## **EPR and PER Series**

The EPR and PER Series Right Angle Bevel Planetary Gearboxes provide all the advantages of our popular EPL and PE inline gearboxes in a right angle configuration. Offering the best quality available for the price point, the EPR and PER are ideal for most servo, stepper and other motion control applications. With the same selection of outputs as the EPL and PE, there is an EPR or PER to fit your application.

#### **EPR Series**

The EPR performance right angle bevel planetary gearbox offers the best quality available for the price point with features unequaled in its class.

- Easy to configure with 5 outputs matching the EPL
- 30,000 hours of service life for most models
- Ratios from 3:1 to 1000:1
- Ready to mount to your motor

#### **The PER offers**

The PER right angle bevel planetary gearbox is a value alternative to the EPR when radial or axial loadings are minimized.

- PER-W with a metric output
- PER-N with a NEMA output
- Ratios from 3:1 to 1000:1
- Ready to mount to your motor

- I. Adapter Plate (Customized adapter plates for quick and easy motor mounting)
- 2. EPL: Angular Contact Bearings (for high radial and axial loading) PER: Deep Groove Ball Bearings (dual ball bearings)
- 3. Input Clamping Element
- 4. Planet Gears (Precision ground gears)
- 5. Ring Gear (Ring gear incorporated into housing)

- 6. Output face
- 7. Precision ground spiral bevel gears
- 8. Bevel gear supported at both ends (input to planetary)

## **EPR Series**

#### **EPR-W**

- GAM metric output face with heavy-duty output bearings
- Frame sizes from 50 mm to 150 mm

#### **EPR-A**

- Metric output dimensions match popular gearboxes
- Frame sizes from 50 mm to 155 mm

#### EPR-X

- NEMA output face with oversized English shaft
- Frame sizes from NEMA 17 to 56

#### EPR-F

- Flange output
- Sizes from 110 mm to 140 mm

#### EPR-H

- Hollow output with zero-backlash clamping ring for direct connection to any linear actuator
- Sizes from 64 mm to 118 mm

## **PER Series**

#### PER-W

- GAM Metric output face
- Frame sizes from 50 mm to 118 mm

**PER-N**NEMA output face

• Frame sizes from NEMA 17 to 42

GAM is your complete source for Gear Reducers, Servo Couplings, and other precision mechanical drive solutions used in automation technology.

With one of the largest product offerings in the motion control industry as well as the engineering expertise and manufacturing capabilities to develop customized solutions, GAM can help with your application.

Being flexible to meet the needs of customer requests and great service are what set us apart from the rest.

- Clean layout for easy navigation
- Continually updated with pertinent news and information
- Online Catalog with over 16,000 products
- Search products on performance specifications or by part number

#### **Download CAD models**

- All products configured to your specifications
- Quickly downloadable in popular 2D / 3D CAD formats
- Models available in .PDF and 3D PDF
- Motor selection tool for simple adapter plate generation

- Quickly size the right gear reducer, coupling, or linear mount product compatible with your motor
- Over 9,000 popular servomotors available
- Easily narrow down the products that match
- Compare matching products side-by-side
