect design facilitates easy assembly and provides security and usability.

Universal Console System

The universal AP console is the newest addition to the AP family. It features a uni-body construction with an integrated 25 mm interior hole pattern for easy component installation. Available with or without an optional desk unit, it also features a full-sized mounting panel.

Configuration

- Doors front and rear on specific models
- Safety catches and cables secure open lid
- Mounting panel included
- Depth adjustable mounting panel for AP 2610600/2640600/2650600/2694600
- 2-part and 3-part cable entry panels
- Integrated mounting rails in center section
- Knife-edge design protects against liquid entry
- Maximum strength and stability through unibody construction
- E-coat primer and powder paint provide superior corrosion resistance
- Integrated grounding provisions
- Foamed-on gasket
- Modular bottom, center, and top sections allow a variety of combinations for specific applications
- Top sections are available in two heights and depths
- System installation holes (Universal console) (25 mm spacing) PS
- Desk unit can be rotated 180° for either sloped or horizontal desk surface (Universal console)
- Full height mounting panel (Universal console)

Technical Specifications

Material:

- *Sheet steel housing:* 16 ga/1.5 mm
- *Doors and lids:* 14 ga/2 mm
- *Mounting panel:* 11 ga/3 mm, hot dipped galvanized zinc

Finish/color:

- *Housing, doors, and lids:* E-coat primed, powder painted, RAL 7032 pebble grey
- *Mounting panel:* Type M
- *Universal console trim:* RAL 5018 teal green

Consoles, Pedestals and Bases

Carbon Steel Desk Units

These NEMA rated individual desk units are designed for indoor use to meet the requirements of most operator interface applications.

Control components such as meters, pushbuttons, pilot lights, and switches, can be mounted on the top-hinged control panel that slants 30° or 60°.

Pedestal and base assemblies allow the desk units to be floor mounted. Wiring connections can be made through the base, the vertical column or directly to the desk unit.

Configuration

Console:

- Continuously welded seams, finished smooth
- Poron strip gasket
- Control panel slants 30° or 60° and is attached with a continuous steel hinge at top and secured with captive screws

Pedestal/column:

- Removable, gasketed access plate in column body
- Urethane gasket

Base:

- Pre-punched holes to accept column
- Two formed channels welded to underside of base

Technical Specifications

Material:

- Console/desk unit: 14 gauge carbon steel
- Pedestal/column: 14 gauge carbon steel with 10 gauge steel mounting flange at each end
- Base: 12 gauge carbon steel

Finish/color:

- All steel parts: polyester-urethane powder coat over phosphatized surfaces, inside and outside – ANSI 61 grey

Series Operator Enclosures

Carbon Steel Freestanding Consoles

These NEMA rated freestanding steel operator consoles are designed for indoor use and meet the requirements of a variety of operator interface applications.

Control instruments such as pushbuttons, pilot lights, meters, switches, etc., can be mounted on the control panel that slants 16° (Series 9), 45° (Series 12) and 60° (Series 14). Optional console top and/or writing desk provide additional flexibility. Control equipment components can be mounted on removable sub-panels on the side and back walls inside the enclosure.

Configuration

- Continuously welded seams, finished smooth
- Urethane gasket
- Control panel slants (Series 9 slants 16°, Series 12 slants 45°, Series 14 slants 60°) and is attached with a continuous steel hinge at front and secured with captive screws
- Mechanical brace to hold control panel open to 90°
- 3-point latch with oil tight key locking handle
- Mounting panel provisions installed
- Print pocket included

Technical Specifications

Material:

- Enclosure/door: 14 gauge carbon steel

Finish/color:

- Enclosure/door: polyester-urethane powder coat over phosphatized surfaces, ANSI 61 grey outside and white inside
- Optional mounting panels: painted white

PC Computer Enclosures

TS8 PC Enclosures

NEW! Check out the latest in enclosure technology with Rittal's latest TS-based PC enclosure. Based on the revolutionary TS8 16-fold frame, these PC enclosures feature two levels of installation in the vertical profile for increased space and internal mounting for component shelves and more.

Standard PC Freestanding Enclosures

PCs are important interfaces in today's computer-aided manufacturing environment. The Rittal PC computer enclosure houses monitor, CPU, keyboard, printer, and/or other components in one cabinet that is equally at home on the shop floor as in an office environment.

Standard PC ValuePack Enclosures

Designed to offer a pre-packaged PC solution, the Rittal PC ValuePack offers an enclosure that is based on standard components that can be ordered with just a single number.

PC Desktop/Pedestal Enclosures

The PC Desktop/Pedestal enclosure is a one piece unit designed to sit on a desk, table top or a pedestal.

Configuration

TS8 PC Enclosures

- All standard TS8 enclosure features
- Viewing door w/security glass
- Integrated pull-out keyboard w/mouse pad that can be pulled out left/right
- Vented monitor and component shelves prevent heat build-up

Standard PC Freestanding Enclosures

- Knife-edge design averts liquid away from gasket
- Easy access to interior components from all sides
- Integrated grounding provisions on all surfaces
- Time saving quick assembly method through the use of the .98"/25 mm hole pattern
- Foamed-on gasket
- Rear door
- Accepts up to 19" monitors (21" on select models)
- E-coat primer and powder paint provide superior corrosion resistance

PC ValuePack Enclosures

- Pre-installed climate control
- Pullout keyboard/integrated mouse pad
- Additional vented shelf
- Casters with brakes
- Powerstrip

Technical Specifications

TS8/Standard/ValuePack Enclosures

Material:

- *Body:* 16/1.5 mm sheet steel
- *Rear door:* 14 ga/2 mm sheet steel
- *Side walls:* 16 ga/1.5 mm sheet steel
- *Bottom front door:* 14 ga/2 mm sheet steel
- *Corner trim panels:* extruded aluminum
- *Monitor panel:* 3 mm security glass with 19" or 21" mask
- *Keyboard front panel:* plastic UL 94-VO

Finish/color:

- *Body:* E-coat primed, powder painted, RAL 7035 pebble grey
- *Corner trim panels:* powder painted, RAL 5018 teal green

VIP Flat Panel Enclosures

Flat Panel Enclosure System

Rittal's VIP 6000 operator interface system offers modular solutions for countless flat panel applications. The VIP is made-to-order in a variety of sizes and versions that can be adapted to your specific requirements.

Its contemporary design showcases control technology in an attractive package, as well as provides optimum ergonomics for the operator while keeping heat-sensitive electronic components cool.

The modular flat panel system is available with a keyboard housing or tray. The keyboard housing lets you integrate your own control panel and the keyboard tray accommodates most standard PC keyboards.

This efficient operator interface system also offers a wide variety of accessories including vertical and/or horizontal handle sets, clip boards, and may be combined with support arm systems CP-L, CP-XL, or CP-Vertical.

New Frame Bezel Designs

Two new frame bezel designs have been added to the current VIP wide frame bezel that will allow further customization of the VIP enclosures. The new narrow frame bezel enhances the aesthetics of the VIP and reduces the overall size of the VIP by almost 2". The new "combined" frame bezel has the same features of the narrow bezel plus integrated rubberized grips on the sides.

.009 Wide VIP 6000 Frame
Wide front frame of extruded aluminum sections and die-cast zinc corner pieces.

.209 Narrow VIP 6000 Frame
Narrow front frame of extruded aluminum sections and die-cast zinc corner pieces.

.109 Combined VIP 6000 Frame
Combination of narrow front frame top and bottom (made from extruded aluminum sections and die-cast zinc corner pieces), plus soft frame at the sides.

Configuration

- Three frame designs allow further customization
- Designed to be used with CP-L, CP-XL, or CP-Vertical pendant arm systems
- Mounting channels on all sides facilitate component installation
- The interior of the housing is accessible through either a hinged rear door or a screwed-on aluminum rear panel
- A mounting kit can be clipped-in to accommodate installation of a variety of control panel components and displays
- Colored plastic strips cover mounting screws and enhance the design of your product
- Cable duct for easy routing from enclosures to keyboard housing
- Enclosures can be ordered with, without, or a combination of cooling fins
- The enclosure front can be partitioned with optional cross mullion
- Optional accessories such as handles, clipboards, and front panels are available

Technical Specifications

Material:

- *Housing and front frame:* extruded aluminum
- *Frame corner pieces:* zinc die-cast
- *Corner protection pieces for housing:* self-extinguishing plastic
- *Trim strips:* flexible plastic

Finish:

- *Housing frame:* natural anodized
- *Front frame and frame corner pieces:* textured enamel; RAL 7035 light grey
- *Trim strips:* RAL 5018 teal, RAL 5012 blue, RAL 4006 purple, RAL 7030 grey, RAL 3001 red, RAL 7024 graphite grey
- *Wide frame:* RAL 7035 light grey
- *Narrow frame:* RAL 7035 light grey
- *Combined frame:* RAL 7035 light grey with soft rubber coating (RAL 7024)

Determine The Panel Dimensions

It's so easy.

First determine the height and width of your planned operator panel and check the following installation criteria. If these criteria are met, you are ready to install directly in one of three VIP frames, customized to your dimensions. The dimensions of the selected operating housing (3.), the keyboard housing (4.) and the handle sets etc. are automatically tailored to match the frame. In exceptional cases to which other conditions apply, Rittal also has the answer.

1. 7 to 13 mm spacing of the fixing holes or bolts.
2. Front plate projection at sides with fixing holes at least 17 mm, and at sides without fixing holes at least 6 mm.
3. Front plate thickness variable, depending on the type of trim section.
4. **Installation depths:**
Command panels = 155 mm, 185 mm, 295 mm, 328 mm, 438 mm.
Command panels with **45 mm deep rear panel*** = 200 mm, 230 mm, 340 mm, 373 mm, 483 mm.
Command panels **with 245 mm deep rear panel*** = 400 mm, 430 mm, 540 mm, 573 mm, 683 mm.
5. For versions with a hinged rear panel, the maximum installation depth is reduced by 27 mm in the vicinity of the lock.

* Other depths available on special request.

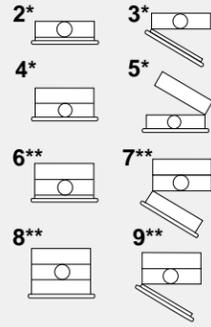

VIP 6000 Operator Enclosure Design

3.1 Operator Enclosure

Installation depth:

- 1 6.10"/155 mm
- 2 7.28"/185 mm – screw-on
- 3 7.28"/185 mm – hinged
- 4 11.61"/295 mm – screw-on
- 5 11.61"/295 mm – hinged
- 6 12.91"/328 mm – screw-on
- 7 12.91"/328 mm – hinged
- 8 17.24"/438 mm – screw-on
- 9 17.24"/438 mm – hinged

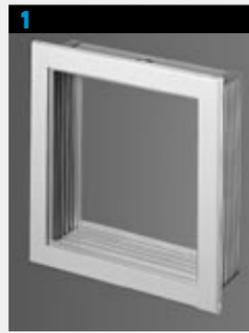

Example

The colored numbers identify the version we've selected for our example.

*Use CP-L support arm system
 **Use CP-XL support arm system

View from the top.
 Other hinges available, if required.

3.2 Cross Member/Sealing Bar

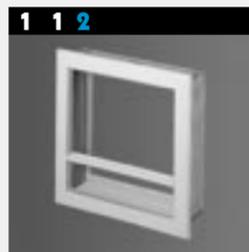

- 0 Without cross member or sealing bar
- 1 With one cross member
- 2 With one sealing bar
- 3 With two cross members
- 4 With two sealing bars
- 5 With one cross member and one sealing bar
- 6 With an adaptor plate*
- 7 With spacer and installation blanking plate above*³⁾
- 8 With spacer and installation blanking plate below*³⁾

* Special request only—extended lead times.
³⁾ Only in connection with end trim

3.3 Cooling Fins

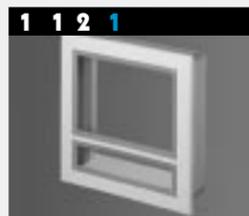

- 1 No fins
- 2 Fins on sides only
- 3 Fins all around
- 4 For aggressive cooling requirements.

For units with installation depths of 7.28" and 12.91"/185 and 328 mm, the housing part that is attached to the front frame (approximately 35 mm) is available without fins only.

3.4 Types Of Trim Strips

- 1 Cover trim
- 2 End trim
- 3 Spacer trim

3.5 Trim Colors

- 1 Teal (similar to RAL 5018)
- 2 Light blue (similar to RAL 5012)
- 3 Bright red (similar to RAL 3001)
- 4 Purple (similar to RAL 4006)
- 5 Dark grey (similar to RAL 7030)
- 6 Graphite grey (similar to RAL 7024)

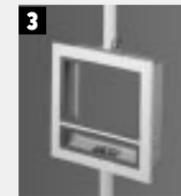

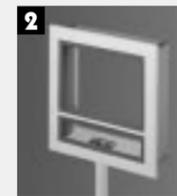

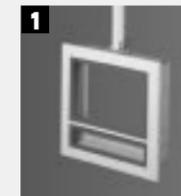

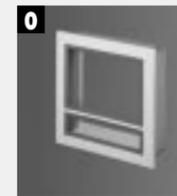

3.6 Support Arm Connection

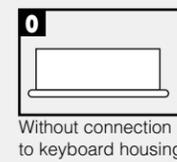

- 0 Without connection
- 1 Connection at top
- 2 Connection at bottom
- 3 Connection at top and at bottom (includes one cover panel)

Two different support arm systems are available:

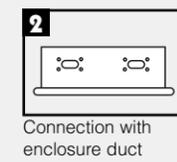

- CP 6500 is designed for enclosures with installation depths of 6.10", 7.28", and 11.61"/155, 185, and 295 mm.
- CP 6000 is designed for enclosures with installation depths 12.91" and 17.24"/328 and 438 mm.

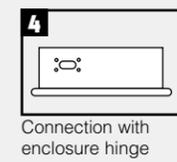

3.7 Cable Duct Connection

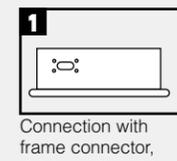

Without connection to keyboard housing

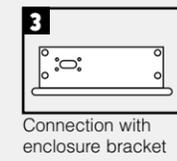

Connection with enclosure duct connector

Connection with enclosure hinge connector

Connection with frame connector, rigid or adjustable

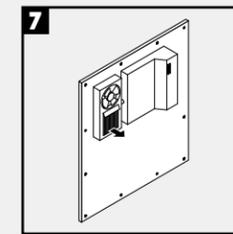

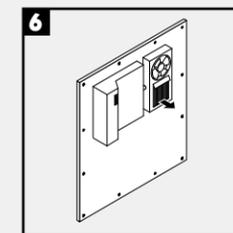

Connection with enclosure bracket connector

3.8 Rear Wall

- 1 Screw-on.**
- 2 Hinged, on longest side, lock with double bit insert.**
- 3 Expansion back plus 1.77"/45 mm* sheet steel, light grey (RAL 7035), hinged, integral screw lock.
- 4 Expansion back plus 9.64"/245 mm* aluminum, light grey (RAL 7035), screw-on.
- 5 Heavy-duty hinge for heavy installed equipment.**
- 6 Screw-fixed with built-in small VIP air conditioners. Recommended for Command Panel versions 3, 5, 7, 9. Condenser assembly, top left**
- 7 Screw-fixed with built-in small VIP air conditioners. Recommended for Command Panel versions 3, 5, 7, 9. Condenser assembly, top right**

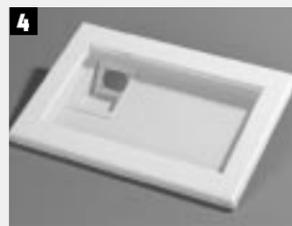

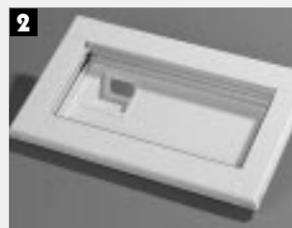

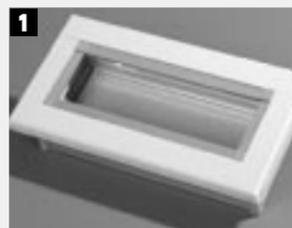

* Other depths and designs on request.
 ** Aluminium, natural anodized

VIP 6000 Keyboard Housing Design

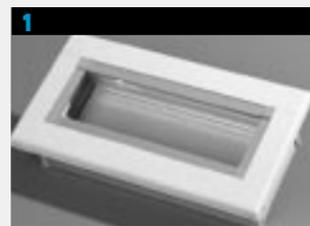

4.1 Keyboard Enclosure

- 1 Installation depth: 4.13"/105 mm
 - 2 Installation depth: 1.73"/44 mm
 - 3 Keyboard lay-in tray, depth: 1.06"/27 mm
 - 4 Keyboard lay-in tray, depth 1.06"/27 mm, with flexible cable tube connector
- For standard keyboards. Without trim. All keyboard housings are custom made per your component dimensions and depending on your operator enclosure specifications.

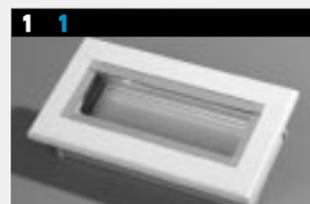

Example

The colored numbers identify the version we've selected for our example.

4.2 Types Of Trim Strips*

- 1 **Cover trim**
covers installation screws of front panel – for front panels ≤ .14"/3.5 mm thick.
- 2 **End trim**
covers gap between front panel and frame profile – for all front panel thicknesses.
- 3 **Spacer trim**
For components that must be flush with frame profile. For front panels with a thickness of appr. 0.14"/3.5 mm.

