

TE 7000, Top Efficiency: the Global IT Rack from Rittal.

Uncompromisingly geared to the "network" task

**Because the direct route is always best.
There's nothing faster.**

International yardsticks

Astonishing solutions

Finished already! The “network specialist” will astound you. Behind this fast problem-solving solution is an international background, holistic expertise, and the Rittal quality seal.

Top-quality – developed to international standards.

Cost-effective – inexpensively produced on three continents.

Fast – available immediately with customer proximity.

Solution diversity – thanks to a comprehensive range of system accessories.

Cutting costs is a core concept.

Rittal TE 7000, Top Efficiency.

Fast distribution: In Germany alone, 22 distribution and logistics centres provide a quick order service.

Fast handling: Outstanding ease of use, a unique spectrum of solutions, comprehensive access, combined with climate and security concepts.

This rack is therefore ideally suited for networks in all areas of industrial engineering, telecommunications and data communication.

Rittal TE 7000 – **simple yet convincing!** Find your own path to a solution on the following pages!

Ready to install

The direct route to a solution

The direct route is the fastest. It's called plug & play!

With this in mind, our development strategy is based on the principle, "As little as possible, but as much as necessary!"

In this way, Rittal has created an outstanding solution.

Two 19" mounting levels in the 19" multi-functional profile create a solid framework. Load capacity 880 lbs!

The benefits of this **rack without an enclosure frame:**

Optimum accessibility, maximum use of the interior space, super-fast assembly.

All components fit perfectly. The dimensions and mounting points are tailored to **fixed standard dimensions or individual depth variability** of the two mounting levels.

Prepared in this way, installation is complete in next to no time.

You will be amazed at what can be achieved.

Rittal TE 7000

TE 7000 concept

The **space miracle**
with no enclosure frame.

Handling space
on all sides.

Quick-fit assembly:
System accessories for
direct mounting within
two 19" profile frames.

The design:
Stylish designer door
and handle.

Modular roof and base:
Cable entry and
ventilation.

A perfect fit

Outstanding at all levels

Check out the details of the Rittal TE 7000:

Three attachment systems offer the maximum opportunities for fast, optimum use of the space.

A perfect fit – **direct installation on the 19" mounting frame!**

A perfect fit – the **integral TS 8 system hole platform!**

A perfect fit – universal interior installation **in depth-variable attachment!**

There is also a matching range of accessories and system components for power supply, climate control, and security.

A single package combines **access, climate control and security solutions:** Concepts tailored precisely to your requirements. Data protection and availability are an absolute must.

Another perfect fit – **simple removal and installation** of doors and side panels, system roof for cable entry and active ventilation, plus system accessories for fast, direct installation.

Simple, fast, and cost-effective – the Rittal TE 7000 concept.

Rittal TE 7000

Impressive solution diversity.

Multi-functional profile:

A high load capacity offering versatility at all levels.

TS 8 system punchings in the width and depth:

What more could you wish for in terms of installation opportunities?

Two 19" levels:

With predefined or variable spacing.

Height units:

Installation marking for each individual U.

Standard hole platform:

Simply insert the screw and secure.

Completely individual

Flexibility for your requirements

Defined dimensions or variable? Ex works, the fixed dimensions of the distance between levels offers cost-effective, time-saving **installation with system accessories**. Ready in a flash, is our motto. Because every dimension and every attachment point is precisely defined.

There are no limits on individual requirements:

The front distance and the distances between the two 19" levels may be set on a pitch pattern or flexibly to suit your requirements. Depth-variable installation accessories help to ensure fast, simple installation.

For this purpose, as your system supplier, Rittal offers **versatility through modular technology**. From the base/plinth to the top-mounted fan, from the lock system to the comprehensive security equipment – everything can be achieved with one-man installation.

This leaves you free to concentrate on devising new solutions.

Simply locate the side panels – and voila!

Rittal TE 7000

Solution diversity at all levels.

Climate:

Active or passive ventilation?

One-man assembly:

Locate, secure, and voila! – simple, time-saving.

CMC security:

Central monitoring, comprehensive and cost-effective.

Ergoform-S:

The handle system with access monitoring.

Base/plinth modules:

For ventilation, for cable entry.
Alternatively: Pedestals and castors.

Network enclosures TE 7000, width 23.62" (600 mm)

B = Width
T1 = Depth
HE = U

T2: Mounting distance for premium accessories, see page 12.

