Swing Panel Mounting

Swing Panel for Consoles are (12) gauge steel, have a dual hinge swing panel bracket and are furnished with panel brackets and all hardware necessary for channel and panel mounting. Panels can be installed such that they hinge either on the left side or right side. Console body design permits the panel to adjust along the depth of the enclosure. The dual hinge allows the inner panel to swing completely out of the rear opening when within 5.50 inches. Panel and swing panel can be mounted back-to-back.

Terminal Strap Mounting

Terminal Strap Kits assemble conveniently to the channel on either side of the console body. Channel mounting hardware should be purchased separately for installation. Full length straps are furnished with adequate space for the users' terminal blocks or terminal blocks and extra straps can be purchased separately (see detail sheet and the Accessories section).