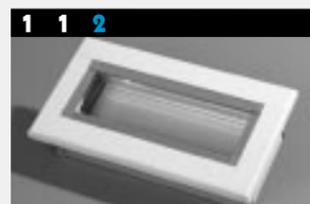

*No selection is available for keyboard enclosure 3 and 4. Please indicate with an X in this case.

4.3 Trim Colors*

- 1 Teal (similar to RAL 5018)
 - 2 Light blue (similar to RAL 5012)
 - 3 Red (similar to RAL 3001)
 - 4 Purple (similar to RAL 4006)
 - 5 Dark grey (similar to RAL 7030)
 - 6 Graphite grey (similar to RAL 7024)
- Enclosure corner protection pieces will also be supplied in the specified color. Other colors are available on special request.

*No selection is available for keyboard enclosure 3 and 4. Please indicate with an X in this case.

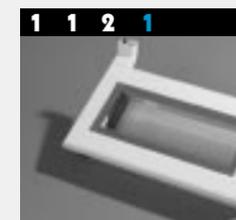

4.4 Frame Connector

- 1 Rigid, 120° angle
- 2 Adjustable from 75° to 210°, adjustable in 7.5° increments. Allows optimum ergonomic adjustment for each user.
- 3 Enclosure duct connector
- 4 Enclosure bracket connector
- 5 Frame hinge connector

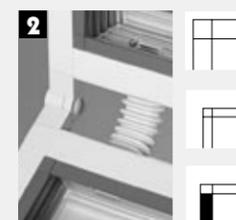

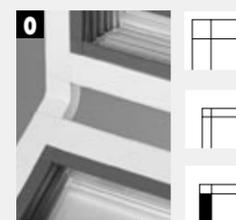

Example

The colored numbers identify the version we've selected for our example.

4.5 Cable Duct*

- 0 None
- 1 Rigid, light grey (RAL 7035) aluminum – for use with rigid frame coupling between operator enclosure and keyboard housing. Installation depth: 4.13"/105 mm
- 2 Flexible, light grey (RAL 7035) plastic – for use with rigid and flexible frame coupling between operator enclosure and keyboard housing. Installation depth: 4.13"/105 mm, 1.73"/44 mm or 1.06"/27 mm

*No selection is available for keyboard enclosure 3. Please indicate with an X in this case.

Manufacturer/model			

4. Operator housing handles

Please select Part No. and location.

4.1 For operator housing CP 6392.009*

- Horizontal handle (one handle) Part No. 6101.009
 Top Bottom Both
 Vertical handle (1 set) Part No. 6102.009
 Default is left and right

4.2 For operator housing CP 6392.109/6392.209*

- Corner handle (1 set) Part No. 6107.000
 Top Bottom Both
 Straight 7U (12^{1/4}") handle (1 set) Part No. 6107.100
 Horizontal Vertical Both
 Straight 19" handle (1 set) Part No. 6107.200
 Horizontal Vertical Both

* Handle cannot be located on bottom of operator housing if keyboard is used.
 Note: When using a VIP enclosure (Part No. CP 6392.009/6351.009) in conjunction with a CP-Vertical pendant arm system, you must order a CP 6392.009 horizontal handle.
 For VIP enclosures (Part No. CP 6392.109/209 and CP 6531.109/209) a specific CP-Vertical release handle must be ordered.

3. Determine the design of the operator housing

(see pages 69-70)

* Handle cannot be located on bottom of operator housing if keyboard is used.
 Note: When using a VIP enclosure (Part No. CP 6392.009/6351.009) in conjunction with a CP-Vertical pendant arm system, you must order a CP 6392.009 horizontal handle.
 For VIP enclosures (Part No. CP 6392.109/209 and CP 6531.109/209) a specific CP-Vertical release handle must be ordered.

Optipanel HMI Enclosures

Smart HMI Solutions

Based on the design and construction of the popular Command Panel operator enclosure line, Rittal's new Optipanel is an ideal housing for applications where smaller enclosures need a special design. The Rittal Optipanel features an elegant, flat design for the utmost in HMI housings. The Optipanel operator housing can be customized exactly to the dimensions of your operator panel as well as other components.

Note: See panel installation criteria on page HMI 12.

Configuration

- Standard version in 3.9" installation depth for commonly used front panels (sized at 19" x 7U)
- Customized models also available for additional installation depths
- Configure to your specific application with housing, mullion, rear wall and keyboard housing
- Retaining clamps provide flexibility to install variety of standard operator interface display panels
- NEMA 12/IP 65 housing with a wide range of accessory options

Technical Specifications

Material:

- *Housing and front frame:* extruded aluminum
- *Frame corner pieces:* die-cast zinc
- *Corner protection pieces:* plastic, self extinguishing
- *Gasket trim strips:* extruded flexible plastic

Finish/color:

- *Housing frame:* natural anodized
- *Corner pieces:* powder coated RAL 7035 light grey, textured
- *Plastic parts:* RAL 7024 graphite grey

Optipanel Enclosure Design

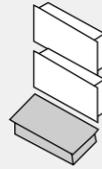

1.1 For Operator Housing CP 6382.009

Indicate the height (H), width (W) and depth (D) or the manufacturer/ type of the HMI device used. Please check for the installation criteria on the first page for further information.

1.2 For Keyboard Housing

Indicate the height (H), width (W) and depth (D) of keyboard/panels or the manufacturer/ type of the keyboard used. Check the installation criteria on the first page for further information.

For Technical Questions/Order Placement:

Please copy the form on page HMI 20 and enter your **panel dimensions** and the **code** for your special configuration.

Configuration Example

The following is an example of an Optipanel configuration with the respective **code number** highlighted.

2.1 Operator housing

1 Installation depth 2"/50 mm

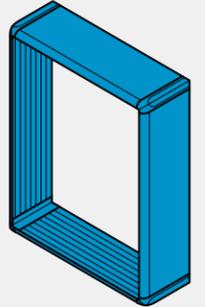

2 Installation depth 4"/100 mm

3 Installation depth 6"/150 mm

2

Configuration example:
The following is an example of an Optipanel configuration with the respective code number highlighted.

2.2 Front design

0 Without mullion

1 With mullion*

2 With sealing bar*

3 With spacer and installation panel on top**

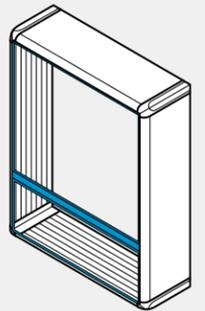

4 With spacer and installation panel at the bottom**

* Indicate the number of individual sections.
Example: 3 front panels in the operator housing = 2 panel joining points = 2 mullions/sealing bars in the configuration.
Other configurations on request.

**Special request only. Extended lead times.

2 1

2.3. Support arm and floor stand connection

0 Without connection

1 Top connection

2 Bottom connection

3 Connection top and bottom*

*Includes a cover plate to close unused cutouts.

4 Top connection

5 Bottom connection

6 Connection top and bottom*

7 Rear connection, at the bottom**

7 Rear connection, on top**
for CP 6525.1X0,
CP 6525.6X0

CP-L □

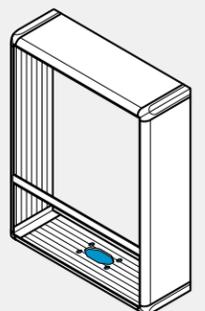

for enclosure coupling CP 6525.1X0,
enclosure mount CP 6525.6X0
**Valid only for installation depth (D)
of 4 and 6"/100 and 150 mm**

CP-L ○

for enclosure coupling CP 6525.0X0,
enclosure mount CP 6525.5X0,
angle coupling CP 6525.0X0
Valid only for installation depth (D) of 6"/150 mm

**Coupling is supplied in RAL 7030.

2 1 2

2.4. Rear wall

Aluminum, 0.12"/3 mm, natural anodized.

Note:

- 1) For support arm connection on rear side it is only possible to hinge on the opposite side of the support arm connection.
- 2) Cannot be used with installation depth of 2"/50 mm with keyboard housing.
- 3) Standard double bit lock insert is exchangeable for lock inserts 41 mm, version C, plastic thumbturn handle and T-handles, version C.
- 4) In the rear wall hinged model, the maximum installation depth is reduced by 1"/25 mm around lock.

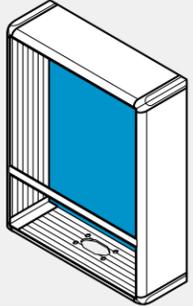

Rear wall screwed-on

Rear wall is hinged on the longest side. Viewed from the rear, right or bottom hinged 1) 2) 3) 4).

2 1 2 1

Configuration example:
The following is an example of an Optipanel configuration with the respective code number highlighted.

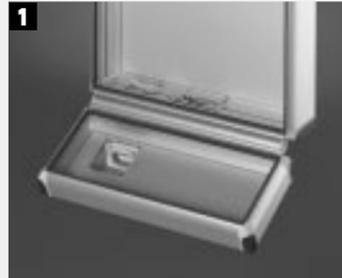

2.5. Keyboard housing

Width is independent from operator housing. The swivel angle is continuously adjustable from 80° to 155°.

Without keyboard housing

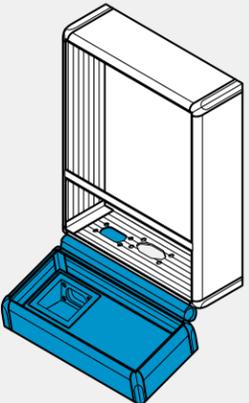

With keyboard housing of installation depth 2"/50 mm.

With keyboard housing of installation depth 4"/100 mm.

2 1 2 1 1

Additional parts needed:

Installation kit for mounting front plates, operator panels and keyboards into the operator or keyboard housings.

Optipanel configuration example:

The drawings on the right margin highlight the build-up of the Optipanel as various options are added. The photo, to the right, shows the final configuration along with the configuration code below. The configuration of the code number is shown in the following table.

2.1	2	Operator housing, installation depth of 4"/100 mm
2.2	1	With mullion
2.3	2	Support arm on the bottom
2.4	1	Screwed-on rear wall
2.5	1	With keyboard housing, installation depth of 2"/50 mm

You can easily define the dimensions and configuration of an operator housing in just a few steps.

Please provide the following pieces of information for RFQ or order:

- 1. Part No.: CP 6382.009
- 2. Dimensions and number of panels/front plates in the operator or keyboard housing, along with drawings for holes/cutouts.
- 3. Configuration code number

Operator/keyboard housing

Part No.: CP 6382.009

Configuration code number: 2 1 2 1 1

CP Pendant Arm Enclosures

Operator Interface Enclosures

Rittal's CP Series was developed to meet the requirements of today's sophisticated control technology including:

- Dense packaging of sensitive components
- Direct accessibility, anywhere on the plant floor
- A high degree of flexibility and ergonomic adaptation to the work place.

Numerous models of operator interface enclosures and two pendant systems combine with an extensive range of support arms, journals, hinges, and connection components to cover virtually any operator interface situation.

The high degree of flexibility and ergonomic design provide unlimited variety for today's diverse work environment.

Configuration

- NEMA 1, 12/IP 54 or 55
- Various configurations for specific applications
- Enclosures can be used with CP-L support arm system (CP-XL can be used w/adaptor CP 6528000)
- Integrated handle grip and front panel
- Designed for small to medium sized HMI applications
- Enclosures include integrated roof reinforcement
- Aluminum front panel can be removed for easy installation of holes and cutouts

Technical Specifications

- Material:**
- Enclosure, door: 16 ga/1.5 mm sheet steel
 - Front panel: 14 ga/2 mm aluminum
 - Handle grips: aluminum
- Finish:**
- Enclosure, door: E-coat primed, painted, RAL 7035 light grey
 - Handle: painted, RAL 7030 stone grey or 5018 teal

CP Pendant Arm Systems

Operator Interface And Support Arm Systems

Rittal's CP 6000 (CP-XL) Series pendant arm systems were developed to offer a high degree of flexibility and ergonomic adaptation to the work environment required by today's sophisticated control technology. A wide variety of enclosures, support arm systems, and accessories combine to satisfy virtually any operator interface need.

Configuration

- Self-tapping screws for easy and secure installation of the pendant arm system
- Support arm cover clips on to support arm for easy access to wiring
- Cable routing before/after installation is easy because one side of the support arm is open
- The enclosed portion of the support arm provides additional shielding
- Torsion resistant extruded aluminum support arms have high load bearing capacity and attractive styling
- Extruded aluminum support arms can be easily cut to a required length
- Enclosures can swivel 350° with couplings
- 90° elbow coupling secures connection between support arm sections and also allows easy cable routing
- Enclosure coupling can be used for top or bottom installation
- Couplings come with either plastic covers or rubber boots which can be removed for easy access to wiring
- Any CP or VIP enclosure can be used

Technical Specifications

- Finish/color:**
- Arm: RAL 7035 light grey
 - Couplings: RAL 7030 stone grey

Unlimited Variety-CP 6000 (CP-XL)

Rittal's flexible CP 6000 pendant arm system offers many advantages over conventional support arm systems. With its extensive range of support arms, journals, and couplings, it offers a sophisticated solution for virtually every application.

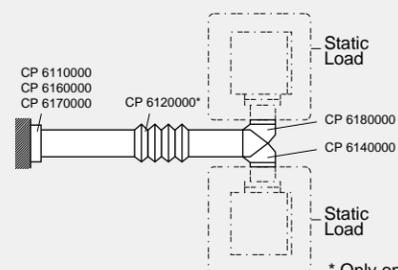

Today's operator interface control systems guarantee optimal information exchange and user-friendliness, but at the same time, place increasing demands on the interface between the operator and machine.

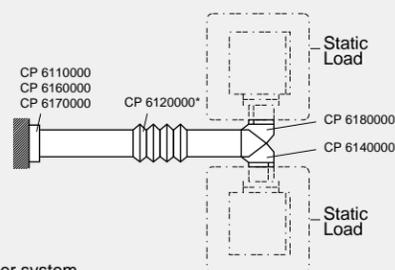

A: Open and solid support section

B: Solid support section

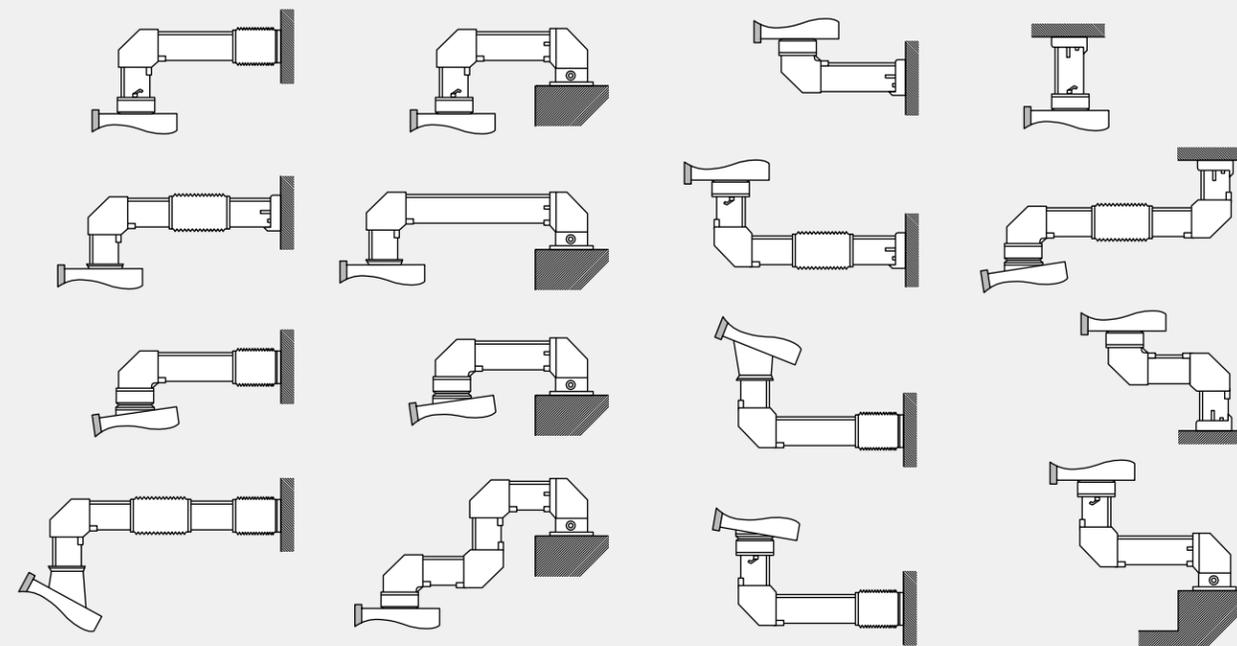

C: Open support section

* Only once per system where possible!

These Are A Few Examples From A Wide Range Of CP 6000 (CP-XL) Possibilities

CP Pendant Arm Systems

Operator Interface And Support Arm Systems

Rittal's CP-L and CP-S Series pendant arm systems were developed to offer a high degree of flexibility and ergonomic adaptation to the work environment required by today's sophisticated control technology. A wide variety of enclosures, support arm systems, and accessories combine to satisfy virtually any operator interface need.