Benefits:

- Matching premium accessories for rapid installation in the delivered state

- No frame structure, optimum accessibility
- Load capacity up to 880 lbs

Material:

Sheet steel

Surface finish:

Mounting frame: Electrophoretic dipcoat primed, RAL 7044
Enclosure panels: Powder coated, RAL 7035

Explanation of levels

Example:
23.62" x 23.62" (600 x 600 mm)

Example:
31.49" x 31.49" (800 x 800 mm)

- A** 19.4" (495 mm) – that is the distance between the two 19" levels in the delivered state for all enclosure formats.
- B** Pitch spacing 1.96" (50 mm)
- C** Distance from door:
2.06" (52.5 mm) with depth 23.62" (600 mm), 6.00" (152.5 mm) with depth 31.49" (800 mm)
- D** The attachment distance within a mounting frame at the rear, horizontal, is equivalent to the frame attachment dimension of a 23.62" (600 mm) wide TS 8 (outer level, 20.66" (525 mm))
- E** = **A** – 4.72" (120 mm)

Quick assembly in the depth

1. Ready to install – with the standard spacing 19.4" (495 m)

The premium accessories are tailored to this fixed dimension in the delivered state for all enclosure formats. All installed equipment for the enclosure depth is mounted easily, quickly and with a precise fit to the TS 8 system punchings. This is equivalent to the standard dimension of 15.74" (400 mm) deep TS 8 enclosures, inner level.

2. Variable – on a 1.96" (50 mm) pitch pattern

The distance between the two 19" levels may be altered in increments of 1.96" (50 mm) or 17.51 – 27.36" (445 – 695 mm). Fast replacement of the principal components is offered by the table below.

3. Variable – fully individual

The distance between levels may be selected completely freely via the slot fastening. All key mounting components – punched sections with mounting flanges, installation kits, slide rails, component shelves – are also available in depth-variable format.

Fast assembly in the width

TE/TS 8 compatibility in the width too:

All components for the TS 8 enclosure dimension W/D 23.62" (600 mm) (outer level) fit into the width of the TE frame sections. Three rows of TS 8 system holes offer suitable solutions for every task. The installation position in the enclosure depth corresponds to the TS 8 inner level.

Premium

To fit enclosures in their delivered state

The Ergoform-S lock system

For retrospective installation in all enclosures, without the need for mechanical reworking. The unlocked handle unfolds forwards and is swivelled to open the lock.

Material:

Die-cast zinc

Surface finish:

Powder coated

German patent no. 34 07 700
European patent no. 155 543
with validity for AT, FR, GB, IT
US patent no. 4,631,937
Australian patent no. 572 965
Japanese patent no. 1680 637
US design patent no. des. 292,171
Japanese design pattern no. 762 637

Ergoform standard

Prepared for the installation of semi-cylinders with an overall length of 1.57 or 1.77" (40 or 45 mm) (to DIN 18 254) and all 1.06" (27 mm) lock inserts, type A.

Design	Model No.
RAL 7032 with brown handle	2450.000
Brown	2451.000
Matt nickel-plated	2452.000
RAL 7032	2454.000
RAL 7035	2435.000
RAL 7032 with brown handle and bracket	2455.000

Hole diameter = 7 mm for padlock or multiple latch

Accessories:

Lock inserts, version A, see page 14.

Electromagnetic Ergoform-S handle

The handle contains a handle sensor for monitoring and an electromagnetic latch. The handle is compatible with the CMC-TC. The connection cable with the RJ 12 connector is easily connected to the access unit of the CMC-TC system. It is automatically configured, thanks to its detection electronics. An additional access sensor 7320.530 is always required. After being released electrically, the integral push-button should be depressed. This push-button may also be exchanged for a lock insert with key 2467.000. The system may also be released via a read system, which may be mounted above the handle.

Technical specifications:

Rated voltage: 24 V DC
Rated current: max. 100 mA
Connection cable: Length 9.8' (3 m), RJ 12 connector
Extension cable: Length 6.5' (2 m), RJ 12 connector/socket
Temperature range: +5°C to +40°C
Protection category: IP 40

Handle system	Model No.
Electromagnetic Ergoform-S handle	7320.700

Also required:

- An extra punching, see drawing
- A lower locking bar depending on the enclosure height, on request
- An access sensor 7320.530 (1 unit).

Accessories:

CMC-TC monitoring system, see page 29.

Lock/side panels/baying

Lock inserts

Version A

Material:

Die-cast zinc

Note:

The universal lock system allows the installation of a suitable handle for almost any application or customer specification. The relevant product ordering page shows which handles can be fitted into each particular assembly.

Length 27 mm	Model No.
7 mm square	2460.000
8 mm square	2461.000
7 mm triangular	2462.000
8 mm triangular	2463.000
Screwdriver	2464.000
Daimler insert	2465.000
3 mm double-bit	2466.000
Fiat	2307.000
6.5 mm triangular (CNOMO)	2460.650

Side panels

To finish off individual racks or entire bayed suites of racks at the sides.

The side panels are simply located and secured with the integral padlock.

The beading increases the rigidity of the walls whilst adding a special design touch. The light-weight design means that it is easily handled by one person.

Supply includes:

2 side panels including security lock 3524 E

Protection category:

IP 20

Baying kit

For connecting individual enclosures into bayed suites at the sides. The enclosures are mounted between the base and roof frame.

