

# BALL SCREWS PRODUCT REFERENCE GUIDE

# **Committed to North America**

NSK manufactures and services ball screws and other linear motion control products in the U.S. NSK ball screw solutions can be found in many applications within the automotive, semiconductor, food and beverage, medical, machine tool and packaging industries.

To respond quickly and efficiently to the unique challenges of our customers, NSK distribution centers, manufacturing facilities and sales offices are strategically located throughout the Americas.

Customers can trust NSK to provide the highest quality domestically-manufactured ball screws, total application solutions and worldclass engineering support. U.S. manufacturing gives NSK the flexibility to quickly respond to your needs — whether you require a next day modification or rush repair and maintenance services after the sale.

#### Around the Globe

NSK Americas is one of the world's leading manufacturers of motion and control products. A global company with sales of over \$8 billion, NSK employs over 25,000 employees at 63 ISO certified manufacturing facilities. Our 113 sales operations are located in 27 countries around the globe.

With over 90 years of experience, NSK products and solutions have been chosen by leading brands around the world. As an industry innovator, NSK can help you lead the way by delivering high quality motion and control solutions.

#### **Local Solutions**

NSK's 77,950 sq. ft. manufacturing facility in Franklin, Indiana is dedicated to manufacturing precision products and serving the Americas markets. Certified to ISO9001:2008 and ISO14001:2004 standards, this state-of-the-art plant ensures shorter manufacturing lead times and quicker turnaround to meet the needs of customers from coast to coast.

With domestic manufacturing and custom configurations, NSK can meet your deadline.

## **NSK Ball Screws**

#### **Ball Screw Product Range**

Compact FA Series

#### **Quick Ship Ball Screw**

- Fastest ball screw on the market
- Compact design with ball nut size reduced up to 30%\*
- Noise output reduced up to 6 db\*
- Ideal for all industries
- Available with 4 week lead time on standard sizes
- Domestically manufactured at NSK's Franklin, Indiana ball screw plant

Standard Series

#### Standard Series Ball Screw

- High accuracy and rigidity ensure optimal performance
- Maintenance-free operation available with K1™ Lubrication Units
- A variety of options and accessories to best meet your unique requirements
- Ideal for all industries
- Standard sizes available in stock for fast delivery
- Domestically manufactured at NSK's Franklin, Indiana ball screw plant

#### **Ball Screw Accessories**

K1™ Lubrication Units

#### Maintenance-free Lubrication

- Reduced risk of mechanical failure
- Extended lubrication life even in severe environments
- Reduced equipment cost, improved machine design and efficiency with no oil piping required
- Environmentally friendly

HP Seals

#### High Performance Seals

- Provides an effective barrier against contamination
- Multi-lip structure reduces entry of foreign matter in contaminated environments
- Extended operating life and reduced cost as product life is increased up to four times\*
- Entry of foreign matter is reduced to less than 1/15\*

Special Environments

#### Special Environments

- Armoloy Coating a hard, protective coating provides corrosion resistance plus increased durability. Available on domestically manufactured products.
- Black Chrome Coating provides corrosion resistance and is ideal for application using acid or other harsh chemicals. Contact NSK for availability.
- Fluoride Black Chrome Coating offers higher corrosion resistance than standard black chrome.
   Contact NSK for availability.
- Clean Room Grease low dust emission with high durability and higher rust prevention than fluorine greases.

Support Units

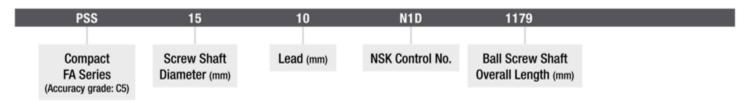

#### Support Units

- Time saving, easy installation with NSK ball screws
- Offer high dust protection to extend ball screw product life
- Specially designed units provide maximum performance for applications from light to heavy loads

#### NSK on the Job

To receive a large bonus, a theatrical equipment manufacturer needed to design and assemble an application within an extremely tight deadline. The customer preferred a domestic manufacturer to ensure on-time delivery, and the application's unique specifications demanded that the customer find a supplier with exceptional engineering support. NSK was the logical choice for the customer.

The application was a unique design that incorporated two stages in one. The unit turned completely upside down and had to perform smoothly and quietly at all angles despite heavy, uneven loads.

NSK's combination of domestic manufacturing and engineering expertise helped the customer meet their tight deadline, and receive their bonus, along with the recognition of a job well done.