Configuration

- Self-tapping screws for easy and secure installation of the pendant arm system
- Torsion resistant extruded aluminum support arms have high load bearing capacity and attractive styling
- Extruded aluminum support arms can be easily cut to a required length
- Enclosures can swivel 350° with couplings
- 90° elbow coupling secures connection between support arm sections and also allows easy cable routing
- Enclosure coupling can be used for top bottom installation
- Couplings come with plastic covers which can be removed for easy access to wiring
- Any CP, VIP or Optipanel enclosure can be used

CP-S Support Arm System

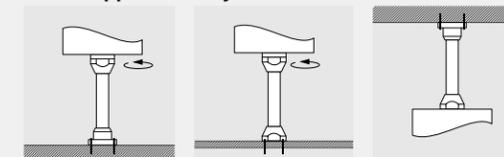

System Benefits

- Compact support arm system for small operator enclosures.
- Easy and fast mounting through set screws on the support arm components.
- The horizontal connection to the larger CP-L support arm system allows longer extension support arms.
- 2 color combinations enable an individual design adjustment to complement the Optipanel (RAL 9006 and RAL 7024) or for CP enclosures in sheet steel, painted (RAL 7035 and RAL 7030) or combined (RAL 7035/RAL 7024).

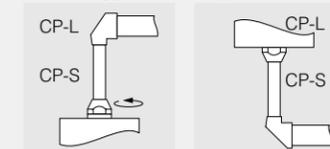

NEW!

Mounting Examples

CP-S Support Arm System

CP-S Support Arm System in combination with CP-L

- The movable components have a maintenance-free sliding bearing and the angle rotation can be limited.

Angle adaptor 90°, the connection to the support arm system CP-L

For connection to:

- Intermediate hinge
- Wall-mounted hinge
- Top-mounted hinge
- Wall/base mounting

The permitted load for vertical construction is 800 N (179.8 lbf), 80kg (176.4 lbs) total weight. The permitted load corresponds to the CP-L load diagram.

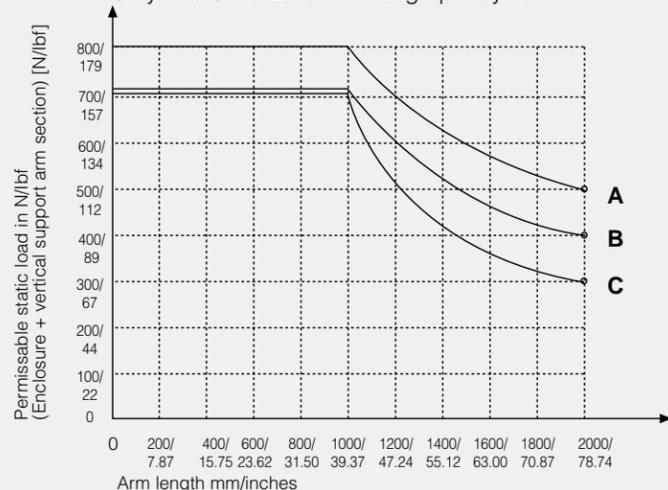

Extensive Versatility-CP 6500 (CP-L)

The support arm system CP-L is designed for small and medium-sized command panels. It offers a whole range of connection and hinged parts, and hence a large number of possible applications.

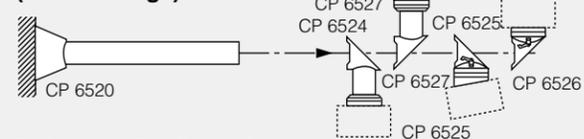

This ensures optimum operation at the interface between man and machine. In other words, the CP-L support arm system provides perfect back-up for optimum information exchange and user friendly handling of graphical interactive control systems.

Permissible load depending on system configuration

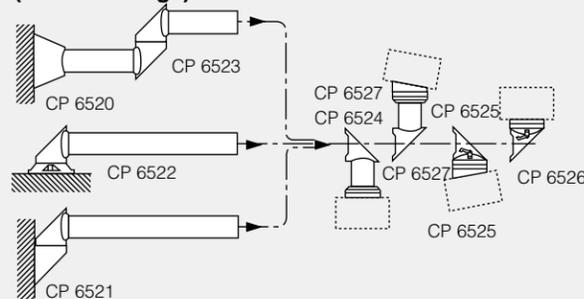

Only one CP 6523 swivel hinge per system

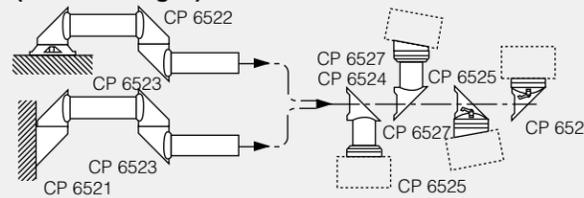

A. System Configuration (without hinge)

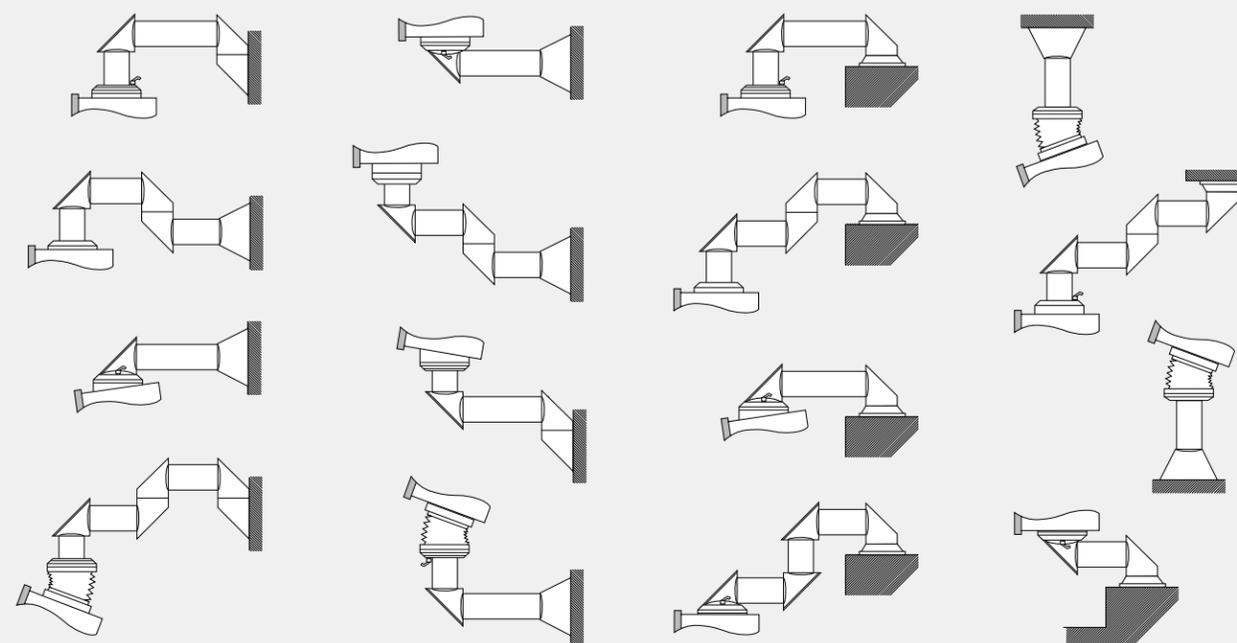

B. System Configuration (with one hinge)

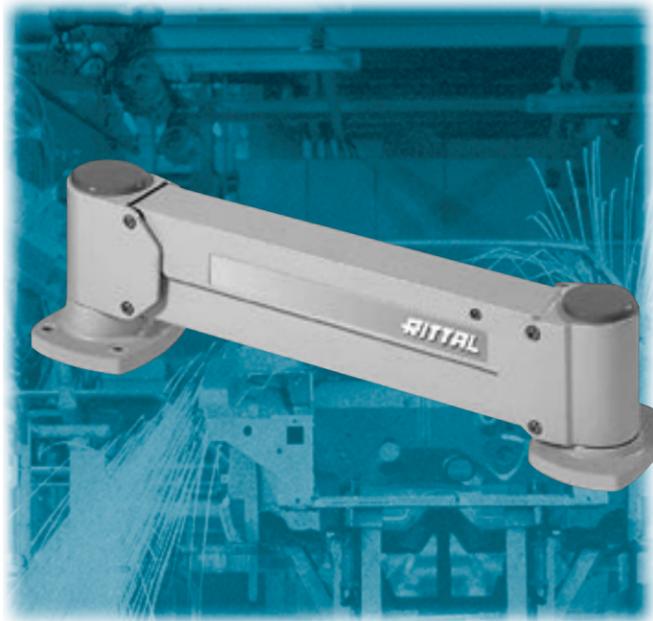

C. System Configuration (with two hinges)

These Are A Few Examples From A Wide Range Of CP 6500 (CP-L) Possibilities

CP-Vertical Pendant Arm Systems

Smart HMI Solutions

Rittal's new operator-driven CP-Vertical pendant arm systems allow any operator to comfortably use a plant floor operator interface device, regardless of the operator's height. To adjust height, the operator merely activates a release mechanism and the interface can be effortlessly repositioned at a new height or moved out of the way. The pendant arm uses a gas spring counterbalancing system that can be easily user calibrated to each system's load that assists in moving and locking the interface device in the desired vertical position.

What's more is, this pendant arm system can be easily incorporated with the new Optipanel enclosures that are specifically designed for flat panel displays. The CP-V System is also ideal for all of Rittal's Command Panel (CP) enclosures.

Configuration

- **Sizes**
 - CP-V 5" H x 3" W x 26" L
 - CP-VL 5" H x 3" W x 31" L
 - CP-VXL 5" H x 3" W x 39" L
- **Vertical travel**
 - CP-V 13"
 - CP-VL 23"
 - CP-VXL 30"
- Adjusts to viewing height of each operator with simple motion
- Counterbalance can be adjusted by user for loads up to 100 lbs (depending on arm)
- 13", 23", or 30" of vertical adjustment
- Locks and unlocks with a convenient release mechanism
- Swivels at both ends
- Optional extensions and floor posts
- NEMA Type 4, 12 sealed cable passageway protects wiring
- Wallmount, machine top, post top or universal mounting options
- Universal mount incorporates the ability to post, wall, or machine mount CP-Vertical arm
- All arms can be easily reconfigured for inverted applications

Note: A release handle mechanism must be ordered for each arm

Technical Specifications

- Material:**
- Aluminum
- Finish/color:**
- powder painted RAL 7035 light grey

9968013	79" Floor post
9968014	Release handle W < 15 ^{1 2}
9968015	Release handle W > 15 ^{1 2}
9968016	Release handle for VIP wide bezel ^{1 2}

1 Must choose one release handle per arm.
2 W = overall enclosure width.

Each CP-Vertical Pendant Arm System Will Include The Following:

- CP-Vertical pendant arm that can be counterbalanced by the user based on load rating
- Mounting method (Post, Wallmount, Machine, Universal) will be attached to pendant arm
- A 4' release cable will be included
- Conversion wrench and instructions
- Hardware to attach enclosure to CP-Vertical arm

Note: Hardware to attach the CP-Vertical pendant arm to mounting surface is not provided.

Below Is A Step-By-Step Guide To Selecting A CP-Vertical Pendant Arm System:

1) Determine Maximum Load:*

Maximum load = Weight of enclosure (lbs) + total weight of all components mounted ON or INSIDE of enclosure

Maximum load (lbs) = _____

* Load = Weight of enclosure + total weight of all components mounted inside enclosure

2) Determine Proper CP-Vertical Pendent Arm Based On Load:

Select a vertical travel based on your maximum load calculation from above.

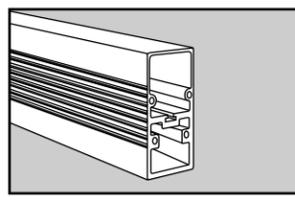

Maximum Load Range (+0%)	CP-V	CP-VL	CP-VXL
	13" Vertical Travel	23" Vertical Travel	30" Vertical Travel
0 to 50 lbs	Yes	Yes	Yes
51 to 75 lbs	Yes	Yes	No
76 to 100 lbs	Yes	No	No

3) Determine Mounting Method:

Based on the CP-Vertical Pendant Arm you selected (i.e. CP-V, CP-VL, CP-VXL) in step #2, select a mounting method that best fits your application.

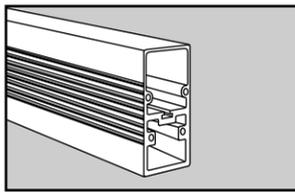

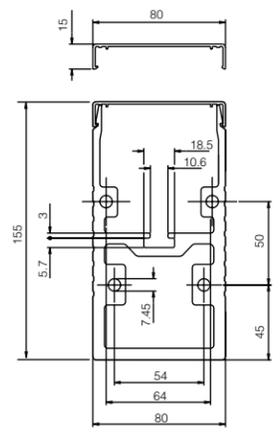

Mounting method	CP-V	CP-VL	CP-VXL
	13" Vertical Travel	23" Vertical Travel	30" Vertical Travel
	Part No.	Part No.	Part No.
Post top	9967987	9967988	9967989
Wallmount	9967993	9967994	9967995
Machine top	9967996	9967997	9967998
Universal*	9967999	9968000	9968001

CP 6000 Support Arm
 The basic component of a CP 6000 pendant arm system. Connection components are attached with self-tapping screws and make combinations of any desired length possible.
Configuration: bend- and torsion-resistant extruded aluminum complete with clip-on cover. Available in three different lengths.
Color: RAL 7035 light grey
Weight: support arm: 6.0 lbs/ft/9.05 kg/m
Cover: .3 lbs/ft/.45 kg/m.

CP 6000 Support Arm		
Length (inches/mm)	Packs of	Part No.
19.7/500	1	6050000
39.4/1000	1	6100000
78.7/2000	1	6200000

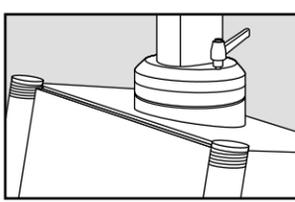

CP 6000 Support Arm, Solid
 The solution for higher weight loads. Approximately 20% more loading capacity than the clip-on cover support arm version.
Color: RAL 7035 light grey
Weight: 23 lbs/10.3 kg

Solid CP 6000 Support Arm		
Length (inches/mm)	Packs of	Part No.
19.7/500	1	6050500
39.4/1000	1	6100500
70.7/2000	1	6200500

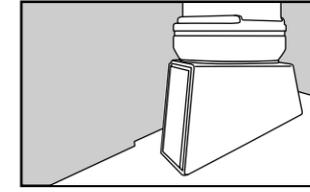

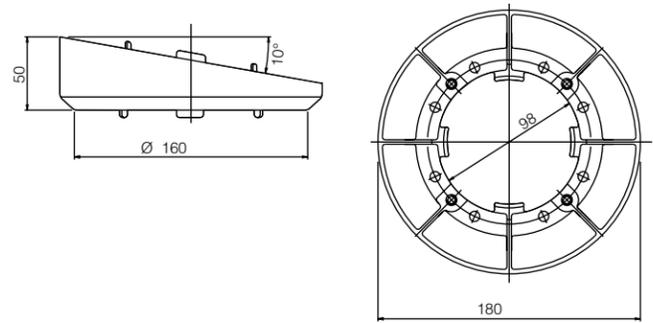

Adjustment Shim
 Allows subsequent adjustment of CP support arms.
Material: sheet steel, zinc coated, yellow chromate.

Adjustment Shim		
Adjustment shim	Packs of	Part No.
Adjustment shim	10	6205000

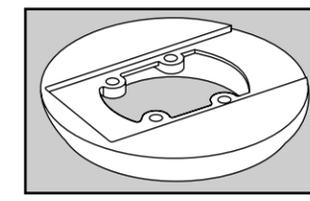

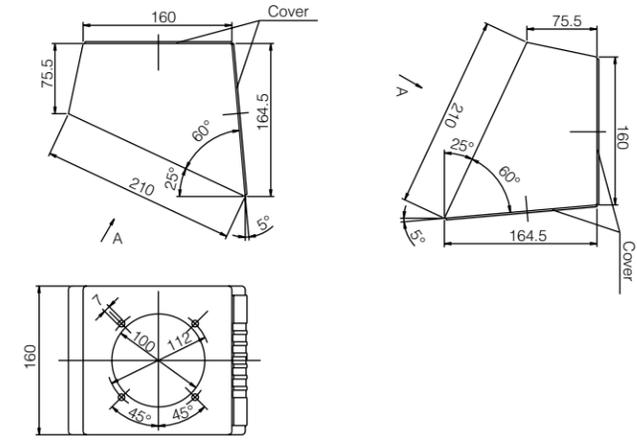

10° Tilting Adaptor
 Tilts enclosure for increased user-friendliness; installed between housing and enclosure or 90° arm coupling.
Material: zinc diecast; comes with gaskets and installation hardware.
Color: RAL 7030 stone grey.

10° Tilting Adaptor		
Weight	Packs of	Part No.
2.6 lbs/1.2 kg	1	6023000

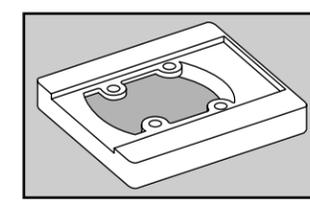

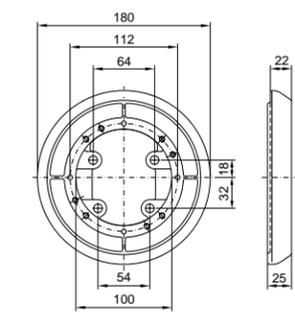

Tilting Adaptor 25°/60°
 Installs between enclosure and CP 6130 enclosure coupling; tilts 25° or 60°.
Material: zinc diecast; comes with gaskets and installation hardware.
Color: RAL 7030 stone grey.