Material:

Sheet steel, zinc-plated, passivated

Supply includes:

1 set of baying connectors

Packs of	Model No.
1 kit	7000.640

Individual roof configuration

Fan unit, active

For active ventilation of the TE 7000, a ventilation opening may be removed from the front of the standard roof plate and fitted with the fan module. The fan unit is prewired ready for connection and has 2 fans, 1 thermostat and a connection cable including IEC320 connector. An additional fan may optionally be integrated via an integral terminal block.

Supply includes:

Fan unit including assembly parts, 2 fans, thermostat and connection cable.

Technical specifications for one fan:

See fan expansion kit below

Technical specifications of thermostat:

Rated operating voltage: 250 V
Temperature range: +5°C to +55°C

For enclosures W x D inches (mm)	Number of prewired fans	Possible number of fans	Model No.
All sizes available	2	3	7000.670

Accessories:

Fan expansion kit,
see below.

Fan expansion kit

For retrofitting various fan units.

Technical specifications:

Rated operating voltage: 230 V AC
Power consumption: 19/18 W at 50/60 Hz
Air throughput (unimpeded air flow):
140/165 m³/h, 50/60 Hz
Noise level (unimpeded air flow): 37 dB (A)
Temperature range: -10°C to +55°C

Dimensions W x H x D inches (mm)	Packs of	Model No.
4.68 x 4.68 x 1.49 (119 x 119 x 38)	1 kit	7980.000

Supply includes:

Fan, including assembly parts and connection cable, 24" (0.61 m).

Spacers

To assist passive ventilation, spacers may be used to raise the module plates.

Material:

Hexagonal sectional steel, zinc-plated, passivated.

Supply includes:

4 spacers, including assembly parts.

Height	Packs of	Model No.
20 mm	4	7526.963

Individual roof/base configuration

Module plate, solid

In exchange for the existing roof plate, the roof or base section of the TE 7000 may be varied as required with the module plates. In order to support passive ventilation, the module plates may be raised using spacers – see page 15.

Material:

Sheet steel, spray-finished

Colour:

RAL 7035, on request in RAL 9005.

Supply includes:

Module plate, including assembly parts.

Width (B) inches (mm)	Depth (T) inches (mm)	Model No.
17.71 (450)	7.87 (200)	7526.760
17.71 (450)	17.71 (450)	7526.770
17.71 (450)	25.59 (650)	7526.780
25.59 (650)	7.87 (200)	7526.800
25.59 (650)	17.71 (450)	7526.780
25.59 (650)	25.59 (650)	7526.820

Note:

Configuration data – see below.

Compensating plate

When combining individual modules, a compensating plate is needed to close the roof/base assembly completely.

Width (B) inches (mm)	Depth (T) inches (mm)	Model No.
17.71 (450)	1.96 (50)	7526.750
25.59 (650)	1.96 (50)	7526.790

Module plate, with brush strip

Convenient cable entry, numerous configuration options in the roof and base frame, in both the enclosure width and the enclosure depth.

Material:

Sheet steel, spray-finished

Colour:

RAL 7035, on request in RAL 9005.

Supply includes:

Module plate with brush strip, including assembly parts.

Width (B) inches (mm)	Depth (T) inches (mm)	Model No.
17.71 (450)	7.87 (200)	7526.850
25.59 (650)	7.87 (200)	7526.860

Note:

Configuration data – see below.

Also required:

For a completely sealed roof/base assembly:
Compensating plate 7526.750 or 7526.790,
see above.

Module plate, vented

Perforated module plate to support passive ventilation and cooling. May be integrated into both the enclosure width and the enclosure depth.

Material:

Sheet steel, spray-finished

Colour:

RAL 7035, on request in RAL 9005.

Supply includes:

Perforated module plate,
including assembly parts.

Width (B) inches (mm)	Depth (T) inches (mm)	Model No.
17.71 (450)	7.87 (200)	7526.829
25.59 (650)	7.87 (200)	7526.834

Note:

Configuration data – see below.

Also required:

For a completely sealed roof/base assembly:
Compensating plate 7526.750 or 7526.790,
see above.

Modular base/plinth diversity

Thanks to the logical breakdown of the entire base/plinth into two ordering units, all dimensional variants are achieved with minimum stock levels.

Other benefits include easier installation, numerous cable entry options, and the stabilising baying connection.

Enclosure width	Basic form	Cable gland options				Stabilisation of bayed base/plinths	
3.93" (100 mm)							
7.87" (200 mm)							

Function and cost benefits

Fewer parts, more opportunities, coupled with lower purchasing, storage and assembly costs – this is the winning formula for the new modular base/plinth system.

The following table shows three bayed base/plinths in 7.87" (200 mm) height illustrating a wide range of possible solutions and the potential savings with trim panels compared with the previous 7.87" (200 mm) base/plinth system, each with two 3.93" (100 mm) high trim panels at the sides.

