

# Introduction

Heinz and Philip Schmersal,  
Managing Directors of the Schmersal Group

## **Safety in system – Protection for man and machine**

Often, it is unavoidable that people have to intervene with the workings of a machine. When this is done, the safety of the operator is imperative. This demands the responsibility of the machine operator, which is also required by the world's standards and guidelines for machine safety.

The Schmersal Group has concentrated for many years on safety at work with our products and solutions; today we can offer the industry the world's largest range of safety switchgear and systems for the protection of man and machine.

Under the guiding principle "Safety with system – protection for man and machine" we develop and produce products that carry the system concept and can be optimally integrated into the work processes. Because we are convinced that safety does not contradict higher productivity.

In our fields of activity we have a leading position due to our expertise, our innovative power and our comprehensive range of products. With this we follow a central theme: Together with you, we want to make the world a little safer. Talk to us – we look forward to working with you.

# AS interface safety at work

## Introduction

## Description

### Fast mounting, smooth installation

The AS interface enables fast mounting and installation of the components in the safety circuit. The safety switchgear devices are connected to each other and also to the AS-i master and the safety monitor via the yellow AS-i two-wire unshielded line. The power supply also comes from the AS-i unshielded 2-wire line. For AS-i slaves with higher power requirements, the black profile cable with 24 VDC auxiliary voltage is available. It is possible to connect not only operational but also fail-safe AS-i slaves to an AS-i master in mixed configuration. The safety functions are smoothly configured in the AS-i safety monitor through the ASIMON software.

### Flexible in use

Even after installation it is possible to change or enhance an AS-i safety system at any time. This applies to both safety switchgear add-ons and switchgear configuration (e.g. safety links, STOP category, filter times etc.).

### A tried-and-tested "multilingual" system

With over 7 million safety switchgears in the field, AS-i Safety is the most successful safety bus in the world. In addition to the smooth wiring and configuration, the fact that AS-Interface can communicate with all conventional and commonly used bus systems, has considerably contributed to this success. For the user of the AS-i Safety System, this means that his system speaks many languages - for instance: PROFIBUS, PROFINET, EtherNet/IP and ModbusTCP. For AS-i safety there are also solutions for the field buses DeviceNet, CC-Link, CANopen and Sercos III. In this way, a universal application through different communication standards is enabled.

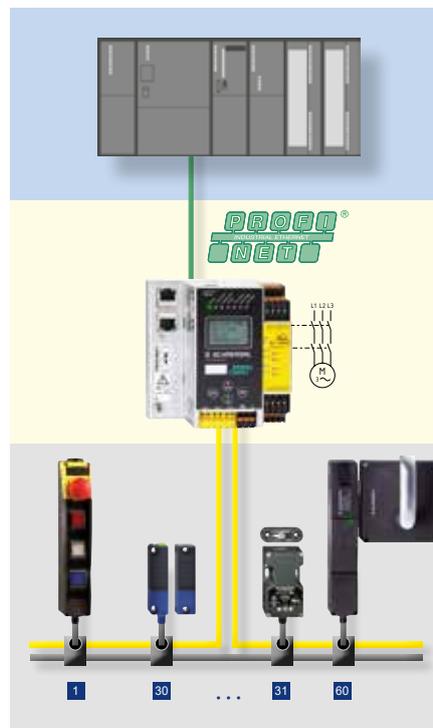

### An economic solution – also for smaller machines

When does the installation of an AS-i Safety System generate return on investment? When purely considering the costs, cost advantages are already generated – depending on the application – as of six safety switchgear with 6 m connecting cable each – compared to the parallel wiring. In addition to that, there are advantages, which cannot be directly included in the cost savings. These advantages include the smooth extension possibilities, the increased flexibility for making changes to the safety circuit afterwards and the clearly enhanced diagnostic possibilities. Also the comfortable configuration through the safety monitor is an advantage, which is already featured by the smallest AS-i Safety System.

## System structure

## User advantages

- Individually scalable safety solutions for different machine sizes
- Smooth, fail-safe installation and interface connection of the safety switchgear through AS-Interface
- Comfortable configuration of the safety solution through the "ASIMON" Drag & Drop software
- Complete diagnostics of the entire safety circuit and all connected safety switchgear by the control system
- High operational safety through individually configurable safety-monitoring modules with multiple filter functions, e.g. for bouncing safety guards
  
- The safety functions can be easily changed or extended at a later date
- Cost-advantageous parallel wiring, approximately six switchgears each with a 6m connecting cable

4 beams	900 mm		SLG440AS-ER-0900-04	103007557

## Object blanking

1 Object blanking area  
2 Movable object

For safe production, object blanking can be used in contrast to the muting function to blank just part of the protection field. This makes it possible to add objects, e.g. workpieces, or position a conveyor belt with a fixed position in the protection field without triggering a stop signal.