Tilting Adaptor 25°/60°		
Weight	Packs of	Part No.
8.4 lbs/3.8 kg	1	6150000

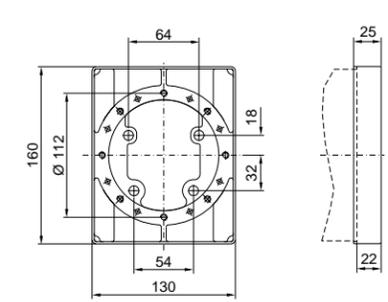

Fixed Enclosure Coupling
 For fixed attachment of the enclosure in conjunction with 10° tilting adaptor (CP 6023000) and 25°/60° tilting adaptor (CP 6150000).
Configuration: Die-cast zinc; including gasket and installation hardware. Not suitable for use as a base point for a support arm system.
Color: RAL 7030 stone grey.

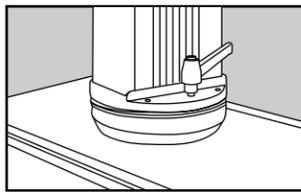

Fixed Enclosure Coupling		
Weight	Packs of	Part No.
2.4 lbs/1.1 kg	1	6130600

Fixed Enclosure Coupling
 For rigid top or bottom mounting of enclosures to vertical support arms.
Configuration: zinc die-cast; includes gaskets and installation hardware.
 Not suitable for use as base bracket for a support arm system.
Color: RAL 7030 stone grey.

Enclosure Coupling, Fixed		
Weight	Packs of	Part No.
3.1 lbs/1.4 kg	1	6130500

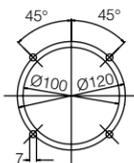

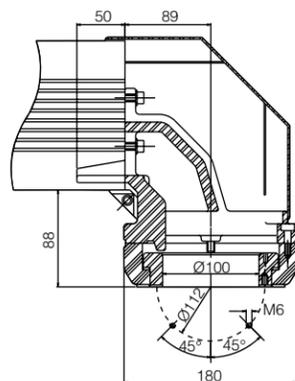

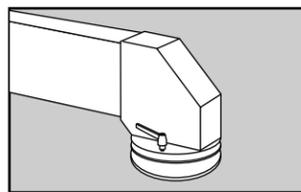

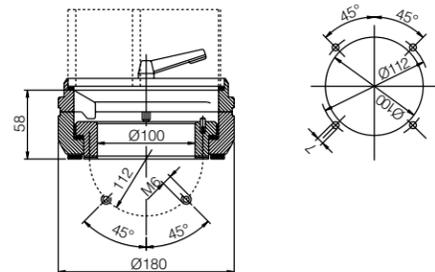

Enclosure Coupling

For top or bottom installation of enclosures to vertical support arms.

Material: zinc diecast; enclosure rotates infinitely through 350° and adjustable; maintenance-free bearing; includes gaskets and installation hardware. Not to be used as a support arm base bracket.

Color: RAL 7030 stone grey.

Enclosure Coupling		
Weight	Packs of	Part No.
7.7 lbs/3.5 kg	1	6130000

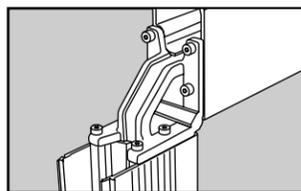

90° Enclosure Coupling

For top or bottom installation of enclosures to horizontal support arms without having to install an additional vertical support arm.

Material: spheroidal graphite iron and zinc diecast; rotates 180° and can be locked in place; maintenance-free bearing; plastic cover; gaskets and installation hardware. Not to be used as a support arm base bracket.

Color: RAL 7030 stone grey.

90° Enclosure Coupling		
Weight	Packs of	Part No.
12.1 lbs/5.5 kg	1	6040000

90° Arm Coupling

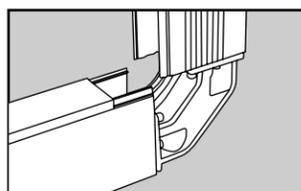

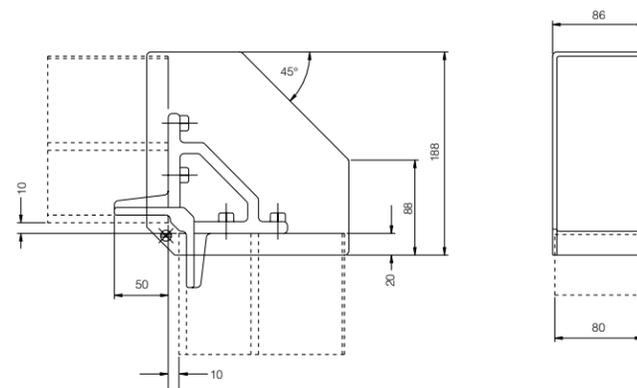

Connects vertical support arms to horizontal support arms.

Material: spheroidal graphite iron with protective plastic cover; gaskets and installation hardware.

Color: RAL 7030 stone grey.

US Patent No. 4,997,155
German Patent No. 38 05 422
European Patent No. 0 330 027
 valid for FR, IT

90° Arm Coupling		
Weight	Packs of	Part No.
4.2 lbs/1.9 kg	1	6140000

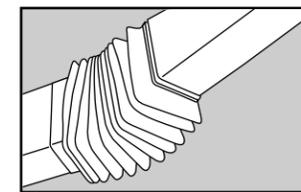

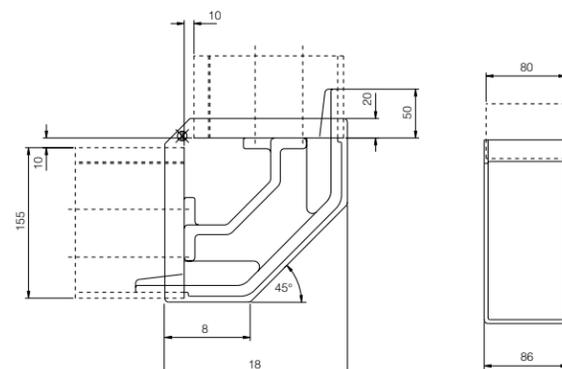

90° Arm Coupling (For Inverted Mounting)

Allows vertical support arm to be directed upwards from a lower, horizontal support arm at floor level which ensures trouble-free cable routing.

Material: spheroidal graphite iron with protective plastic cover; gaskets and installation hardware.

Color: RAL 7030 stone grey.

90° Arm Coupling		
Weight	Packs of	Part No.
7.0 lbs/3.2 kg	1	6180000

Intermediate Hinge

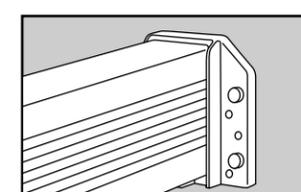

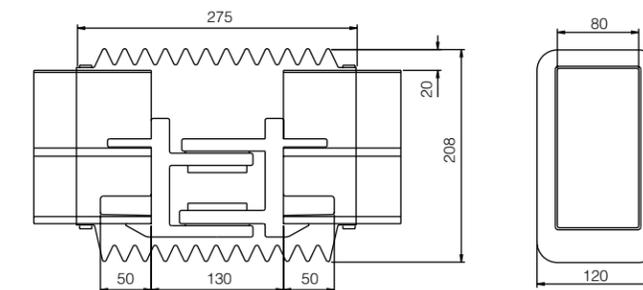

Connects horizontal suspension arms.

Material: spheroidal graphite iron; rotates 180°, includes bellows with zip fastener for easy access to cable duct; gaskets, and installation hardware.

Color: RAL 7030 stone grey.

US Patent No. 4,998,702
German Patent No. 38 05 424
European Patent No. 0 330 029
 valid for FR, GB, IT

Intermediate Hinge		
Weight	Packs of	Part No.
13.4 lbs/6.1 kg	1	6120000

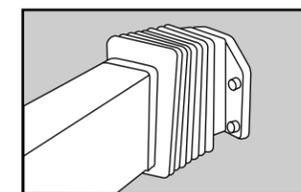

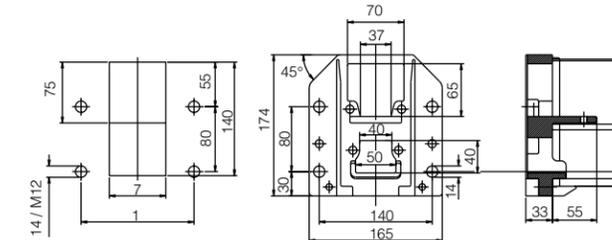

Wall/Base Bracket

Allows rigid mounting of the pendant arm system to vertical or horizontal surfaces.

Material: spheroidal graphite iron, includes gaskets and installation hardware.

Color: RAL 7030 stone grey.

Wall/Base Bracket		
Weight	Packs of	Part No.
7.9 lbs/3.6 kg	1	6160000

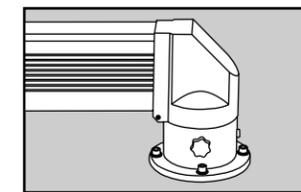

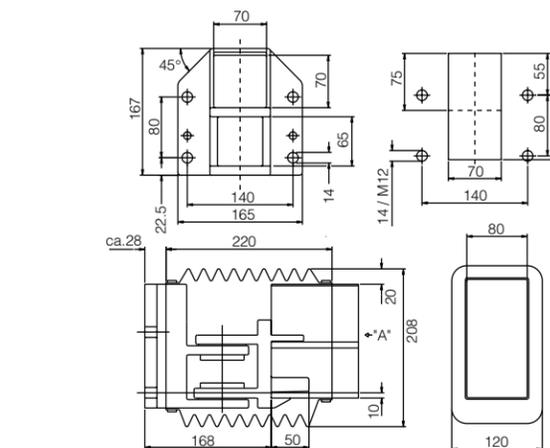

Vertical Hinge

For installation of a swiveling pendant arm system to vertical surfaces.

Material: spheroidal graphite iron; rotates 180°, includes bellows, gaskets, and installation hardware.

Color: RAL 7030 stone grey.

Vertical Hinge		
Weight	Packs of	Part No.
18.5 lbs/8.4 kg	1	6110000

Horizontal Hinge

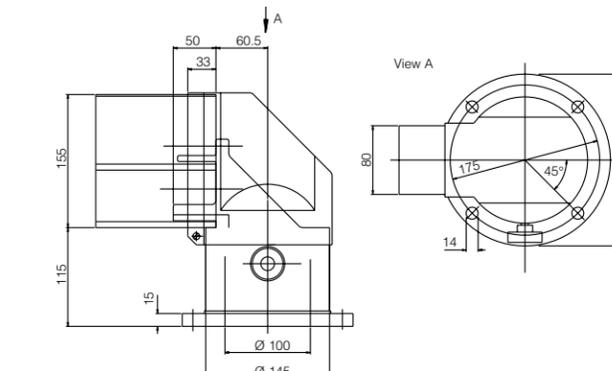

For installation of a swiveling pendant arm system to horizontal surfaces.

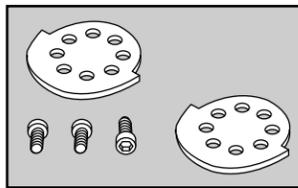

Material: steel and cast iron with plastic cover; maintenance free bearing, rotates 350°, with safety stop; includes gaskets and installation hardware.

Note: Not to be used as an enclosure coupling.

Color: RAL 7030 stone grey.

Horizontal Hinge		
Weight	Packs of	Part No.
24.2 lbs/11.0 kg	1	6170000

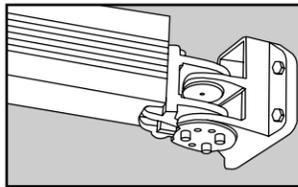

Rotational Limiter For CP-XL

Suitable for:

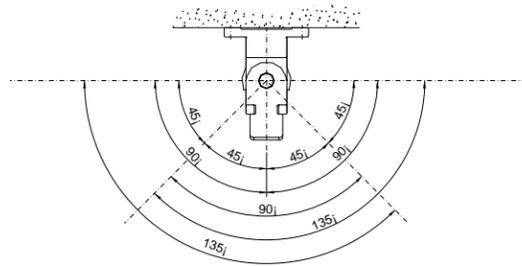

- Wall-mounted hinge CP 6110.000
- Intermediate hinge CP 6120.000

Configuration: 2 steel-washer, perforated, zinc-coated, chromated, including 3 cheese head screws for fixing.

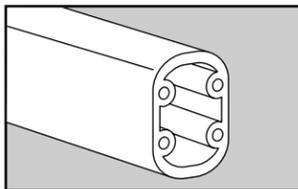

Rotational Limiter For CP-XL	
PU	Part No.
1 set	6110100

Adjustable swivel range:

CP 6500 (CP-L) Accessories

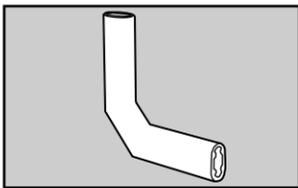

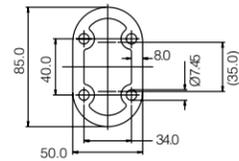

CP 6500 Support Arm

The basic component of the pendant arm system.

Material: Bend- and torsion-resistant extruded aluminum. Integrated holes for self-tapping screws make combinations up to any desired length possible.

Color: RAL 7035 light grey
Weight: 3.16 lbs/ft/4.7 kg/m.

CP 6500 Support Arm		
Length (inches/mm)	Packs of	Part No.
19.7/500	1	6511000
39.4/1000	1	6513000
78.7/2000	1	6515000

Support Arm Angle 90°, CP-L

The alternative for the assembling of compact support arm systems enables simplified mounting and improves the aesthetics, in particular in connection with the wall/ bottom mounting, small (CP 6520.5X0).

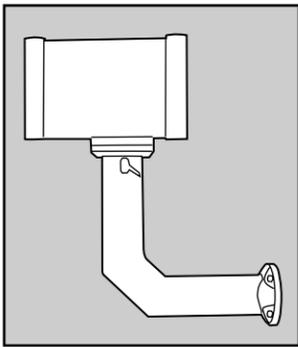

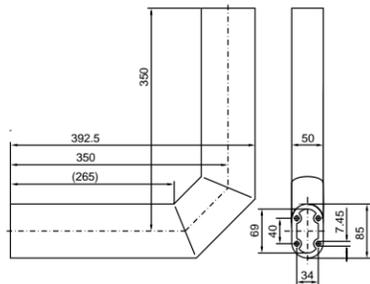

The support arm components are mounted on the angle through self-tapping screws, which means that the support profile can be cut to any required length.

Configuration: Torsionally stiff extruded aluminum section of high bending resistance.

Weight: 6.61 lbs/3 kg.

Support Arm Angle 90°, CP-L	
Color RAL	Part No.
7035 (light grey)	6519000
9006 (white-aluminum)	6519010

Available November 2001.

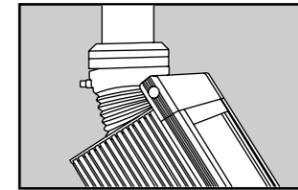

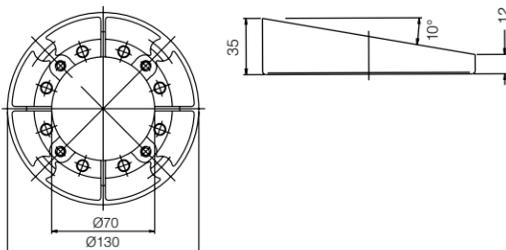

10° Tilting Adaptor

Tilts enclosure for increased operator friendliness; installed between housing and enclosure or 90° arm coupling.

Material: cast zinc; comes with gaskets and installation hardware.

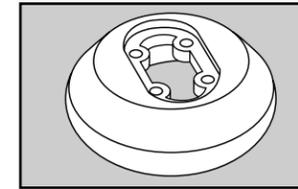

Color: RAL 7030 stone grey.

10° Tilting Adaptor		
Weight	Packs of	Part No.
1.3 lbs/.6 kg	1	6527000

Tilt Adaptor +/-45° Adjustable

For flexible adjustment for optimum viewing angle of flat screen LCD displays. Can be mounted on pendant arm with a CP 6525 enclosure coupling or a CP 6526 90° enclosure coupling.

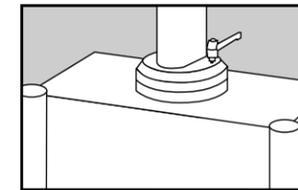

Enclosure Coupling, Fixed

For fixed bottom mounting of enclosure to vertical support arm.

Configuration: zinc die-cast; includes gaskets and installation hardware. Cannot be used as a support base bracket.

Color: RAL 7030 stone grey.

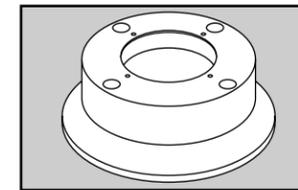

Enclosure Coupling, Rotating

For top or bottom installation of enclosure to vertical support arm.

Configuration: maximum rotation 350°. Not to be used as a support arm.

Color: RAL 7030 stone grey.

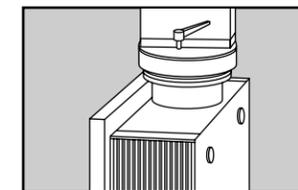

Connection Adaptor VIP 6000 on Support Arm System CP-XL

For connections between VIP 6000 Command Panels with support arm connection CP-L and support arm system CP-XL.

Design: Cast aluminum, including seal and assembly parts.

Color: RAL 7030 stone grey.