Sample solutions	New supply includes	Functional benefits	Savings potential compared with twelve 100 mm trim panels
	3 packs of base/plinth components 1 pack of base plinth trim panels 7.87" (200 mm) high	Continuous cable chamber	2 trim panels 7.87" (200 mm)
	3 packs of base/plinth components 1 pack of base plinth trim panels, 7.87" (200 mm) high 1 pack of base plinth trim panels, 3.93" (100 mm) high	Additional stabilisation for transportation purposes with base/plinth trim rotated through 90°	2 trim panels 7.87" (200 mm) 2 trim panels 3.93" (100 mm)
	3 packs of base/plinth components 2 packs of base plinth trim panels, 7.87" (200 mm) high	Shielding of the base/plinths from one another	4 trim panels 7.87" (200 mm)
	3 packs of base/plinth components 1 pack of base plinth trim panels, 7.87" (200 mm) high 1 pack of base plinth trim panels, 3.93" (100 mm) high	Additional connection of the base/ plinth	2 trim panels 7.87" (200 mm) 2 trim panels 3.93" (100 mm)
	Other options: • Cable entry at the side by mounting a 3.93" (100 mm) base/plinth trim panel (top or bottom). • Cable entry from the rear by dismantling one or more trim panels of the base/plinth components. • Cable clamp rail fitted on the 3.93" (100 mm) high trim panel.		

Base/plinth

Base/plinth components, front and rear

Base/plinth component consisting of one trim panel and two pre-configured corner pieces. Design with solid or vented trim panel. In 7.87" (200 mm) high base/plinth components, one trim panel is divided into two for cable entry.

Material:

Component = Sheet steel, spray-finished
Cover = Plastic

Colour:

RAL 7035

Supply includes:

1 set =
2 base/plinth components,
4 covers,
4 screws and captive nuts M12 for mounting on the enclosure.

		For enclosure width inches (mm)	
		23.62 (600)	31.49 (800)

Vented with designer cover	3.93 (100)	7825.603	7825.803

Packs of 1 set

Accessories:

Filter mat for trim panel, vented, see page 19.
Base mounting plate 2817.000, see page 19.

Base/plinth trim panels, side

For mounting between the base/plinth components. With 7.87" (200 mm) height, two 3.93" (100 mm) base/plinth trims may be used. Base/plinth trim panels (3.93" (100 mm) high) may be installed rotated through 90° in order to stabilise bayed base/plinth components.

Material:

Sheet steel, spray-finished

Colour:

RAL 7035

Supply includes:

1 set =
2 base/plinth trim panels
including parts for attaching to the base/plinth components.

For enclosure depth inches (mm)	Model No.	
	3.93" (100 mm) high	7.87" (200 mm) high
23.62 (600)	8601.065	8602.065
31.49 (800)	8601.085	8602.085

Packs of 1 set

Also required:

Base/plinth baying brackets 8601.100, see page 19, for mounting rotated through 90° in order to stabilise bayed base/plinth components.

Base/plinth components front/rear			Base/plinth trim, side		
Width inches (mm)	B1	B2	Depth inches (mm)	T1	T2
23.62 (600)	23.62 (600)	16.3 (415)	23.62 (600)	22.4 (569)	17.4 (444)

Filter mat

for base/plinth component, vented

To cover the trim panel in the base/plinth component. The mounting frame simply clips into the base/plinth trim panel from behind. Filter class G3 to DIN EN 779.

Supply includes:

Filter mat with mounting frame.

For enclosure width inches (mm)	Packs of	Model No.
23.62 (600)	1	7561.500
31.49 (800)	1	7581.500

Spare filter mat

Supply includes:

Filter mat without mounting frames for base/plinth trim panels up to 31.49" (800 mm) wide.

	Packs of	Model No.
Spare filter mats	5	7582.500

Base/plinth baying brackets

Essential if the trim panels are mounted rotated through 90° for additional stabilisation during the transportation of bayed enclosures.

Material:

Sheet steel, zinc-plated, passivated.

Supply includes:

Baying brackets, screws M8 x 16 mm

Packs of	Model No.
20	8601.100

Base mounting plate

For fastening the plinth to the floor without moving the enclosure or the bayed enclosure suite. For assembly screws up to 12 mm Ø.

Material:

Sheet steel, zinc-plated, passivated.

Packs of	Model No.
10	2817.000

German utility model no. G 93 08 162

French patent no. 9406612

Dutch patent no. 193235

Base/plinth adaptor

for levelling feet

Connection component for the attachment of M12 levelling feet 4612.000 to the base/plinth.

Material:

Sheet steel, zinc-plated, passivated.

Note:

The levelling feet M10 (included with the supply) of the enclosures cannot be attached beneath the base/plinth.

Packs of	Model No.
4	8800.220

Also required:

Levelling feet, 4612.000.

Base/plinth

Transport castors

for base/plinth

For locating onto the base/plinth corner piece 3.93 or 7.87" (100 or 200 mm) high by raising or tilting.

Ground clearance:

approx. 3.93" (100 mm)

Load capacity:

Maximum permissible static load:
max. 660 lbs static load per enclosure.

Colour:

RAL 7022 (umber grey)

Supply includes:

1 set =
4 roller bearings,
4 twin castors,
2 lockable, 2 not.