With integrated movable object blanking (floating blanking) of the SLC440-AS light curtains, up to 2 light beams of the light curtain can be blanked flexibly. This function is required if there is a need to be able to interrupt light beams in the protection field at a position that is not specifically defined. In this way, objects such as movable electrical cables or materials with slightly varying heights can be fed through the light curtain without triggering a stop signal.

Different blanking functions are available. The distinguishing feature of the different modes is the number of light beams that can be interrupted by an object. In addition to that, it can be defined whether the object may be in the protection field permanently or only temporarily. The interrupted light beams can be at any position in the protection field. Apart from the first infrared light beam (the beam closest to the connector), any light beam can be used for blanking.

If the floating blanking function is configured the resolution of the light curtain changes. The technical documentation of the different light curtains includes the tables with the effective resolutions to calculate the minimum safety distance according to ISO 13855.

# Compact safety input module ASIM-C

Can be used for safety switchgear with 2 NC contacts

■ ASIM-C-M12-4P-...

■ ASIM-C-M12-8P-...

### Key Features

#### Compact safe input module

- Integrated in passive distributor
- For 2 floating NC contacts
- Convenient LED displays
- Pre-wired M12 connector cables, length 0.5 m and 2.0 m

#### Compact safe input module

- Integrated in passive distributor
- For 2 floating NC contacts
- 50 mA output integrated for LED
- Convenient LED displays
- Pre-wired M12 connector cables, length 0.5 m and 2.0 m

### Product version

#### Type designation / Material number

ASIM-C-M12-4P-0,5M / 103004694  
ASIM-C-M12-4P-2M / 103004695

ASIM-C-M12-8P-0,5M / 103004696  
ASIM-C-M12-8P-2M / 103004693

# Compact safety input module ASIM-C

## Application examples for connectable safety switchgear

The following SCHMERSAL safety switchgear can be connected based on ASIM-C-**4P** ... as an example:

Range PS116	Range PS2xx	Range PS3xx
BNS-B20	BNS 303	BNS 40S
TESK	ZQ 700-ST	ZQ 900-ST

The following SCHMERSAL safety switchgear can be connected based on ASIM-C-**8P** ... as an example:

BDF100-NH / BDF100-NHK	T3Z 068 with G24	ZQ 900 with G24

# Safety monitors ASM

## ASM E1-R2 and ASM E2-R2/R2

■ ASM E1-R2

■ ASM E2-R2/R2

### Key Features

#### Safety monitor for 1 AS-i circuit

- Monitoring of up to 31 safe AS-i slaves
- **One** enabling circuit, integrated with 2 potential-free relay outputs
- Configurable monitoring modules for different safety switchgear
- Range of programmable functions:
  - AND / OR links
  - Different START modules
  - On-site confirmation / start-up testing
  - Filter functions for bouncing protective equipment
  - Stop categories 0 and 1

#### Safety monitor for 1 AS-i circuit

- Monitoring of up to 31 safe AS-i slaves
- **Two** enabling circuits, integrated with 2 potential-free relay outputs
- Configurable monitoring modules for different safety switchgear
- Range of programmable functions:
  - AND / OR links
  - Different START modules
  - On-site confirmation / start-up testing
  - Filter functions for bouncing protective equipment
  - Stop categories 0 and 1

### Product version

Type designation / Material number	ASM E1-R2 / 101176990	ASM E2-R2/R2 / 101176991
Device supply off:	AUX	AUX

### Technical features

Electrical characteristics		
AS-i supply voltage	18.0 V ... 31.6 V	18.0 V ... 31.6 V
AS-i power consumption	≤ 50 mA	≤ 50 mA
AUX supply voltage	24 VDC -15% / +10%	24 VDC -15% / +10%
AUX power consumption	≤ 150 mA	≤ 200 mA
AS-i specification	V 3.0	V 3.0
AS-i profile	7.F	7.F
Relay outputs	3 A / 230 VAC 1 A / 24 VDC	3 A / 230 VAC 1 A / 24 VDC
Mechanical data		
Dimensions (W x H x D)	45 x 105 x 120 mm	45 x 105 x 120 mm
Connection	Screw terminals	Screw terminals
Ambient conditions		
Ambient temperature	-20 °C ... +60 °C	-20 °C ... +60 °C
Protection class	IP20	IP20

### Safety classification

Certificates		

## Programming accessories

Software, programming cable, USB-COM adapter and manual address unit

### ASIMON Software

**Type: ASM G2-CD / mat. no.: 101206151**

- Configuration software for all monitors
- Version 3.1.5.5, fully compatible with ASM safety monitors
- Smooth Drag & Drop configuration of the safety functions
- Representation of the configuration as functional plan (FUP)
- Comprehensive function modules available
  - Monitoring modules for different safety switchgear
  - Filter functions for bouncing safety guards
  - Integrated muting function module
  - START modules
  - STOP 0 and STOP 1 modules
  - EDM modules
- Compatible with Microsoft® Windows 2000/XP/Vista/7