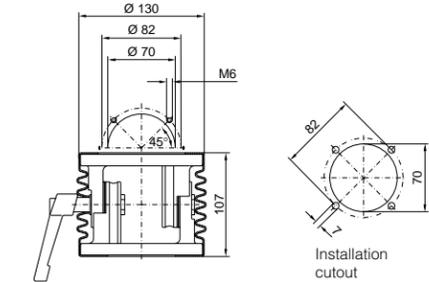

90° Enclosure Coupling

For top or bottom installation of enclosure to vertical support arm.

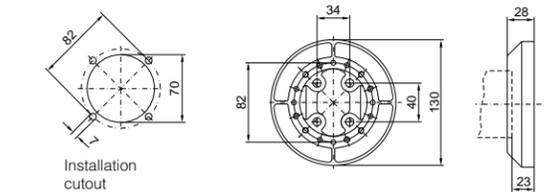

Configuration: maximum rotation 350°. Not to be used as a base mounting bracket.

Color: RAL 7030 stone grey.

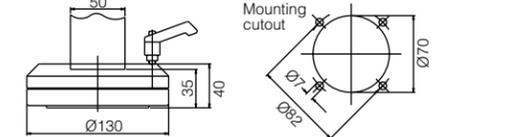

+/-45° Tilt Adaptor		
Weight	Packs of	Part No.
2.2 lbs/1.0 kg	1	6529000

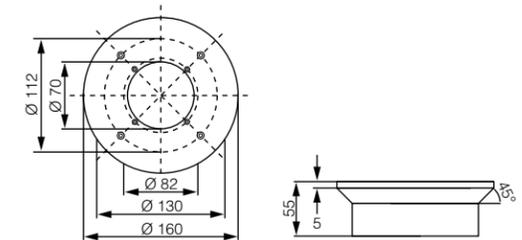

Enclosure Coupling, Fixed		
Weight	Packs of	Part No.
1.8 lbs/0.8 kg	1	6525500

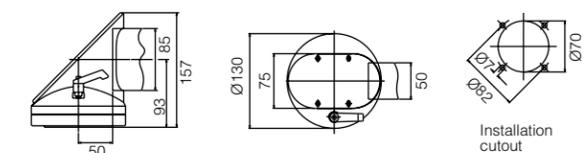

Enclosure Coupling		
Weight	Packs of	Part No.
3.3 lbs/1.5 kg	1	6525000

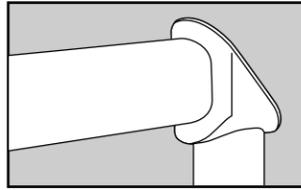

Connection Adaptor		
Weight	Packs of	Part No.
1.5 lbs/0.7 kg	1	6528500

90° Enclosure Coupling		
Weight	Packs of	Part No.
3.3 lbs/1.5 kg	1	6526000

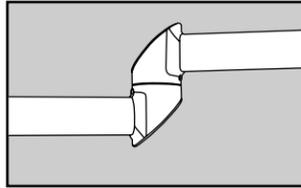

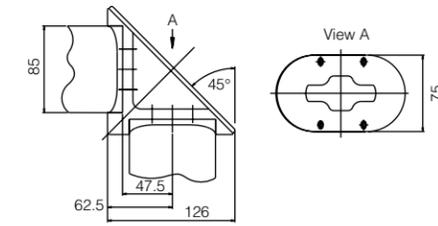

90° Arm Elbow

Connects horizontal and vertical support arms.

Color: RAL 7030 stone grey.

90° Arm Elbow		
Weight	Packs of	Part No.
1.1 lbs/0.5 kg	1	6524000

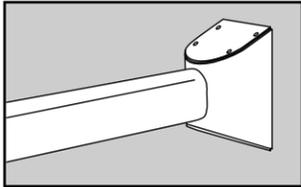

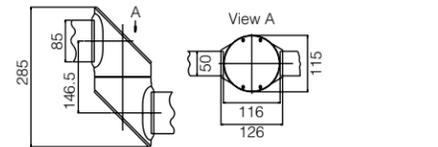

Intermediate Hinge

Connects horizontal suspension arms.

Configuration: maximum rotation 350°.

Color: RAL 7030 stone grey.

Intermediate Hinge		
Weight	Packs of	Part No.
5.5 lbs/2.5 kg	1	6523000

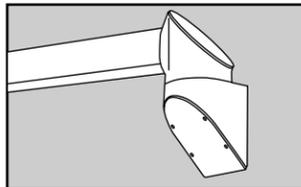

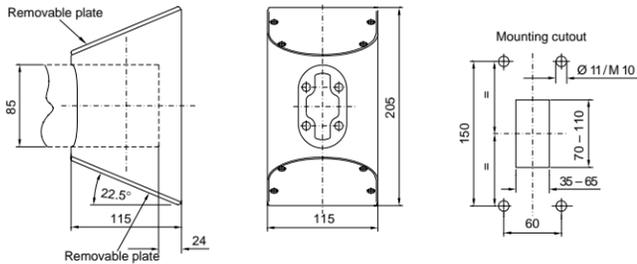

Wall/Base Mounting Bracket

For rigid installation of a stationary suspension arm system to a vertical or horizontal mounting surface.

Color: RAL 7030 stone grey.

Wall/Base Mounting Bracket		
Weight	Packs of	Part No.
3.5 lbs/1.6 kg	1	6520000

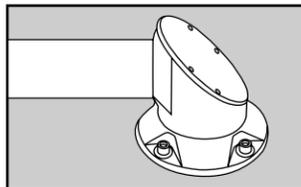

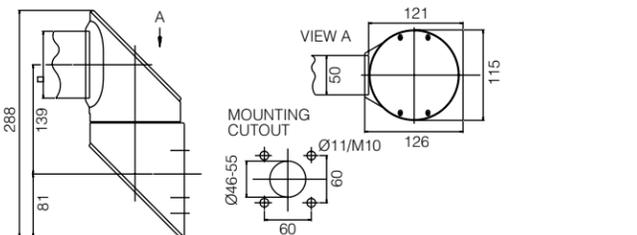

Vertical Hinge

For installation of a swiveling support arm system to a vertical mounting surface.

Configuration: maximum rotation 350°, can be locked in place.

Color: RAL 7030 stone grey.

Vertical Hinge		
Weight	Packs of	Part No.
6.2 lbs/2.8 kg	1	6521000

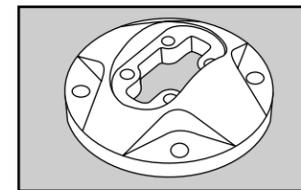

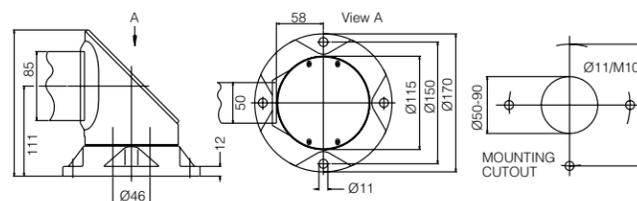

Horizontal Hinge

For installation of a swiveling support arm to a horizontal mounting surface. Ceiling installation possible.

Configuration: maximum rotation 350° not to be used as a coupling for enclosures.

Color: RAL 7030 stone grey.

Horizontal Hinge		
Weight	Packs of	Part No.
5.5 lbs/2.5 kg	1	6522000

Wall/Floor Mount, Small

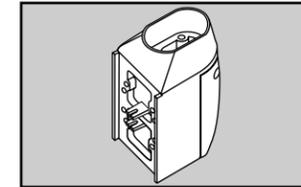

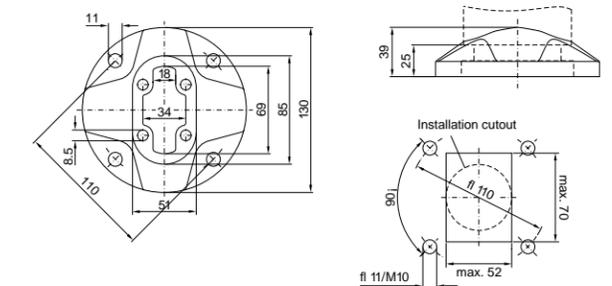

For fixed mounting of support arm systems on vertical and horizontal surfaces. Especially well suited for assembly of compact support arm systems with cable entry from the inside.

Description: aluminum die-cast, including gasketing and self-threading screws for CP-L support arm installation.

Color: RAL 7030 stone grey.

Note: standard screws may be used for the assembly of walls and floors.

Wall/Floor Mount, Small		
Weight	Packs of	Part No.
1.3 lbs/0.6 kg	1	6520500

90° Angle Adaptor, (6000 to 6500) (CP-XL to CP-L)

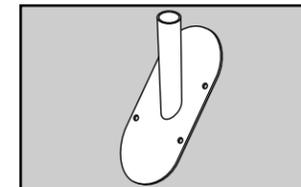

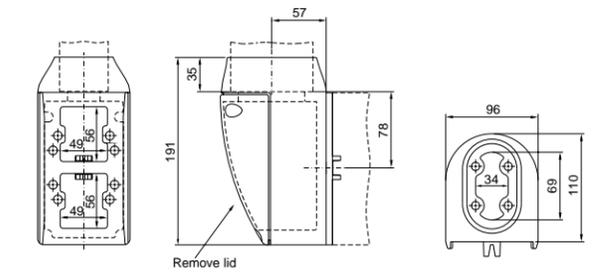

A coupling between

- horizontal support rail CP-XL and
- vertical support rail CP-L when the configuration is chosen for standard or aesthetic reasons.

Description: aluminum die-cast, including gaskets and self-threading screws for mounting of CP-L/CP-XL support arm.

Color: RAL 7030 stone grey.

90° Angle Adaptor, CP-XL to CP-L		
Weight	Packs of	Part No.
3.3 lbs/1.5 kg	1	6528100

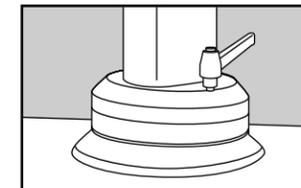

Mounting Component for Support Arm System

For attaching a signal pillar with connection component for conduit mounting onto support arm system CP-L. To fit angle piece CP 6524.000 and angle coupling CP 6526.000

Design: sheet steel

Color: RAL 7030 stone grey.

Mounting Component		Part No.
Mounting component	For support arm system CP-L	2375000

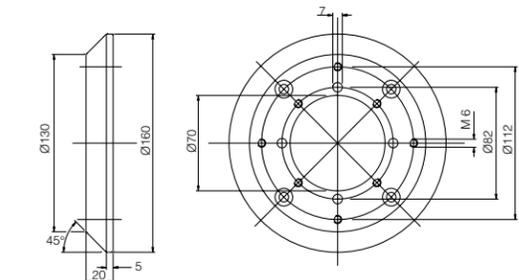

Connection Adaptor

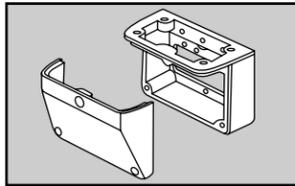

Makes following, interchangeable connection options possible.

- Connect CP 6000 enclosure to CP 6500 support arm system.
- Connect CP 6500 enclosures to CP 6000 support arm system.

Material: cast aluminum; powder painted, RAL 7030 stone grey.

Connection Adaptor		
Weight	Packs of	Part No.
1.1 lbs/0.5 kg	1	6528000

Connection Housing CP-L

For connection on the rear side of a command panel onto support arm system CP-L via:

- Enclosure mounting 4.72 x 2.56"/120 x 65 mm (CP 6525.6X0)
- Enclosure coupling 4.72 x 2.56"/120 x 65 mm (CP 6525.1X0)
- Tilting adaptor 10° 4.72 x 2.56"/120 x 65 mm (CP 6527.1X0)

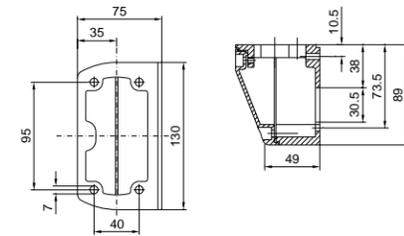

The removable cover enables simplified cable entry.

Configuration: Cast-aluminum, including seal and assembly parts for mounting on the enclosure as well as two cable ties.

Weight: 1.32 lbs/ 0.6 kg.

Connection Housing CP-L	
Color RAL	Part No.
7030 (stone grey)	6508000
7024 (graphite grey)	6508010

Available October 2001

Optipanel Support Plate

For mounting on the enclosure profile. This enables the rear wall or door to be removed. This ensures easy access in case of service.

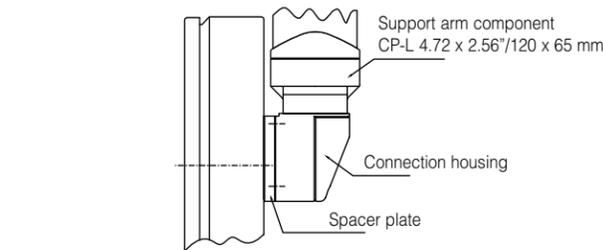

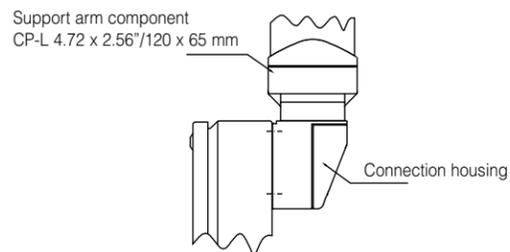

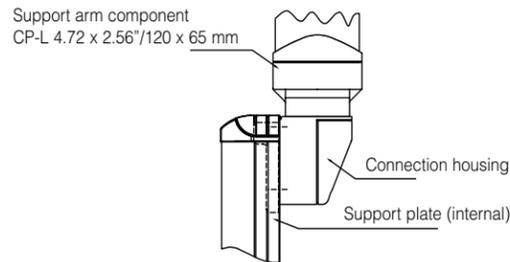

Configuration: Cast-aluminum, including seal and installation hardware.

Mounting possibilities

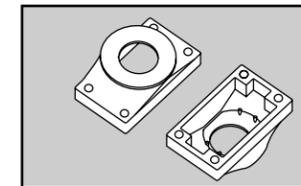

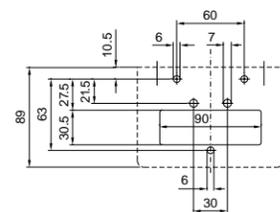

- For retrofitting* on Optipanel:
In combination with the required support plate (see above) the connection console will be screwed directly on the Optipanel enclosure profile. This ensures solid connection and enables to remove the rear wall and rear door.
* The supply includes the connection housing and support plate as well as the rear wall and rear door with respective cutout, if they are selected per design code number.
- For other enclosures for example:
• Junction boxes
• Cast aluminum enclosures:
The connection console can be mounted:
a) Directly and flush with the enclosure edge
b) With spacer plate (available on request) on the rear wall of the enclosure. A reinforcement of the rear wall has to be tested for each individual case.

Optipanel Support Plate	
PU	Part No.
1 set	6508100

Available October 2001

Mounting cutout

Connection Plate

with reinforcement plate

- Enables simplified attachment of the Command Panel on the support arm or pedestal.
- Easily attached from outside.
- More space for cable entry and clamping angle.

For mounting of:

- VIP 6000 ¹⁾
- Optipanel ²⁾
- Sheet steel – Command Panel ³⁾ on (see Table A)

¹⁾ From width of front plate 10.43"/265 mm. The CP-XL configuration not in connection with installation depth 6.10"/155 mm and 11.61"/295 mm.

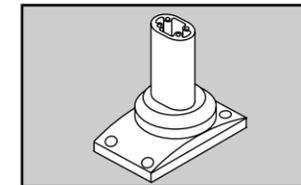

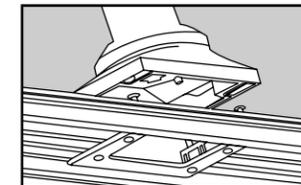

²⁾ From width of front plate 11.61"/295 mm and installation depth 5.91"/150 mm.

³⁾ Attachment surface, minimum W x D = 11.81" x 5.32"/300 mm x 135 mm (e.g. operator door enclosure).

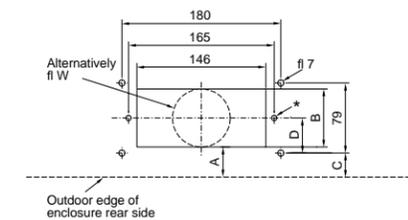

Note: The rectangle support arm cutout may be installed on request.

Material: Connection plate; cast aluminum.

Configuration: Including seal/ installation hardware.

Mounting cutout CP-L/CP-XL

Ø 0.23"/6 mm only for sheet metal enclosures to fix the reinforcement plate.

CP-S Accessories

Angle Adaptor 90°, CP-L To CP-S

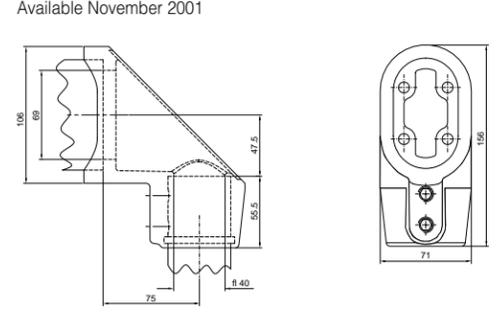

- For the connection between
- Horizontal CP-L support profile and
 - Vertical CP-S support profile.
- Angle adaptor can be on top or bottom, if system is
- Suspended or
 - Supporting.

The removable cover enables simplified cable entry.

Configuration: Cast aluminum, including seal and self-tapping screws for CP-L or set screws for CP-S support profile mounting.