Packs of	Model No.
1 set	8800.390

Note:

Combined use with levelling feet is not possible.

Transport castors

For easy transportation between two sites.

The castors may additionally be screw-fastened to the levelling feet in the corner areas of the base frame.

Load capacity:

660 lbs, static

Supply includes:

1 set =
4 transport castors, two of them lockable,
including assembly parts.

Packs of	Model No.
1 set	7000.672

Slide rails

for TE/FR(i)

For mounting between a front and a rear pair of mounting angles. The slide rails can be used to support heavy 19" components.
W x H: 3.34 x 3.14" (85 x 80 mm)

Load capacity:

176 lbs

Material:

Sheet steel, zinc-plated, passivated.

Supply includes:

2 slide rails, assembly parts.

Length inches (mm)	19" distance between levels inches (mm)	Packs of	Model No.

¹⁾ Premium accessories: a direct fit for enclosures in their delivered state.

➡ Possible alternative:

Depth-variable slide rail,
see page 22.

Component shelf, 2 U

static installation

If only one pair of 19" mounting angles is available for mounting a component shelf, this variant offers a particularly cost-effective solution. Retrospective installation of telescopic slides is not possible.

Load capacity:

55 lbs surface load, static

Material:

Sheet steel, spray-finished

Colour:

RAL 7035

Component shelf depth inches (mm)	Model No.
9.8 (250)	7119.250
15.74 (400)	7119.400

! Also required:

Screws, captive nuts,
see page 28/29.

Component shelf, 2 U

static installation or fully extendable

Suitable for installation in all enclosures with only one 19" location point via flange mounting.

Load capacity:

55 lbs surface load, static

Material:

Sheet steel, spray-finished

Colour:

RAL 7035

Supply includes:

1 set =
1 component shelf,
2 installation brackets,
assembly parts.

For static installation or fully extendable¹⁾

Width x depth inches (mm)	Model No.
15.35 x 11.81 (390 x 300)	7148.035

¹⁾ For fully extendable version, telescopic slides 7051.000 should be ordered additionally.

+ Accessories:

Telescopic slides,
see page 460, IT Catalogue.
Handle,
see page 24.

Interior installation

Component shelf, static installation

for direct installation

For fast integration of a component shelf, to accommodate a wide variety of built-in components. Combination with telescopic slides is not possible.

The component shelf is mounted at the side on the front and rear 19" mounting frame.

Load capacity:
66 lbs, static

Material:
Sheet steel, spray-finished in RAL 7035

Supply includes:
Component shelf, including assembly parts.

W x H x D inches (mm)	19" distance between levels	Packs of	Model No.
20.15 x .86 x 16.22 (512 x 22 x 412)	495 ¹⁾	1	7000.620

¹⁾ **Premium accessories: a direct fit for enclosures in their delivered state.**

Component shelf for static installation

Slotted and unslotted

Two versions:

- Max. load capacity 110 lbs
- Max. load capacity 220 lbs

Generally speaking, an installation kit is needed for installation in accordance with the chosen 19" distance between levels.

For simplified setting of the required 19" distance between levels, the enclosure frame of the TE 7000 has mounting attachment points on a 1.96" (50 mm) pitch pattern of holes.

Load capacity:
110 lbs/220 lbs

Material:
Sheet steel, 1.5/2 mm, spray-finished

Colour:
RAL 7035

Supply includes:
Component shelf including mounting accessories.

Also required:

2 TS 8 punched sections with mounting flanges per component shelf in accordance with the chosen 19" distance between levels, see page 27.

Enclosure width inches (mm)	23.62/31.49 (600/800)

¹⁾ **Premium accessories: a direct fit for enclosures in their delivered state.**

Slide rail, depth-variable, 1 U

The slide rail facilitates flexible integration of 19" components without loss of installation height in all enclosures with L-shaped mounting angles or 19" mounting frames in enclosure series TS 8, TE and FR(i) and their server variants.

Installation of the slide rail is independent from the chosen distance between levels, since the installation length may be flexibly adapted.

Material:
Sheet steel

Surface finish:
Zinc-plated, passivated

Length inches (mm)	Load capacity	Contact surface W x D inches (mm)	Model No.
15.35 x 23.62 (390 – 600)	110 lbs	1.96 x 12.99 (50 x 330)	7063.878
23.22 x 36.60 (590 – 930)	176 lbs	1.96 x 20.66 (50 x 525)	7063.880

Supply includes:
2 slide rails, including assembly parts

Component shelf 1/2 U, depth-variable

This space-saving component shelf is screw-fastened to the front and rear 19" attachment level. It is infinitely depth-adjustable and may be fitted independently from the enclosure. Combination with telescopic slides is not possible.

Distance between levels inches (mm)	Model No.
15.74 – 23.62 (400 – 600)	7063.710
23.62 – 35.43 (600 – 900)	7063.720

Load capacity:

110 lbs surface load, static

Material:

Sheet steel

Surface finish:

Spray-finished, RAL 7035

Supply includes:

Component shelf, including assembly parts.

