# IIoT Gateway Controller

- Control wireless networks, consolidate networks, create a network backbone
- Programmable to solve specific applications
- Ethernet and cellular connectivity

- Send alert messages
- Create local logs
- Relay register data to the cloud

End-to-End IIoT Solutions

The DXM Series Gateway/Controller enables end-to-end IIoT solutions, connecting Banner sensors to Banner's Connected Data Solutions (CDS) cloud platform. The DXM can push data to Banner CDS where it can be easily consumed with intuitive, customizable dashboards; it can log data for immediate or long-term analysis; and it can send instant alerts and alarms when corrective actions are needed.

• The DXM Series integrates Banner's ISM radio, cellular connectivity, and local I/O

• Program the DXM using action rules and ScriptBasic language, which can execute concurrently

• Log data on the Micro SD card

• Automation protocols include Modbus RTU, Modbus/TCP, and EtherNet/IP for communications with PLC's, HMI's, or other local hosts

• Interactive programmable user interface with LCD and LED indicators

• Industry standard RS-485, Ethernet, and USB communication ports

• Easily interfaces with Banner CDS and other cloud service providers

Connected Data Solutions

Predictive Maintenance Monitoring: monitor equipment to detect problems early and avoid additional damage and unplanned downtime

Environmental Monitoring: minimize material loss by monitoring temperature and humidity in climate controlled areas

Productivity Solutions: create call-for-parts/service and pick-to-light systems to increase productivity and reduce error

The DXM can provide visual indication, email or text notifications, collect the data, and send it to a host system or the cloud

Accessories

PSW-24-1
DC power supply – Wall mount, 24V dc 1A, Euro-style 4-pin connector

PSDINP-24-13
DC power supply DIN rail mount, 24 - 28V dc, 1.3A

MQDMC-401
Euro-style male quick disconnect cable, 4-Pin straight connector

BWA-AH12106
enclosure

SX1-LTE-001
Cellular Data Modem Verizon 4G LTE Cat. 1

SX1-GSM-001
Cellular Data Modem Worldwide HSPA 3G with 2G GSM fallback