Weight: 1.5 lbs/ 0.7 kg.

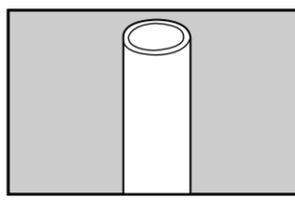

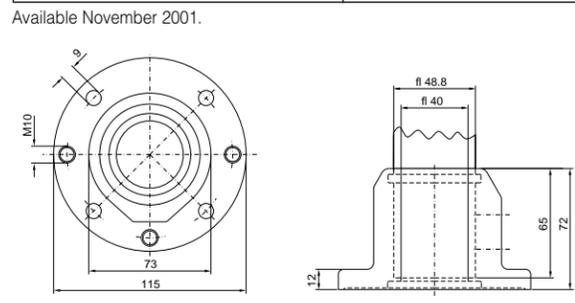

Angle Adaptor 90°	
Color RAL	Part No.
7030 (stone gray)	6501080
7024 (graphite gray)	6501090

Support Profile CP-S			
Length		Color RAL	Part No.
inches	mm	7035 (light grey)	6501000
19.7	500	9006 (white-aluminum)	6501010
19.7	500	7035 (light grey)	6501020
39.4	1000	9006 (white-aluminum)	6501030

Wall/Base Mounting Bracket CP-S	
Color RAL	Part No.
7030 (stone grey)	6501100
7024 (graphite grey)	6501110

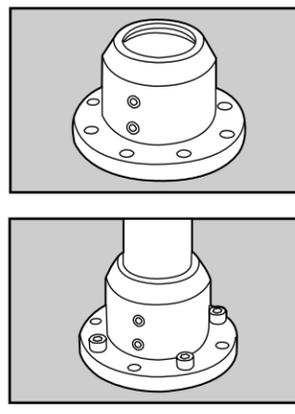

Support Profile CP-S

For assembling a support arm system. The connection components are mounted on the support profile through set screws, which means that the support profile can be cut to any required length.

Configuration: Steel tube, outer diameter 1.9"/48.3 mm, wall thickness 0.15"/4 mm.

Weight: 9.7 lbs/ft (4.4 kg/m).

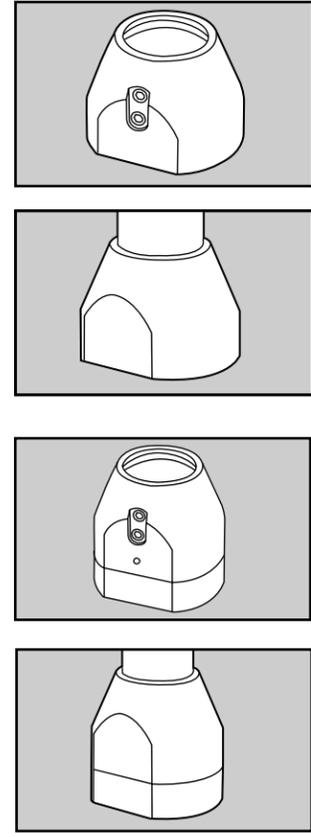

Wall/Base Mounting Bracket CP-S

For rigid mounting of the support arm system on vertical or horizontal surfaces.

Configuration: Cast aluminum, including seal and two set screws for the support profile.

Weight: 1.32 lbs/0.6 kg.

Enclosure/Base Bracket CP-S, Fixed

For rigid mounting:

- Of the enclosures onto the support arm,
- Of the support arms on a vertical or horizontal mounting surface (fasteners are internal).*

Configuration: Die-cast zinc, including seal and two set screws for the support profile.

* Maximum load capacity 400 N (89.9 lbf), 88.2 lbs/40kg total weight.

Weight: 2.65 lbs/1.2 kg.

Enclosure Coupling CP-S, Rotating

For swivel mounting of the enclosure to the CP-S support arm system. Two mounting cutout options are possible

- Circular pattern
- Rectangular pattern

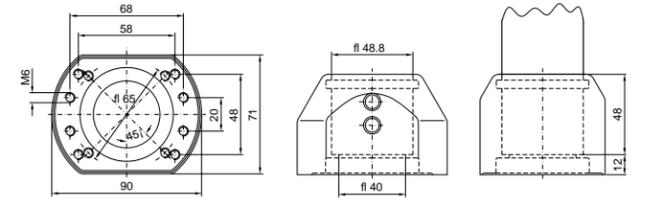

Configuration: Die-cast zinc, including seal and assembly parts.

Rotation range approx. 350°, lockable. Not suitable for use as a base point for a support arm system.

Weight: 4.63 lbs/2.1kg.

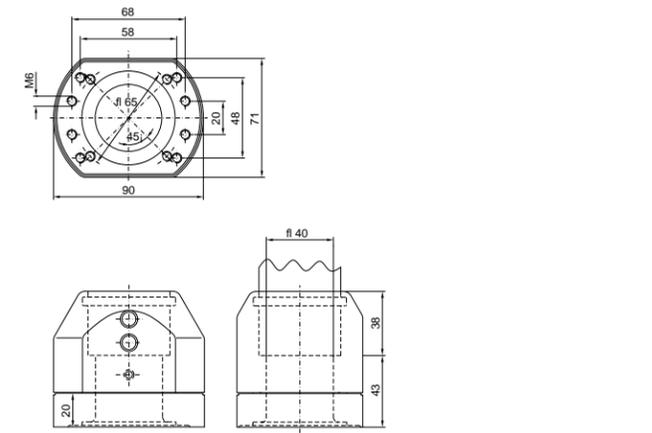

Enclosure/Base Bracket CP-S, Fixed	
Color RAL	Part No.
7030 (stone grey)	6501060
7024 (graphite grey)	6501070

Available November 2001.

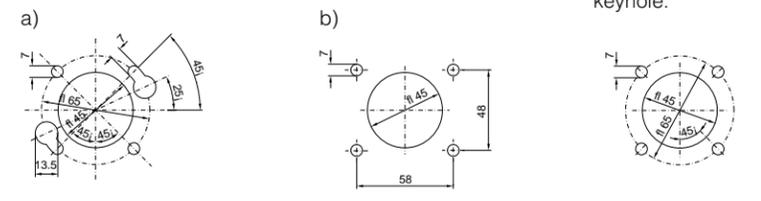

Enclosure Coupling CP-S, Rotating	
Color RAL	Part No.
7030 (stone grey)	6501040
7024 (graphite grey)	6501050

Available November 2001.

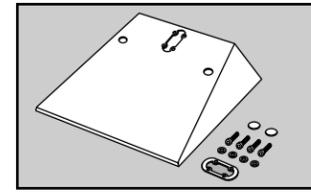

Mounting cutout options

same as cutout a), however without keyhole.

Possible for Optipanel with installation depth 4"/100 mm. Please indicate under 2.3 (see Optipanel ordering form) additional to the construction code number 1 to 3 the letter S.

Pedestal Accessories

Pedestal Base, Small

With reinforcement bracket for the installation of support arm profile CP-L:

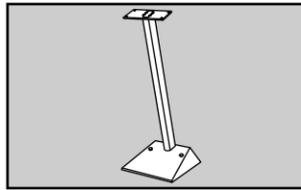

- rear with one hole for a standard M20 cable conduit connection.
- top with two holes (grommets) for bottom floor mounting cross rail.

Small Pedestal Base	
PU	Part No.
1	6143200

Note: standard M8 screws are acceptable for bottom mounting.

Material: sheet steel 3/22"/2.5 mm

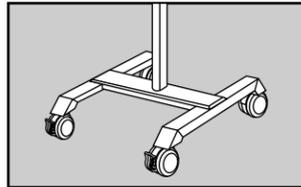

Color: RAL 7035 light grey.

Enclosure Flange CP-L

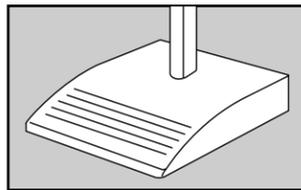

For the rigid installation of:

- KL enclosures 1515.210 (HWD 150 x 360 x 80 mm)
- mounted inside as reinforcement plate for all appropriately sized enclosures (also E-boxes and compact AE enclosures) in conjunction with:
 - enclosure coupling CP 6525000
 - enclosure mount CP 6525500
 - tilted adaptor CP 6526000 to support arm CP-L.

Mobile Pedestal For CP 6000 And CP 6500

Offers operator friendliness and installation flexibility for CP operator enclosure applications. All CP and similar operator enclosures can be mounted on the special coupling plate of the CP 6136.000 mobile pedestal. Large casters facilitate easy movement, even on uneven floors; the front casters feature brakes.

Pedestal/Platform

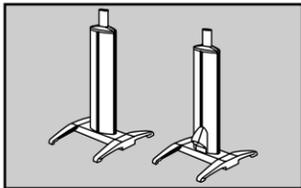

Provides a fixed, mobile pedestal mounting solution.

Standard configuration includes:

- knockouts for PG strain connector inserts
- integrated cable collecting angle
- knockout for concealed mounting of cable conduit adapters up to PG 36 or M 50.

With the following accessories:

- double wheel casters 7495.000
- leveling feet 4612.000

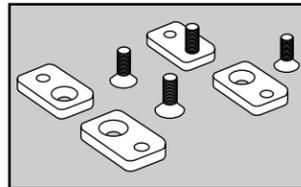

Pedestal For Command Panel

Enclosure may be mounted via

- enclosure coupling CP 6525.500 (rigid).
- enclosure coupling CP 6525.000 (swivel).

Technical details:

Cast feet with holes for floor mounting.

Base Mount For Pedestal For CP 6141 Enclosure

For secure mounting at the installation site.

- bracket is mounted to the pedestal with four countersunk screws in the existing threaded holes (M 12).
- bracket is mounted to the floor via through-holes (Ø11 mm), depending on the construction of the floor, with commercially available screws and dowels.

Enclosure Flange CP-L	
PU	Part No.
1	6143210

With installation materials for enclosure and support arm plus 2 gaskets.

Material: sheet steel

Color: RAL 7035 light grey.

Mobile Pedestal For CP 6000 And CP 6500	
Pedestal with mounting plate	Part No.
for CP 6500	6136500
for CP 6000	6136000

The base allows for easy cable entry while cables can be routed through the support pillar.

Configuration: mobile base, with 4 casters, including two with

integral brakes; support pillar. Only for CP 6136.000: special coupling; installation hardware.

Color: RAL 7030/7035 grey

Casters: RAL 9005 black.

Pedestal/Platform		
For support arm	Color RAL	Part No.
CP 6500	7035	6137535
CP 6000	7035	6137035

- wallmounting bracket KL 1580.000 or 1590.000 the pedestal can be customized for any environment.

Material: sheet steel

Finish: powder painted: RAL 7030 stone grey or RAL 7035 light grey textured

Configuration: pedestal/floor plate with integrated reinforcement and installation cutout for CP 6000 or CP 6500 support arms; includes installation hardware for support arms.

Optipanel Accessories

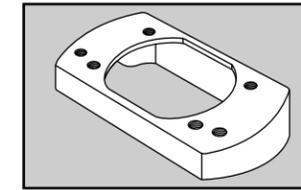

Cover Plate

To cover an unused support arm cutout.

Material: sheet steel, clear chromate.

Configuration: cover plate with gasket, including installation material.

Cover Plate	
Support Arm Connection	Part No.
CP-L	6505100

10° Tilting Adaptor CP-L

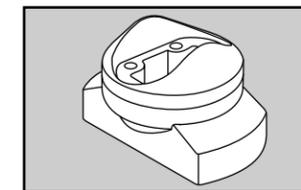

For installation between:

- enclosure coupling CP 6525.100 or
- enclosure coupling CP 6525.600 and housing.

Configuration: zinc die-cast; includes gasketing and installation materials. Not designed as a base for a support arm system.

Color: RAL 7030 stone grey.

10° Tilting Adaptor	
Weight	Part No.
1.10 lbs/0.5 kg	6527100

Enclosure Mount CP-L, Fixed

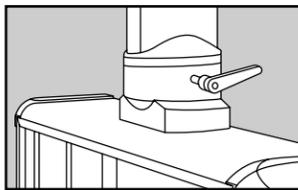

For fixed installation of enclosure to support arm CP-L. Can be mounted to the top or bottom of an enclosure.

Configuration: zinc die-cast; includes gasketing and installation materials. Not designed as a base for a support arm system.

Color: RAL 7030 stone grey.

Enclosure Mount	
Weight	Part No.
2.20 lbs/1.0 kg	6525600

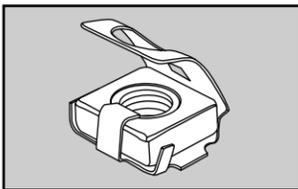

Enclosure Coupling CP-L, Rotating

Rotating mount of enclosure to CP-L. Top or bottom mount.

Configuration: zinc die-cast including gasketing and installation materials. Approximately 350° rotation. Not designed as a base for a support arm.

Color: RAL 7030 stone grey.

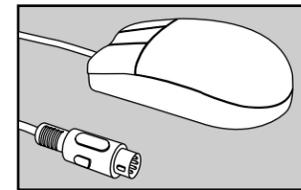

M5 Springnut

For internal installation of components into Optipanel with depth of 4 and 6"/100 and 150 mm. Easy installation, the spring secures against undesired movement.

Material: steel, galvanized, chromated.

Enclosure Coupling	
Weight	Part No.
2.65 lbs/1.2 kg	6525100

M5 Springnut	
Packs of	Part No.

NEMA 6/IP 67 Mouse/Mouse Pad

An ideal input device for all areas where heavy contamination is unavoidable, or where high standards of hygiene are crucial. Because the mouse detects positions inductively, there is no need for a trackball, and the housing is completely sealed with a protective film. This achieves a high protection category of IP 67/NEMA 6.

The mouse operates in conjunction with the inductive mouse pad IP 67 and is available for connection to either a COM or a PS/2 interface.

Material:

Mouse pad: plastic PBT

Mouse: plastic ABS

Color:

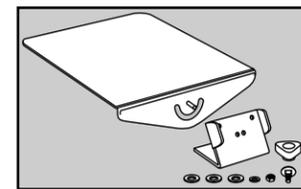

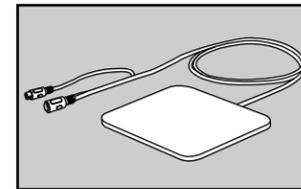

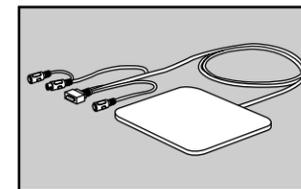

Mouse pad: similar to RAL 7032 grey

Mouse: similar to RAL 7032 grey

Technical specifications:

NEMA 6/IP 67 mouse

Mouse connector: DIN 7-pole

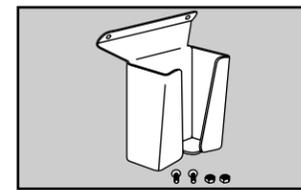

Mouse Pad Tray

Is mounted on vertical handles of keyboard housings for accommodation of SM 6444.000 and SM 6444.500 IP 67 mouse pads. The slope of the mouse pad tray is infinitely adjustable. Installation requires drilling two installation holes in the handle grip brackets.

Material: sheet steel, chromated

Configuration: mouse pad tray, installation hardware.

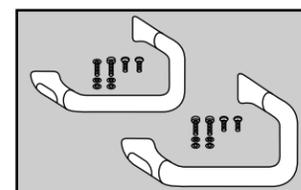

Mouse Holder

Fits Rittal mouse pad trays to ensure safe storage of a standard mouse or the Rittal SM 6445.000 IP 67 mouse.

Material: sheet steel, chromated

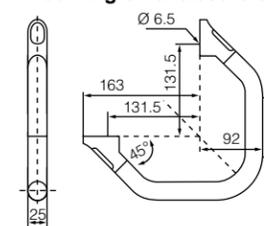

Configuration: mouse holder, installation hardware.

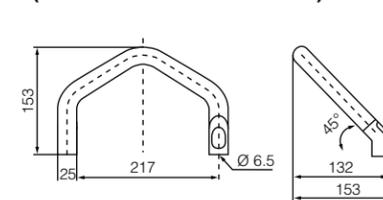

Corner Handle

Supply includes: Packs of 4 handle holders, 2 handle tubes, assembly parts.

Mounting on enclosure corner

Mounting on straight surfaces (90° rotation of handle holder)

NEMA 6/IP 67 Mouse/Mouse Pad				
Part No.	Description	H x W x D inches	H x W x D mm	Packs of
6444000	Inductive mouse pad IP 67 COM interface	8 x 10 x .6	205 x 250 x 15	1
6444500	Inductive mouse pad IP 67 PS/2 interface	8 x 10 x .6	205 x 250 x 15	1
6445000	Mouse IP 67 for COM and PS/2 interface	-	-	1

Mouse pad COM interface

Mouse pad—PC connection: 9-pole D-SUB socket DIN 5-pole connector

Mouse pad PS/2 interface

Mouse pad -PC connection: PS/2 connector

Temperature range:

32°F to 131°F/0°C to 55°C

Power consumption: < 20 mA

Pad size (H x W x D):

8" x 10" x .6"/205 x 250 x 15 mm

IP 67/NEMA 4

Cable lengths: 2,000 mm

Runs under DOS, Windows 3.1/3.11, Windows 95/98, Windows NT

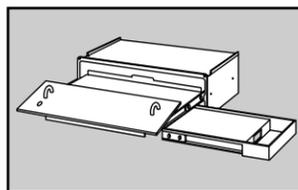

Ratings: IP 67/NEMA 4.