Component shelf, 19" configuration

The component shelves may be inserted in network enclosures with two pairs of 19" mounting angles.

The component shelves offer a number of location points depending on their depth, so that the distance between levels is completely variable in conjunction with the depth-variable installation kit. Each component shelf secured in this way can be retrospectively upgraded to full withdrawal using telescopic slides. For this purpose, the telescopic slides are screw-fastened in place of the spacers.

Load capacity:

110 lbs or 220 lbs surface load, static

Material:

Sheet steel

Colour:

RAL 7035

Supply includes:

Component shelf including spacers for static installation.

Also required:

Depth-variable installation kit, see below.

Component shelf width inches (mm)	16.10 (409)

27.95 – 39.37 (710 – 1000)	220 lbs	7063.890

Packs of 1 set

¹⁾ Only in conjunction with 19.68" (500 mm) deep component shelves

Accessories:

Component shelves, 19", see above.
Telescopic slides, see page 460, IT Catalogue.

Interior installation/cable management

Handles

for component shelves

All component shelves are prepared for the attachment of handles.

Material:

Die-cast zinc, spray-finished.

Supply includes:

2 handles, including assembly parts.

Packs of	Model No.
2	3636.010

Fastening bolts

for slotted component shelves

For non-slip attachment of your components. The bolts are screwed into the longitudinal slots of the component shelf support surface. Consequently, they are infinitely adjustable and can be adapted to suit any appliance.

Packs of	Model No.
4	7115.000

Cable ties

for quick assembly

The super-fast solution for attaching cables in the round system punchings e.g. of punched sections or to the rear of the 19" mounting frame. Simply clip into the round system punchings.

Length inches (mm)	Packs of	Model No.
5.9 (150)	100	2597.000

Cable tie fastener

For all commercially available cable ties up to a tie width of 18" (4.8 mm). Simply insert into the round system punchings and secure by hammering down the split rivet.

Material:

Polyamide 6.6

Packs of	Model No.
100	6059.000

Nylon loop fastener

With the nylon loop fastener, secured sections of cable are easily released, allowing individual cables to be added or removed. Ideal for sensitive data cables (fibre-optic/Cu), as it avoids indentations on the cable sheathing. In addition, the nylon loop fastener may be screw-fastened to the round system punchings.

Colour:

Black

Width inches (mm)	Length inches (mm)	Max. cable diameter inches (mm)	Packs of	Model No.

.629 (16)	11.81 (300)	3.54 (90)	10	7072.240

Also required:

Screw 2486.500 for screw-fastening to the round system punchings, see page 29.

C rail

To accommodate large tensile forces, larger cables or cable sections via cable clamps, and for tidy cable routing inside the enclosures. The cable clamp rails may be located directly on a 19" mounting frame horizontally at the rear or in the enclosure depth between two mounting frames. An additional screw fastening secures the unit.

If the rail is to be secured between two mounting frames, it is necessary to secure the two 19" mounting frames at the corresponding distance from one another beforehand.

Material:

Sheet steel, zinc-plated, passivated

Supply includes:

4 C rails, including assembly parts.

Accessories:

Cable clamps, see below.

Type of attachment	In the enclosure width	In the enclosure depth		
19" distance between levels inches (mm)	–	17.51/19.48 (445/495) ¹⁾	21.45/23.42 (545/595)	25.39/27.36 (645/695)
Model No.	7828.060	7828.040	7828.050	7828.060

¹⁾ Premium accessories: a direct fit for enclosures in their delivered state.

Cable clamps

For attaching cables to C rails, with plastic insert.

Material:

Sheet steel, zinc-plated, passivated.

Cable clamp rails

For strain relief of the routed cables. The cables may be attached to the cable clamp rails with cable ties or nylon loop fasteners.

The cable clamp rails may be located directly onto a 19" mounting frame horizontally at the rear or in the enclosure depth between two mounting frames. An additional screw fastening secures the unit.

The depth-variable version of the rails facilitates flexible adaptation of their length to the pre-scribed attachment distance between the two 19" mounting frames.

Material:

Sheet steel, zinc-plated, passivated

Supply includes:

4 cable clamp rails, including assembly parts.

Accessories:

Cable ties, nylon loop fasteners, see page 24.

Type of attachment	In the enclosure width	In the enclosure depth	
19" distance between levels inches (mm)	–	12.78 – 22.63 (325 – 575) ¹⁾	19.68 – 35.23 (500 – 895)
Model No.	7828.062	7858.160	7858.162

¹⁾ Premium accessories: a direct fit for enclosures in their delivered state.

Cable guide ring, plastic

For flexible cable routing, in two materials and three size variants.
Attachment facility at the side of the 19" mounting frame.

Polyamide version:

Infinitely adjustable fastening by means of a slot.
The guide ring 7218.035 may also be used on 1 U patch panels.

