

Measuring Wheels

Our measuring wheels are the professional's choice for reliability and robust construction.

5000 Series Professional Road Measuring Wheel

The Trumeter 5000 has been the professional road measuring wheel of choice for decades. It is used around the world by professionals in industries including construction, survey and civil services. The 5000 road distance measuring wheel adds forward and subtracts in reverse. It is hard wearing with a built-in stand and brake, has a large, easy-to-read display and folds down for easy transport. Carry bag included.

5000-611 Meters & Decimeters

5000-612 Yards & Tenths

5000-519 Feet & Inches

Digits: 6 Digits

Reset: Lever

Wheels: 1 Meter Circumference

5500 Series Light Weight Road Measuring Wheel

The 5500 Series is our lightest measuring wheel for effortless use, lift, carry and transport. It adds forward and subtracts in reverse, with a retractable stand and telescopic handle that folds down for easy transport.

5500 Mechanical / Meters & Centimeters / 5 Digits

5500E Electronic / Meters & Centimeters / 6 Digits

5505E Electronic / Meters & Centimeters, Feet & Inches, Yards & Tenths / 6 Digits

Reset: Push button

Wheels: 1 Meter Circumference

5061/5063 Series Rail Measuring Wheel

The 5061/5063 rail track measuring wheel was designed with input from international railway companies to make the most effective tool for accurate measuring of railroads. The 5061/5063 adds forward and subtracts in reverse. Its polyurethane covered metal measuring wheel provides traction and durability, and dual metal side plates keep the unit stable on the rail. It comes with a carry case for easy transport.

- 5061-511** Meters & Decimeters
- 5061-512** Yards & Tenths
- 5061-519** Feet & Inches
- 5063-511** 2 Counters, Meters & Decimeters
- 5063-512** 2 Counters, Yards & Tenths
- 5063-519** 2 Counters, Feet & Inches

Digits: 6 Digits
Reset: Lever
Wheel: 0.5 Meter Circumference

5041 Series Land Distance Measuring Wheel

This hard wearing measuring wheel is specifically designed for rough and undulating terrain. The high quality, rugged construction provides durability while the large circumference wheel ensures the greatest accuracy over rough terrain. It has a heavy duty counting head fitted directly to the wheel and a robust mechanical counter for accurate distance measurement of +/- 1%. Built for use on challenging terrain, lateral motion in the wheel rim by up to +/-17mm is expected and does not affect measurement.

- 5041-511** Meters & Decimeters
- 5041-512** Yards & Tenths
- 5041-503** Feet & Inches

Digits: 6 Digits
Reset: Lever
Wheel: 1.78 Meter Circumference