Mouse Pad Tray		
Description	Packs of	Part No.
Mouse pad tray	1	2381000

General Accessories

Keyboard Drawer With Mouse Pad

19" front panel/3.5 U, for installation in:

- any sufficiently large space (door, side panel etc.).

The mouse pad is prepared to accept the inductive mouse pad NEMA 6/IP 67.

Technical specifications:

- space for keyboards up to H x W x D = 1.7" x 18.4" x 6.8" (42 x 460 x 170 mm)

Mouse pad:

- pulls out at the sides including mouse storage compartment for standard pads and prepared for NEMA 6/IP 67 mouse pad.

Keyboard Drawer With Mouse Pad			
Height	Width	Depth	Part No.
3.5 U	482.6 mm	251 mm	6003000

Front panel:

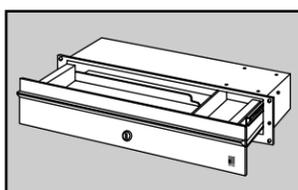

- folds out as a wrist support
- lockable, 3 mm double-bit insert may be exchanged for 27 mm inserts, version A, lock cylinder insert with lock no. 3524 E (SZ 2571.000).
- even with the drawer open, a high level of mechanical protection and shielding are retained.

Material:

Drawer housing: sheet steel, painted RAL 7035

Front panel: Aluminum, natural anodized

Configuration: keyboard drawer with mouse pad, including installation hardware and self-adhesive cable tie attachment.

Keyboard Drawer 19"/2U

Can be mounted in all VIP 6000 enclosures and 19" systems or on any sufficiently large surface (door, side wall, etc.). Its low weight (5.5 lbs/2.5 kg) makes it ideal for use in support arm systems because adequate room remains for cabling, even when the support arm is connected from below. It can also be locked with a 3524 E lock.

High mechanical protection and shielding is maintained, even when the drawer is open.

Technical data:

- Total available space: 15.35" x 1.26" x 5.47"/390 x 32 x 139 mm

Keyboard Drawer With Mouse Pad			
Height	Width	Depth	Part No.
2 U	19"/482.6 mm	5.90"/150 mm	6002000

- Drawer has 2.35"/60 mm high space on right for a mouse or trackball or for a 3 1/2" disk drive.
- When a mouse is used or when a 3 1/2" disk drive is installed, only enough space remains for an 11.2"/284 mm wide keyboard.

Material:

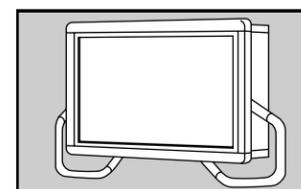

Frame: sheet steel, zinc-plated, chromated

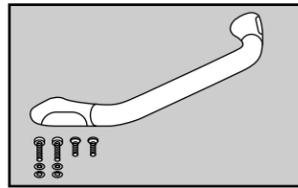

Drawer housing and drawer: aluminum

Front panel and handle: aluminum, natural anodized

Configuration: Drawer housing with drawer, includes slides with stops for 'open' position, front panel with handles, gasket and installation hardware.

Note: For installation in VIP 6000 operator enclosures we recommend cross members that are required for partitioning.

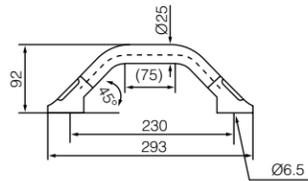

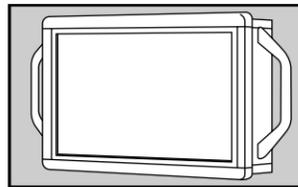

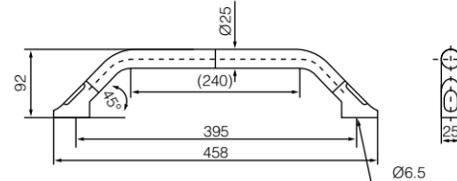

U Handle

Supply includes: packs of 2 handle holders, 1 handle tube, assembly parts.

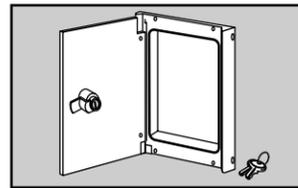

U Handle		
For front panel dimensions	Packs of	Part No.
7 U	1 set	6107100
19"/482.6 mm	1 set	6107200

CP 6107100 Mounting on straight surfaces (for front panel size 7U)

CP 6107200 Mounting on straight surfaces for 19"/482.6 mm

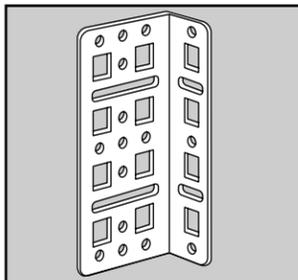

Interface Box

The Rittal interface box provides secure accommodation for all standard computer ports, disk drives and sockets. The lockable metal cover provides a high mechanical load-bearing capacity, protects against unauthorized access and ensures an increased shielding effect for the installed equipment.

Material:
 Frame: extruded aluminum section
 Mounting tray: sheet steel, 1.5 mm
 Cover: aluminum, 3.0 mm

Interface Box	
	Part No.
No socket	2482000

Surface finish:
 Frame and mounting tray: powder coated in RAL 7035 light grey
 Cover: natural anodized
Supply includes: frame with hinged cover, cam with lock insert no. 3524 E, mounting tray including seal and installation hardware.

Mounting Bracket/ Mounting Plate

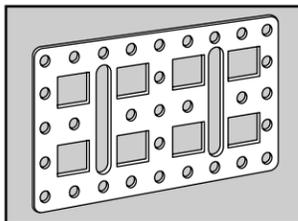

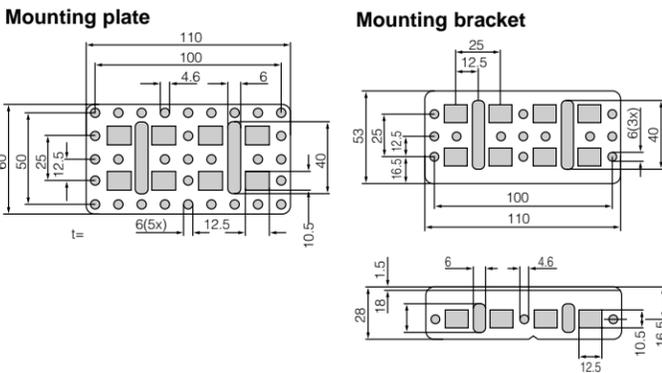

For universal interior installation. Allows for installation of additional Rittal accessories and customer supplied components.

Material: sheet steel, zinc plated, passivated

Supply includes:
 4 mounting brackets or mounting plates 12 self-tapping screws M5 x 10 mm

Additional accessories: screws for attaching to the screw channels of the VIP 6000 command panel, Part No. 2504000 (M5 x 10 mm), packs of 500.

Mounting bracket/Mounting plate	
	Part No.
Mounting bracket	4597000
Mounting plate	4532000

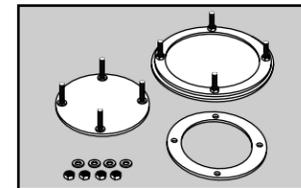

Door Stop For VIP 6000

To secure the open panel.

- For mounting at the bottom.
- The installation height is only reduced by 10 mm.
- Opening angle adjustable up to approx. 120°

Material: sheet steel, zinc plated, passivated.

Door Stop For VIP 6000	
	Part No.
Stay	6045000

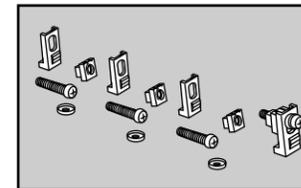

Cover Plate

For secure sealing of an unused support arm connection in the enclosure (CP-L, CP-XL).

Material: sheet steel, clear chromate

Configuration: cover plate with gasket, including installation hardware.

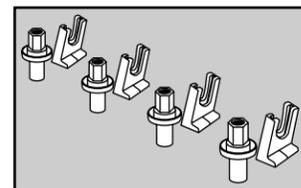

Mounting Kit

For installation of:

- aluminum front panels
 - control panels
 - keyboards
- in keyboard trays and keyboard housings.

Packs of 30, including clip-in clamps, cage nuts, screws, washers.

Cover Plate		
Support arm connection	Packs of	Part No.
CP 6000	1	6505000
CP 6500	1	6505500

Mounting Kit For Threaded Bolts

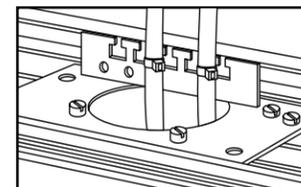

for fastening

- aluminum front panels
- control panels
- keyboards

to VIP 6000 operator and keyboard housings with threaded bolts.

Mounting Kit	
Thread	Part No.
M4	6058000
M5	6053000

For installation of control panels with studs, only clip-in clamps are needed.

Cable Clamping Bracket For Operator Housing

To fit support arm cutout CP-L and CP-XL. Cable clamping optionally via:

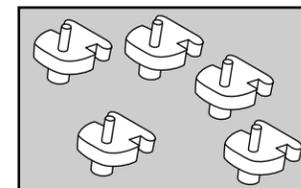

- cable clamps
 - cable ties for quick assembly SZ 2597.000
 - commercially available cable ties.
- Bracket height = 25 mm with fitted 40 mm C rail.

Mounting Kit	
Thread	Part No.
M4	6058500
M5	6053500

Cable Clamping Bracket	
	Part No.
Cable clamping bracket	6052000

Material: sheet steel, zinc plated, passivated.

Supply includes: 1 cable clamping bracket, 1 C rail 2 self-tapping screws M5 x 10 mm.

Cable Tie Fastener

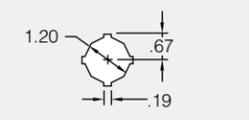

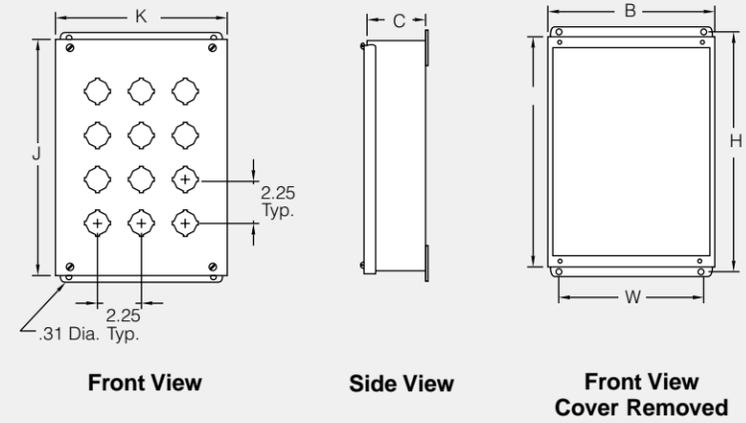

For all commercially available cable ties up to a width of 4.8 mm. The fastener is inserted into the screw channel and fixed by hammering down the split rivet.

Material: polyamide 6.6

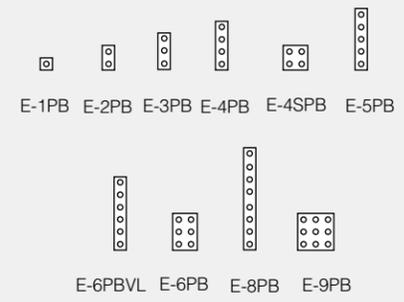

Cable Tie Fastener	
Packs of	Part No.
100	6059000

Front frame, wide

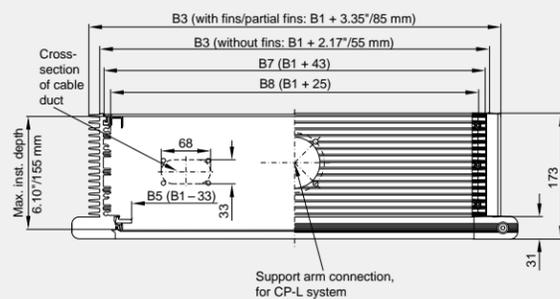

Narrow

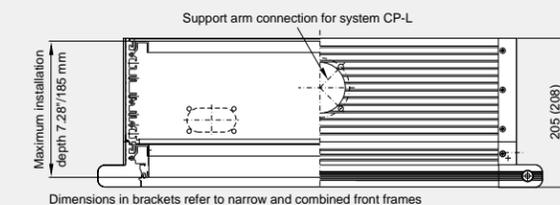

Combined

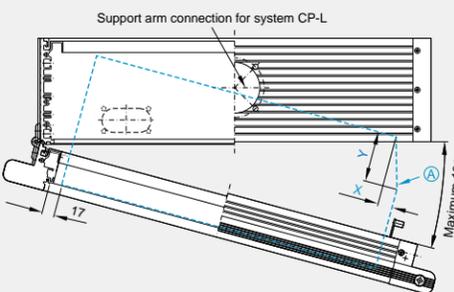

1 Installation depth 6.10"/155 mm, screw-on

2 Installation depth 7.28"/185 mm, screw-on

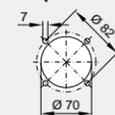

3 Installation depth 7.28"/185 mm, hinged

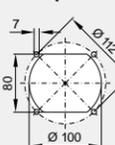

Support arm connections

CP-L (CP 6500)

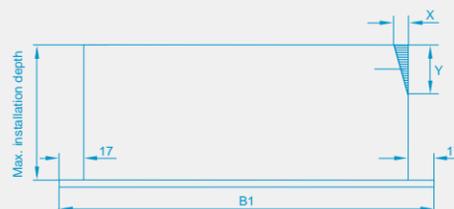

CP-XL (CP 6000)

- Height dimensions:
 H1 = Height of front panel
 H2 = Overall height
 H3 = Enclosure height
 H4 = Clearance height between the enclosure sections
 H5 = Clearance height between the retaining claws
 H6 = Clearance height between the front frames
 H7 = Height of rear panel
 H8 = Clearance frame, height

- Width dimensions:
 B1 = Width of front panel
 B2 = Overall width
 B3 = Housing width
 B4 = Clearance width between the enclosure sections
 B5 = Clearance width between the retaining claws of the assembly parts
 B6 = Clearance width between the front frames
 B7 = Width of rear panel
 B8 = Clearance frame, width

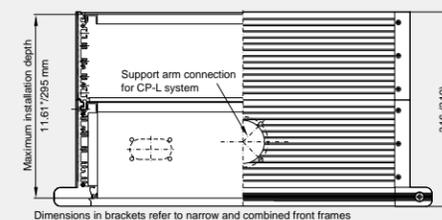

A = Max. installation space for hinged housings

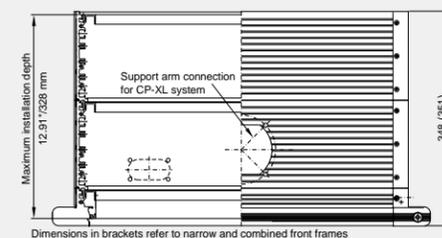

Technical Specifications

VIP Command Panel

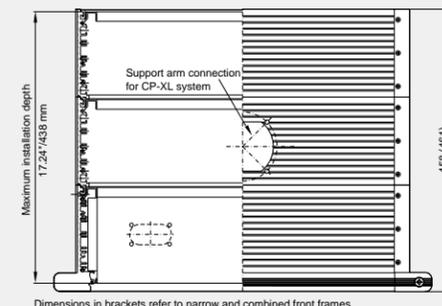

4 Installation depth 11.61"/295 mm, screw-on

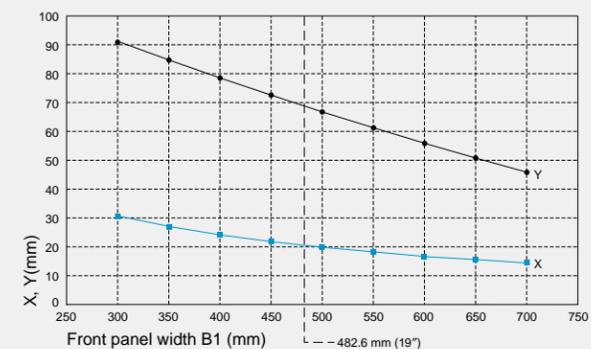

6 Installation depth 12.91"/328 mm, screw-on

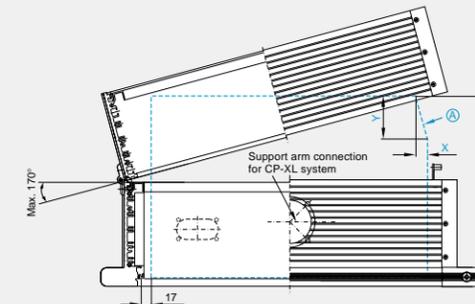

8 Installation depth 17.24"/438 mm, screw-on

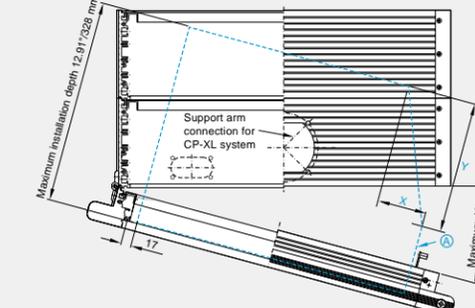

Calculating the swivel mounting space (versions 4 and 6)