Colour:

RAL 7035

The following applies to 7218.035 and 7219.035:
German patent no. 4413124

Material	Dimensions inches (mm)	Packs of	Model No.
Polyamide	2.75 x 1.73 (70 x 44)	10	7218.035
Polyamide	4.13 x 2.75 (105 x 70)	10	7219.035
Polycarbonate	3.74 x 1.96 (95 x 50)	10	7228.035

Polycarbonate version:

Variable attachment option, with 45° attachment the cable guide ring may be attached to a 1 U panel.

Colour:

RAL 7035

Possible alternative:

Cable management panel, 1 U, see page 460, IT Catalogue.

Cable guide ring

For flexible, system-compatible cable routing at the side of the 19" mounting frame.

Material:

Sheet steel, zinc-plated, passivated.

Supply includes:

10 cable guide rings, including assembly parts.

German patent no. 3813002

Dimensions inches (mm)	Packs of	Model No.
4.72 x 3.14 (120 x 80)	10	7111.900
4.72 x 2.36 (120 x 60)	10	7111.000
3.14 x 1.45 (80 x 37)	10	7112.000

Cable guide ring

To accommodate large quantities of cables. Cable guide ring for side attachment to 19" sections in 31.49" (800 mm) wide network enclosures. The cable guide ring is attached asymmetrically, with 1/3 in front of and 2/3 behind the 19" front. In this way, even large quantities of cables can be effectively managed.

Material:

Round steel, zinc-plated, passivated.

Supply includes:

4 cable guide rings with assembly parts.

Dimensions inches (mm)	Model No.
11.81 x 3.54 (300 x 90)	7220.600

TS punched section with mounting flange .66 x 2.87" (17 x 73 mm)

For designing a flexible interior installation, or for accommodating additional components. The punched sections with mounting flanges may be located directly onto a 19" mounting frame horizontally at the rear or in the enclosure depth between two mounting frames. An additional screw fastening secures the unit.

If the rail is to be secured between two mounting frames, it is necessary to secure the two 19" mounting frames at the corresponding distance from one another beforehand.

For simplified setting of this required 19" distance between levels, the enclosure frame of the TE 7000 has mounting attachment points on a 1.96" (50 mm) pitch pattern of holes.

Material:

Sheet steel, zinc-plated, passivated

Supply includes:

4 punched sections with mounting flanges, including assembly parts.

German patent no. 196 47 802

Type of attachment	In the enclosure width	In the enclosure depth					
19" distance between levels inches (mm)	–	17.51 (445)	19.48 (495) ¹⁾	21.45 (545)	23.42 (595)	23.39 (645)	27.36 (695)
Model No.	8612.060	8612.140	8612.040	8612.150	8612.050	8612.160	8612.060

¹⁾ Premium accessories: a direct fit for enclosures in their delivered state.

Note:

When selecting a distance between levels outside of the mounting attachment points, it is advisable to use the depth-variable punched section with mounting flange, see below.

TS punched section with mounting flange .66 x 2.87" (17 x 73 mm), depth-variable

For designing a flexible interior installation, or for accommodating additional components. The punched sections with mounting flanges may be located in the depth between two mounting frames. An additional screw fastening secures the unit.

The depth-variability of the rails facilitates flexible adaptation to the prescribed attachment distance between the two 19" mounting frames. An additional punched centre piece slides along the rail in the depth and can be secured to slots.

19" distance between levels inches (mm)	Packs of	Model No.
16.53 x 23.22 (420 – 590)	2	7000.676
25.59 x 32.28 (650 – 820)	2	7000.678

Material:

Sheet steel, zinc-plated, passivated

Supply includes:

2 variable punched sections with mounting flanges, each with a sliding centre piece, including assembly parts.

Grounding/assembly parts

TE socket strip

8-way socket strip for grounding-pin plugs/version D. The strip is made of plastic and may be mounted vertically on the TE frame or in the rear 19" section. In the 19" section, more than 1 U of space is required. The sockets are arranged at an angle of 45°, so that angular connectors may also be easily used. The socket strip is supplied with a 2 m connection cable. The connection cable is attached in a terminal slot in the strip. The terminal slot is equipped with a separate cover, so that easy, fast access to this connection point is always available. The connection cable is likewise easily replaced. Furthermore, the socket strip has external terminals for separate grounding.

Technical specifications:

Rated voltage: 230 V AC

Rated current: max. 16 A

Connection cable: Length 2 m, H05VV-F3G, 1.5 mm², without connectors with wire end ferrules

TE socket strip	Model No.
8-way, earthing-pin	7000.630

Complete grounding kit

For system-compatible earthing of all enclosure parts on the enclosure frame according to VDE. The earth conductors are pre-assembled ready for connection with connectors and cut to the correct length.

Supply includes:

Grounding conductors, 6 mm² including assembly parts.

Packs of	Model No.
1 kit	7000.675

Also required:

Grounding kit 7526.981 for the installation with module plates.