### Configuration cable

**Type: ASM-KC1 / mat. no.: 101161557**

- ASIMON PC programming cable
- COM port D-sub 9-pin on RJ 45 connector
- For ASM E1-R2 and ASM E2-R2/R2

### USB-COM adapter

**Type: ASIC-USB-COM / mat. no.: 103002272**

- USB-COM (RS232) interface converter
- USB 2.0, > 1 Mbps
- For devices with RS 232 diagnostic interface

### Manual addressing unit

**Type: ASHH-1-V30 / mat. no.: 103001798**

- AS-Interface, hand held, AS-i Spec 3.0
- Addressing of AS-Interface slaves
- Slave profile can be read out
- Slave connection short-circuit and overload-proof
- Battery charger included in delivery

## Installation Accessories

### Passive bus distributors and M12 connecting cables

#### Passive bus distributors

**Type: ASSB-2P-1M12-V1 / mat. no.: 103001619**

- Flat-cable distributor AS-Interface
- M12 connector, 2-poles
- Protection class IP67
- Dimensions 28 mm x 41 mm x 35 mm

**Type: ASSB-4P-1M12-V1 / mat. no.: 103001616**

- Flat-cable distributor AS-Interface and auxiliary voltage
- M12 connector, 4-poles
- Protection class IP67
- Dimensions 28 mm x 41 mm x 35 mm

**Type: ASSB-4P-2M12-V1 / mat. no.: 103001617**

- Flat-cable distributor AS-Interface and auxiliary voltage
- 2 M12 connectors, 4-poles
- Protection class IP67
- Dimensions 28 mm x 41 mm x 35 mm

**Type: ASSB-2P-FKB-V1 / mat. no.: 103001620**

- Flat-cable connector for 2 flat cables
- 2-pole bridge
- Protection class IP67
- Dimensions 28 mm x 41 mm x 22 mm

**Type: ASSB-4P-SW-V1 / mat. no.: 103001618**

- Flat-cable distributor AS-Interface and auxiliary voltage
- 4 terminals for single wires
- Protection class IP67
- Dimensions 28 mm x 41 mm x 35 mm

#### M12 connecting cables

**Type: V-SK4P-M12-...**

- M12 connector male – M12 connector female
- PUR cable, PVC-, silicone- and halogen-free
- UL/CSA homologations
- Protection class IP67, IP69
- 5 available lengths  
0.5 m, 1.0 m, 1.5 m, 2.0 m, 3.0 m

# Active safety distributors

Can be used for electronic safety switchgear

■ BWU3565

■ BWU3635

## Key Features

### Safe active AS-i distributor

- Connections for profile cable AS-i/AUX
- With 2 safe inputs for OSSDs and one non-safe output
- Convenient LED displays
- Pre-fitted 8-pin M12 connecting cable, 1.0 m in length

### Can be used e.g. for equipment types:

- AZM 400

### Only non-safe unlocking function!

### Safe active AS-i distributor

- Connections for profile cable AS-i/AUX
- With 2 safe inputs for OSSDs and one non-safe output
- Convenient LED displays
- Pre-fitted 8-pin M12 connecting cable, 1.0 m in length

### Can be used e.g. for equipment types:

- Series CSS: CSS 180, CSS 30S
- Series RSS: RSS 16
- Series AZM: AZM 201

# The Schmersal Group

In the demanding field of machine safety, the owner-managed Schmersal Group is one of the international market leaders. The company, which was founded in 1945, has a workforce of about 2000 people and seven manufacturing sites on three continents along with its own companies and sales partners in more than 60 countries.

Customers of the Schmersal Group include global players from the area of mechanical engineering and plant manufacturing as well as operators of machinery. They profit from the company's extensive expertise as a provider of systems and solutions for machine safety. Furthermore, Schmersal specialises in various areas including food & beverage, packaging, machine tools, lift switchgear, heavy industry and automotive.

A major contribution to the systems and solutions offered by the Schmersal Group is made by tec.nicum with its comprehensive range of services: certified Functional Safety Engineers advise machinery manufacturers and machinery operators in all aspects relating to machinery and occupational safety – and do so with product and manufacturer neutrality. Furthermore, they design and realise complex solutions for safety around the world in close collaboration with the clients.

## Safety Products

- Safety switches and sensors, solenoid interlocks
- Safety controllers and safety relay modules, safety bus systems
- Optoelectronic and tactile safety devices
- Automation technology: position switches, proximity switches

## Safety Systems

- Complete solutions for safeguarding hazard areas
- Individual parametrisation and programming of safety controllers
- Tailor-made safety technology – be it for individual machines or a complex production line
- Industry-specific safety solutions

## Safety Services

- tec.nicum academy – Seminars and training
- tec.nicum consulting – Consultancy services
- tec.nicum engineering – Design and technical planning
- tec.nicum integration – Execution and installation

The details and data referred to have been carefully checked.  
Subject to technical amendments and errors.