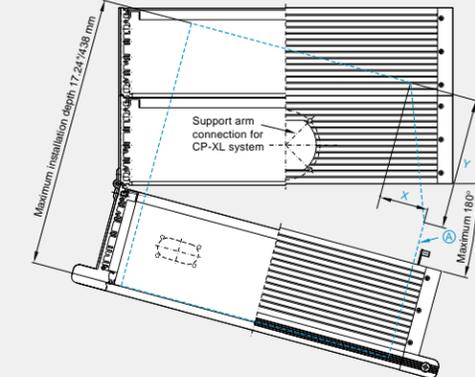

5 Installation depth 11.61"/295 mm, hinged

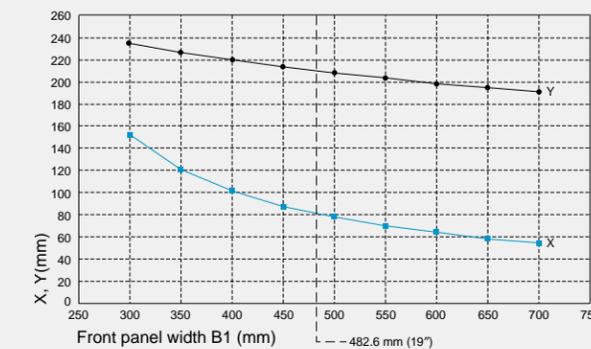

7 Installation depth 12.91"/328 mm, hinged

9 Installation depth 17.24"/438 mm, hinged

Calculating the swivel mounting space (versions 7 and 9)

Combined

2 Installation depth 44 mm

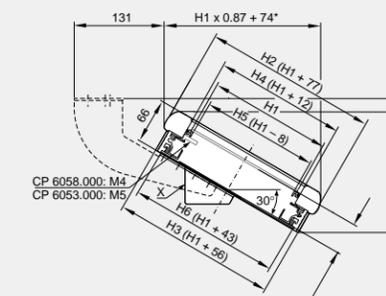

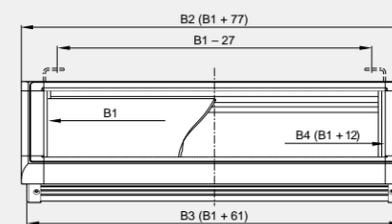

Front frame, wide

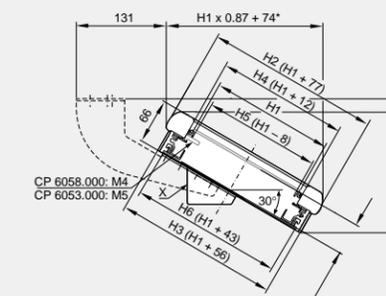

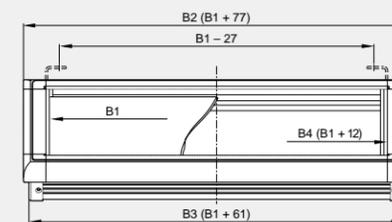

Technical Specifications

VIP Keyboard Housing

Narrow

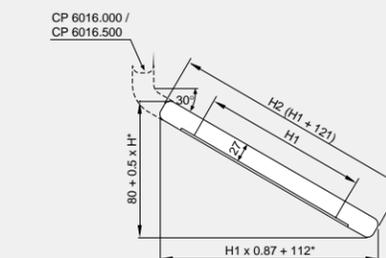

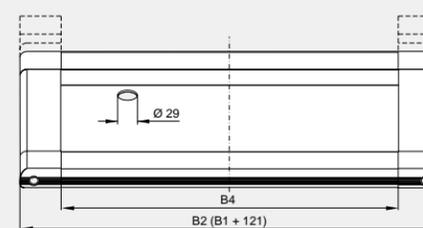

Combined

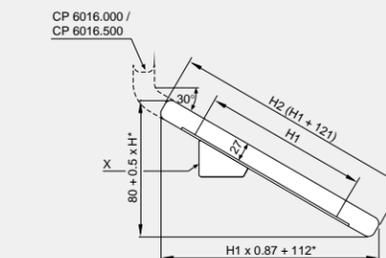

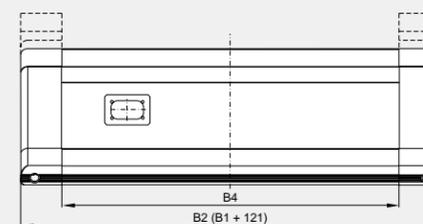

3 Depth 27 mm

Wide front frame, with cable entry

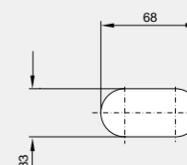

4 Depth 27 mm

Wide front frame, for cable tube, flexible

X = Cross-section of cable tube connection

Height dimensions:

- H1 = Height of front panel
- H2 = Overall height
- H3 = Enclosure height
- H4 = Clearance height between the front frames
- H5 = Clearance height between the enclosure sections
- H6 = Height of rear panel

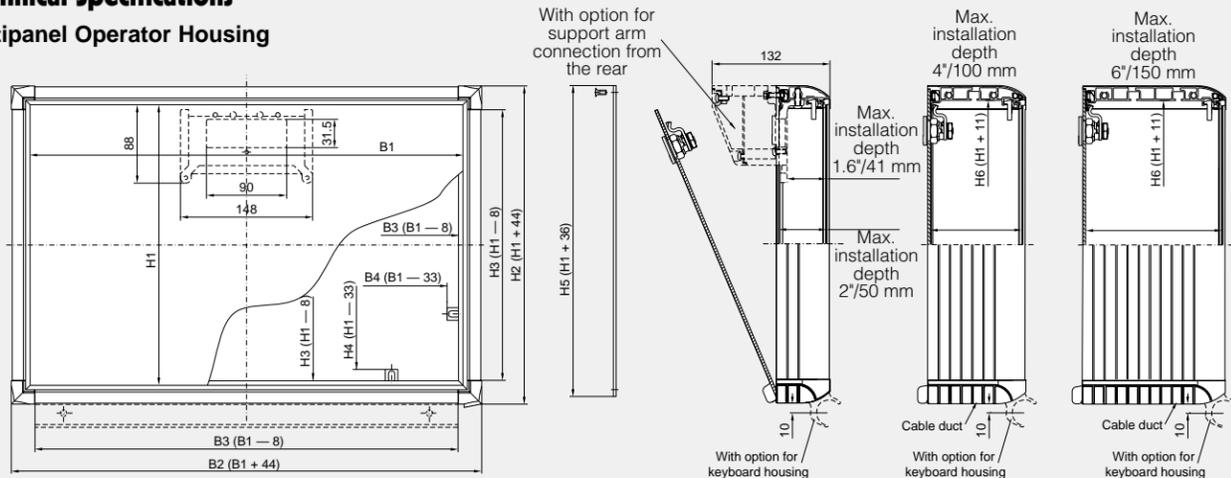

Width dimensions:

- B1 = Width of front panel
- B2 = Overall width
- B3 = Housing width
- B4 = Clearance width between the front frames

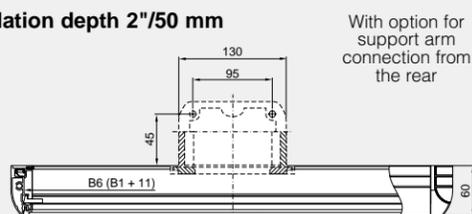

* applies for angles of 30° to the horizontal

Technical Specifications

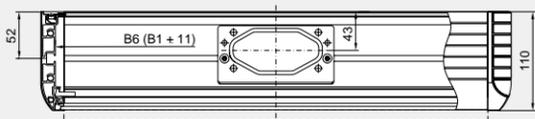

Optipanel Operator Housing

Installation depth 2"/50 mm

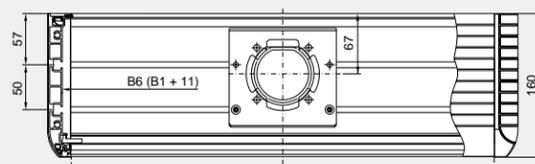

Installation depth 4"/100 mm

Channel for installation of M5 spring nut

Installation depth 6"/150 mm

Channel for installation of M5 spring nut

Height dimensions:

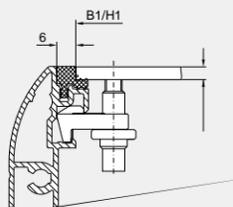

- H1=Height of front panel
- H2=Total height
- H3=Clearance between enclosure profiles
- H4=Clearance between the retaining clamps of installation kit
- H5=Height of rear wall
- H6=Clearance for mounting (trim-to-trim), height

Width dimensions:

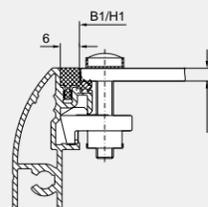

- W1=Width of front panel
- W2=Total width
- W3=Clearance between enclosure profiles
- W4=Clearance between the retaining clamps of installation kit
- W5=Width of rear wall (W1 + 36 mm)
- W6=Clearance for mounting (trim-to-trim), width

Front panel, screwed-on

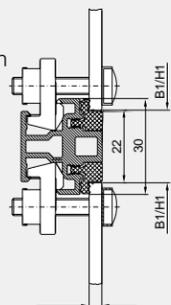

From inside

From outside

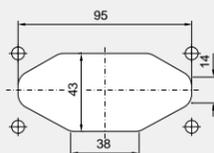

Cross mullion

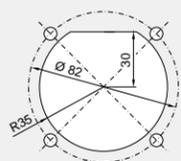

Support arm cutouts

CP-L□ for installation depths 4"/100 mm or 6"/150 mm

- For mounting of:
- CP 6525.1x0
 - CP 6525.6x0

CP-L○ for installation depth 6"/150 mm

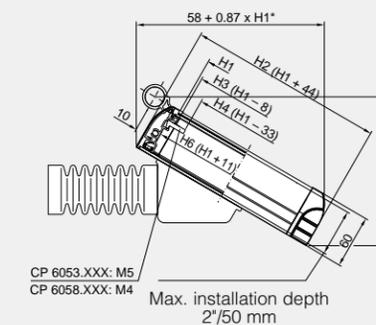

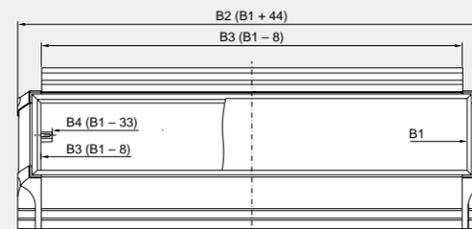

- For mounting of:
- CP 6525.0x0
 - CP 6525.5x0
 - CP 6526.0x0

Technical Specifications

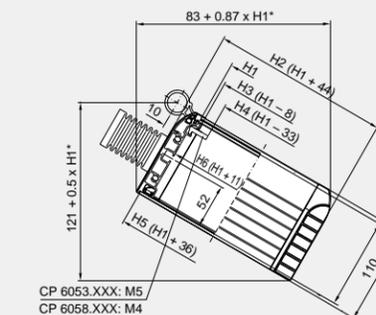

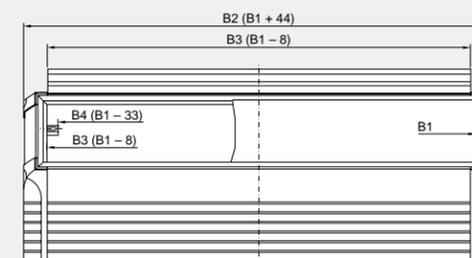

Optipanel Keyboard Housing

Installation depth 2"/50 mm

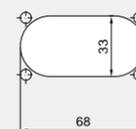

* valid for 30° tilt to horizontal

Installation depth 4"/100 mm

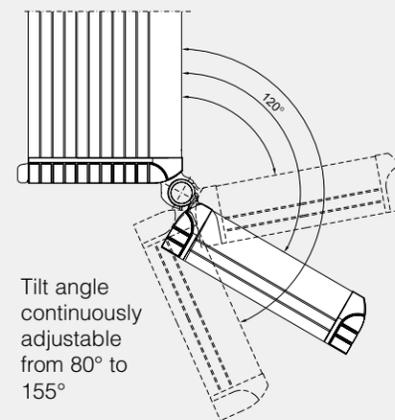

* valid for 30° tilt to horizontal

Cross section cable duct connection

Keyboard housing connection

Frame hinge connector

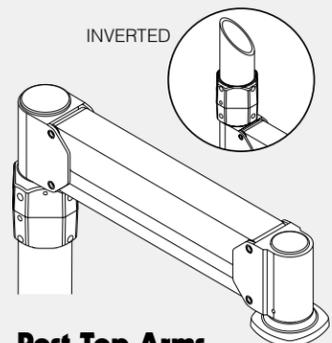

Minimum width of front panel (W1):

- depending on
- installation depth of operator housing
 - with or without keyboard housing
 - position of support arm connection

		Installation depth of operator housing		
		2"/50 mm	4"/100 mm	6"/150 mm
2.5 Keyboard housing	2.3 Position of support arm connection	Minimum width of front panel (mm)		
	0 without	160 (265)	150	150
1 and 2 with	1 4 7 8 top or from the rear side	378*	339*	339*
	2 3 5 6 bottom			

() Bracket values:
 Only for configuration hinged rear wall version **2** and rear connection version **7** and **8**.
 * Smaller width of front panels by asymmetric support arm connection is possible on request.

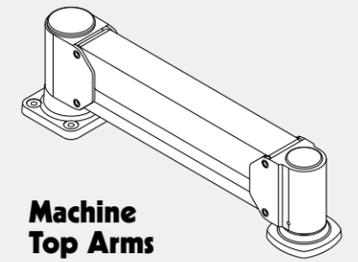

Technical Specifications
CP-Vertical Pendant Arm Systems

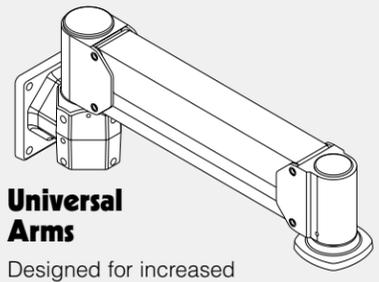

Post Top Arms
Attaches to a plain end 3.5" OD tube or pipe. Cables exit through tube.

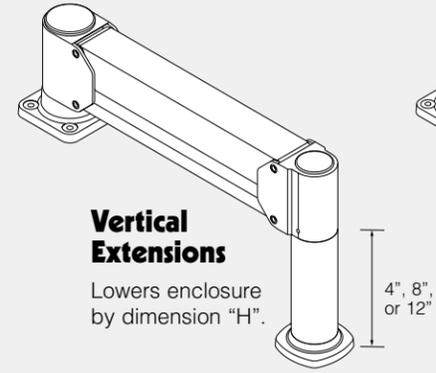

Wallmount Arms
Attaches to a vertical surface with 5.3" H x 6.0" W mounting plate with 4 (.5") Ø hole pattern on 4.75" H x 3.50" W centers. 2.0" Ø hole through center for cable exit. 2.5" NPS threaded opening as alternate cable exit.

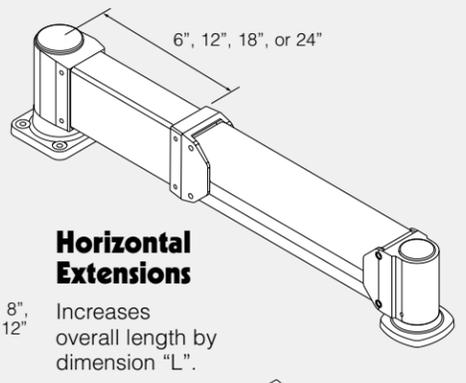

Machine Top Arms
Attaches to horizontal surface with 5" x 5" mounting plate with 4 (.37") Ø hole pattern on 3.54" centers. 1.5" Ø hole through center for cable exit.

Universal Arms
Designed for increased flexibility. Mounting method can be easily configured based on user requirements.

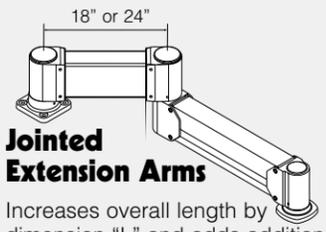

Vertical Extensions
Lowers enclosure by dimension "H".

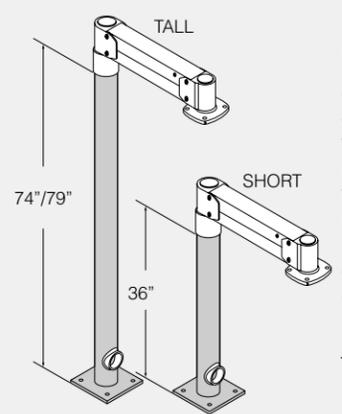

Horizontal Extensions
Increases overall length by dimension "L".

UNIVERSAL AS MACHINE TOP UNIVERSAL AS WALLMOUNT UNIVERSAL AS POST TOP

Jointed Extension Arms
Increases overall length by dimension "L" and adds additional swivel joint, providing in-out motion.

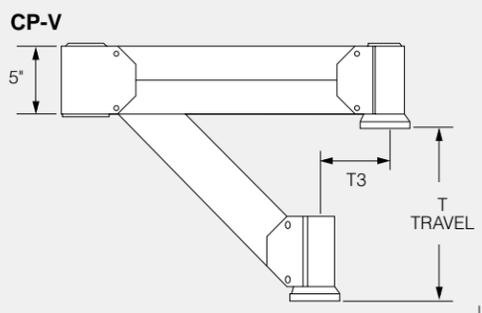

Floor Posts
36", 74", or 79" tall, 3.5" x .25" OD post with square base plate. 1.5" NPT female coupling near base can be used for cable entry. Post can be easily shortened.
Note: When using jointed extension arms, a 79" tall post should be used.