Assembly screws

M5 x 16 mm/M6 x 16 mm

For rack-mounted electronics, 19" installed equipment and blanking plates, including plastic washers.

Design	Packs of	Model No.
Phillips-head screw M5	100	2099.500
Cheese-head screw M6	100	2093.200
Phillips-head screw M6	100	2089.000

Torx screws

M5 x 16 mm/M6 x 16 mm

For optimum transmission of torques, an extended tool life and increased safety and reliability when tightening and loosening screw connections.

Supply includes:

Assembly screws with Torx screw head including plastic washers.

	Bit size	Packs of	Model No.
M5	Torx 25	100	7094.500
M6	Torx 30	100	7094.600

Captive nuts M5/M6

For the attachment of rack-mounted electronic equipment, 19" installed equipment and blanking plates to mounting angles, 19". For use with metal thicknesses from 0.8 – 2.0 mm. In areas of narrow tolerance, captive nuts for metal thicknesses of 1.2 – 1.5 mm should be used. Optionally with or without contact of the installed equipment to the 19" section/enclosure.

Captive nut M5

Design	Packs of	For metal thicknesses mm	Model No.
With contact	50	0.8 – 2.0	2094.500
Without contact	50	0.8 – 2.0	2092.500

Captive nut M6

Design	Packs of	For metal thicknesses mm	Model No.
With contact	50	0.8 – 2.0	2094.200
Without contact	50	0.8 – 2.0	2092.200
With contact	50	1.2 – 1.5	2094.300
Without contact	50	1.2 – 1.5	2092.300

Torx screws

For round holes 4.5 mm diameter in the enclosure section, punched rails and punched sections without mounting flanges.

	Dimensions	Packs of	Model No.
Torx screws	5.5 x 13 mm	300	2486.500

CMC-TC monitoring system

The CMC-TC monitoring system protects the safety-relevant network components, and hence sensitive data, in the TE enclosure. The system is installed using the plug & play system via RJ connectors. The sensors are automatically detected and set up. The network interface is Ethernet 10BaseT. The security information may be accessed via the data network. TCP/IP, SNMP, WEB, FTP, Telnet and RS 232 are used. A basic package required for every application is listed below. The three function packages listed are additionally available for selection. Further information and functions (SMS via GSM etc.) may be found in our IT News 2004 brochure.

Basic package for up to 4 function packages:

CMC-TC processing unit	7320.100
CMC-TC power pack 24 V, input 100 – 230 V AC	7320.425
CMC-TC 1 U mounting unit	7320.440
CMC-TC connection cable, sensor unit 0.5 m, packs of 4	7320.470
CMC connection cable D 230 V AC	7200.210
Programming cable	7200.221

Function packages:

1. Climate control package for TE fan control:

CMC-TC climate unit	7320.230
CMC-TC temperature sensor	7320.500
CMC connection cable D 230 V AC	7200.210

Matching TE fan mounting plate, see page 16.

2. Access package for TE door control:

CMC-TC access unit	7320.220
CMC-TC access sensor, packs of 2	7320.530
CMC-TC coded lock	7320.770

Matching handle and accessories, see page 13/14.

Indicator package for TE alarm monitoring:

CMC-TC I/O unit	7320.210
CMC-TC temperature sensor	7320.500
CMC-TC humidity sensor	7320.510
CMC-TC smoke alarm	7320.560
CMC-TC digital input	7320.580

For a further selection of sensors, see IT News 2004.

B = Width
T = Depth

Benefits:

- One-piece 19" wall-mounted enclosure, rigidly constructed.
- With glazed or sheet steel door at the front, including security lock 3524 E.
- Interchangeable door hinge.
- Open rear panel as space for cable entry.
- 19" mounting angles at the front, from inner edge of door adjustable in the depth from .98 – 4.33" (25 to 110 mm).
- Round openings on all sides for cable entry between several enclosures, or for access during installation and maintenance work, concealed by covers.
- Three rectangular cutout pre-punchings at the rear top and bottom, optionally for cable entry.
- Vent slots at the side for passive ventilation.

Material:

Sheet steel enclosure, viewing window, single-pane safety glass 0.11 oz (3 mm)

Surface finish:

Primed, powder coated

Colour:

RAL 7035

Supply includes:

Wall-mounted enclosure with 19" level at the front

regarding the Global IT Rack TE 7000.

☐ Please arrange for a specialist advisor to visit me

☐ Please call me back

Please send me your brochure

☐ "IT News 2004"

☐ "CMC Top Concept"

Rittal has one of the largest ranges of enclosures available for immediate delivery. However, Rittal also supplies integral solutions at a high level – up to Level 4. Fully assembled and functional, tailored to your specific requirements. Wherever your location.

The global alliance between production, distribution and service guarantees customer proximity. World-wide! Wherever in the world you develop and implement solutions for yourself and your customers, we are close at hand.

Rely on the all-round competence of a strong partner:

-  Industrial enclosures
-  Electronic packaging
-  System climate control

-  Power distribution
-  IT solutions
-  Communication systems
